Committee to See President and Tell Him War on England Has Been Voted

Ireland's claim to self-determination will be greatly aided by the work begun in this city as the result of the convention of the Friends of Irish Freedom, which ended its sessions here last night.

This opinion was voiced today by Michael J. Ryan, former Public Service Commissioner ; Dr. William Carroll, Dr. Patrick McCartan, envoy of the Irist republic; Michael Donohos and other Philadelphians interested in Ireland's fight for freedom.

"The meetings were the best ever held in the country, not even purely Ameri-can gatherings ever showing such determined enthusiasm to go through with the task in hand to an ultimate victory," Mr. Ryan said. "All interested showed a depth of feeling and intensity of in-terest unparalleled.

"Other meetings of Irish-Americans with the same object-that of creating a free Ireland-have been called in years past, but never to meet with such success as the convention just ended.

Representative Delegations

Representative Delegations "Delegates representive of all sections of the country and of all creeds were present to add their voices to the de-mand that England relinguish control of Treland. The message of the conven-tion will be spread throughout the United States by the delegates returning home. Greeks Indorse League of Nations

The nations of the earth are clamoring for liberty. And why should not freedom-loving Ireland join in the general cry. Yes. Ireland wants freedom to breathe the air of heaven. She wants freedom to stretch her brawny and sinewy arms. She wants freedom to develop the riches of her soul. She wants free-dom to carve out her own destiny. "America is the friend, and champion of liberty. She fought this war to make the idea of national liberty triumph in the world. Liberty is a necessary part of justice; it is not a favor or a privi-lege. Nations as well as individuals have a right to liberty. Ireland's right to liberty is a clear as sunlight. Every American who is sincerely attached to the principles of his country should be a friend of Irish freedom. Just as in us war we took the side of Belgium and France and England, because it was the should stand as one man for Ireland's inallenable right of self-determination. "And therefore we are today to plead the cause of Ireland's sons and daugh-ters that they may stand erect, re-deemed, regenerated and disenthralled on her own sacred soll." Resolutions indorsing the principles of self-determination laid down by President Wilson were adopted yester-day by the Philadelphia branch of the Pan-Epirotic Union of America in con-vention in the Greek Church at 745 South Twelfth street. The convention

was attended by representatives of all Epirotic communities in southeastern Pennsylvania, southwestern New Jersey and the state of Delaware.
