More Activity Likely Soon With Introduction of Administration Bills

Representative Vickerman made the demand for a hearing on the bill and his resolution to that effect was supported by Representative John R. K. Scott. The House turned down the Vickerman resolution and then passed the Dithrich bill finally.

Its passage was due to the fact that many of the independent members had been pledged in advance to vote for the bill. The very next day after the measure had been ruished through first reading in the Senate the "dry" members from rural districts formed the Legisiative League.

Many of the "drys" were incensed at the tactics used in jamming the measure through first reading in the Senate after certain amendments had been made by Senator Max Lesie, of pittsburgh, before the bill was ever measaged from the House to the Senate.
