

SCHOOL SYSTEM PROBE PLANNED

Investigation of Work by Legislative Committee Is Sought

RESOLUTION PREPARED

Bill Introduced in the House Provides for a Bureau of Physical Education

Harrisburg, Feb. 20.—The school system of Pennsylvania will be investigated by a legislative committee made up of five members each of the House and Senate, if the Senate adopts a resolution which has been prepared on the subject.

The committee will hold hearings in this city and in Philadelphia and Pittsburgh and other cities in the State. Sentiment among Senators and Representatives is so strongly in favor of the proposed investigation that there is not the slightest doubt of the passage of the resolution.

Representative William T. Ramsey, who is back of the movement for an investigation, asserted it would be conducted along the lines pursued at the last session, when virtually every department of the government was investigated at the instance of Governor Sproul.

Probe Did Good

"The Sproul committee," said Mr. Ramsey, "did much good in showing the delinquency in many branches of the state government and resulted in useful legislation and the correction of many abuses which had crept into the various departments. The commission for an inquiry into the school management will result in legislation which the Sproul committee stopped. There is no thought of muckraking now or there is any idea of looking for the official scalp of any man but the object of the delinquency in the administration of the schools is patent to all who have studied the subject.

"Steps will be taken to get at the facts and to have remedial legislation prepared for passage at this session. Complaints have come to me from members of patriotic societies with which an account of the local conditions in many sections of the state are not what they should be, and also that there is a lack of co-operation among the central managing body.

"We look for the hearty co-operation of Governor Sproul, who has always manifested an interest in the public schools, and expect to draft legislation which will meet with approval. The proposed commission to consist of five Senators and five Representatives will be composed of men who will agree to sit here in Harrisburg at the week-ends following the adjournment of the Legislature and will gather all the information obtainable here, and later, if that shall be deemed necessary, will go to other parts of the state to get data upon which to base their recommendations to the General Assembly.

Physical Education Bureau Representative John F. Bigler, of Mercer County, introduced a bill in the House providing for the creation of a bureau of physical education under the direction of the State Superintendent of Schools. The bureau would be authorized to devise and direct a course in physical education, "together with instruction as to the privileges and responsibilities of citizenship as they relate to community and national welfare." The measure provides for the appointment of a director of physical education and appropriates \$25,000 for the expenses of the proposed bureau for two years, beginning the first of July next.

LOWER FUEL PRICES

OPPOSED BY MINERS

Harrisburg, Feb. 20.—Presidents and secretaries of the five districts in Pennsylvania of the United Mine Workers of America, conferred here yesterday with Representative Fowler, who is also a national organizer of the union, on legislative matters affecting the mining industry.

The organized men, it was said, are opposed to the Glass bill, which provides for a commission to investigate high prices of food and fuel with the object of having prices scaled downward. The miners fear that any general reduction in the price of fuel now would have a tendency to reduce wages. The union leaders favor increasing compensation from 50 per cent to 65-75 per cent of a man's pay in which he is killed. They also want the amendment favored provided that an injured man be paid a specified number of weeks during incapacitation. The union men also want an amendment that will compel parents of a minor who is killed to prove only parentage, and not that minor was the sole support of the parents.

WIFE SINGS AS HUSBAND PAINTS

Artist Depicts Emotions of Hindu Princess on Canvas

A Hindu princess will sing the songs of East India and translate them into English, while her painter-husband displays his artistic conceptions of Indian melodies at the Art Alliance on February 25, at 4 o'clock.

The princess, Mrs. Pyzee-Ishammin, began in the soft clinging draperies of the Hindu women chants the peculiar rhythmic cadences of the Hindu folk songs and classic music, drawing more melody for accompaniment from her tambourine.

ESTATES GO TO RELATIVES

Wills Dispose of Property in Private Bequests

Relatives receive the bulk of the estates left in bequests in wills filed today. The following wills were admitted to probate:

W. Norman Bailey, 215 East Gravers Lane, \$100,000; Richard T. Brown, 427 Locust Street, \$15,700; Edward C. Williams, 223 Walnut Avenue, \$13,000; Ernest A. Fisher, Graysbrook, 1244 North Broad Street, \$118,000; Harry D. Baker,

HIGHWAY DEPT. CHANGE FAVORED

Reorganization Measure Passes First Reading in the House

SUGGESTED BY SPROUL

Many Other Bills Are Introduced and Others Acted Upon by Legislators

Harrisburg, Feb. 20.—The Senate bill to reorganize the State Highway Department in accordance with ideas of Governor Sproul has been reported from the House Roads Committee and passed for the first time at the request of Chairman Williams, of Tioga.

The House passed finally the bill reorganizing the department of the Secretary of the Commonwealth and on second reading that reorganizing the Governor's office. The two Schantz bills relative to liquor license payments were reported from committee.

The Palmer bills to clarify the escheat acts now in the Supreme Court were also passed finally, together with an amendment to a tax revision for Schuylkill County.

DOG WEARS SERVICE STRIPES
