The War Department today issues the smallest casualty reported in several months. There are only 367 names for the nation. Included in the report are fifty-one names of men from this State, the number recorded for the city alone yesterday.

Word was received from the War Department today that several thousand minor casualties were yet to be announced. Congested conditions in the War Office at Washington have made it necessary to withhold the names for a few days.

After three months of waiting, relatives have learned the fate of Corporal Leroy B. Hinton, 4252 Regent street, who was reported killed in action in September.

Corporal Hinton was a member of the 31st Infantry, and before entering the military service was associated with McPherson Brothers, cotton brokers, of this city.

Letter Tells of Death The following statement concerning Corporal Hinton and how he was killed, was received in a letter to Robert H. Berk, 4252 Regent street, signed by a sergeant of the company of which Hinton had been a member.

The 31st Infantry was holding the front lines in the Argonne sector on September 23, and all efforts to bring up supplies had failed, except for German artillerymen had trained their big guns on the only road that food and water could be brought up.

Volunteers came from the men in the trenches to bring up food and water to supply the immediate needs of the hard-pressed infantry division.

Corporal Hinton volunteered for this detail and when returning was mortally wounded by a bursting shell. He lived only a few hours. Of the twenty men in the detail, only three were left.

Corporal Hinton was born in Virginia, but spent much of his boyhood in this city and finished his education at the De Hittney vocational school. Dr. Brewster Hinton, has served with distinction in France for more than two years.

Missing Soldier Found One of the Philadelphia boys on the list today is said to have died of disease and one of wounds. Three are reported wounded severely and one man who was previously reported missing has returned to duty.

Another mistake is acknowledged by the War Department today. Private Joseph Cavanough, who was reported killed in action, is now declared to have returned to duty. He was uninjured, the official telegram said.

SKETCHES OF THE HEROES Private Joseph Cavanough, severely wounded at the battle of Bellefleur, has returned to this country and a boy at the home of his parents at 861 North Twenty-sixth street. A nephew is attached to the 31st Infantry.

RHINE IS GUARDED BY U. S. MARINES

"No German Has Put One Over on Them." Asserts Returning Hero

"ALL IN TIPTOP SHAPE" The marines are still as popular in Germany today as they were in the early days of July of last year when they pushed the Germans back from the Marne.

They are patrolling the Rhine in the vicinity of Coblenz and no German has yet been able to "put one over on them," according to Sergeant Walter P. Collins, of 2106 East Moyamensing avenue, who left that territory only a few weeks ago.

Collins, arriving on the transport Santa Fe, which returned this evening at 1:45, says that the 12th and 13th regiments, 14th men, including Bordeaux convalescent detachments 1 to 7 inclusive, 11 to 14 inclusive, 17 and 18 and 68; casual company, from Virginia and 35 officers and 1267 sick and wounded.

Practically every division in the army of occupation has some specific duty to perform these days, Sergeant Collins declared, and when the Fifth and Sixth Marines arrived in Germany they were immediately put to work to patrol the Rhine.

In addition, they navigate the excursion boats which are run for the benefit of the sight-seeing doughboys. The private yacht Preussen, formerly owned by the Ober president of the Rhine provinces, is now controlled by Major General Joseph T. Dickman, commander of the Thirty-second Division.

"We run things on the Rhine now and everything is in tip top shape—take it from the marines," Collins added. The sergeant was in the Chateau Thierry, where he and his men fought and joined the Fifth Regiment and fought with them to the end receiving some minor wounds, but in the first week of January he became ill and was ordered home.

"Pat" Kline Aboard Among the wounded men was Private "Pat" Kline, of the 169th Infantry, who was reported killed in action, but before he left Bordeaux he won the lightweight championship of the town from a Frenchman in a two-round bout.

Among the returning Philadelphia boys are: Sergeant Joseph A. Forester, 3941 Chestnut street; Sergeant Charles H. Williams, 1424 North Fifty-fifth street, Company G, of the 118th Infantry, gunshot wound; Major General Joseph T. Dickman, 3941 Chestnut street, Company B, of the 31st Infantry, gunshot wound; Corporal Charles H. Hunter, 1908 East Silver street, 32nd Ambulance Train; Richard Muller, 3102 Frankford street, Company E, of the Sixteenth Infantry, gunshot wound; Sergeant Maurice Clayton, Headquarters Company, of the 316th Infantry.

Other Philadelphia men were Privates Grant E. Stone, Germantown, and John E. Fox, 1723 North 81st street, Headquarters Company, 508th Signal Battalion, who were driven over a car when it overturned, and a car overturned, and the accident had been official headquarters of the 306th Tank Corps, and the accident happened January 21. He was instantly killed, said the War Department message.

Private Eberle sailed for overseas in December, 1917, as a member of Ambulance Corps and was recommended for the Distinguished Service Cross. He was reported killed in action, but he was reported to have returned to duty. He is expected to live through the Argonne fighting, he said in a letter home shortly after the armistice was signed. "I was darning blither and blither with the colonel and was the official messenger besides. He was the son of Mr. and Mrs. George T. Thomas when at the Johnson street address. He was twenty years old.

BOLLING DIED A HERO

Chauffeur Tells How Colonel Was Trapped by Germans

Greenwich, Conn., Feb. 14.—The first accurate account of how Colonel R. C. Bolling, of New York, former general counsel for the United States Steel Corporation, lost his life on the battlefield in France, has been made public. "Clark D. Lerner, one of his closest friends.

Mr. Lerner first got copies of affidavits from the United States War Department, military chauffeur to Colonel Bolling, which were filed at the Paris War Office. He then went to the front and saw the officer who led and reloaded his platoon, despite the fact that he was wounded in the head by a German officer who appeared on the rim of the shell hole and fired at Bolling. The man was still three miles east.

He considered his chauffeur to ascend a hill from which he desired to view the Somme battlefield, but before the summit was reached the German machine guns opened fire from both sides. The colonel ordered Holder to jump into a shell hole. From this hole the German saw the officer load and reload his platoon, despite the fact that he was wounded in the head by a German officer who appeared on the rim of the shell hole and fired at Bolling. The man was still three miles east.
