

LONDON SURE U. S. BACKS PRESIDENT

"America Is in War; Must Be in Peace," Comment of Mail

PREACHES FINE GOSPEL

Telegraph Is Confident His Country Sympathizes With Wilson About League

By the Associated Press

London, Feb. 26.—Comment on President Wilson's Boston speech takes first place on the editorial pages of this morning's London newspapers.

Daily Mail—"We can be as confident as President Wilson is that his generous impulses, disinterested aid and guidance will not fail his people now, but rather gain strength and permanence, as the need for it was never greater.

Daily News—"President Wilson knows that America has only begun its task and that the breach with Washington's policy is final.

Daily Telegraph—"The deliberations of the Peace Conference constitute a signal to the world that it is at the cross-roads in its destiny.

Daily Chronicle—"He appeals to America for the first time to play her part in policing the unsettled territories of the Old World and protecting the young nations.

Paris, Feb. 26.—(By A. P.)—With the exception of the Figaro and the Echo de Paris, there is little comment in the morning newspapers on President Wilson's speech in Boston.

Franklin Institute Benefits by Will

ago. All three children were the offspring of the first marriage.

The will is an interesting document. The widow is to get 25,000 francs and \$12,000 she loaned the testator.

"As I have made no provisions in this will for my daughters," the instrument reads, "I think it but right that I should state my reasons for this action on my part.

Our Next Talk Wed., March 12 By Joseph C. Ferguson, Jr.

SOMETIMES young people have a refractive error that is known professionally as a "spherical error."

In such a case eye strain will be very pronounced when an excessive amount of near-work is being done.

If you are subject to trouble of this kind you should wear glasses. When work is done without them the eyes are strained to the point of exhaustion.

When your eyes need attention go to an Oculist. If glasses are needed have the prescription filled by a Prescription Optician.

Write or call for our new and interesting booklet—"Looking Into Your Own Eyes."

Our Next Talk Wed., March 12 By Joseph C. Ferguson, Jr.

SOMETIMES young people have a refractive error that is known professionally as a "spherical error."

In such a case eye strain will be very pronounced when an excessive amount of near-work is being done.

If you are subject to trouble of this kind you should wear glasses. When work is done without them the eyes are strained to the point of exhaustion.

divorce I acted wholly under advice of counsel, as will more fully appear from a certain letter from one of them.

Advised It Was Illegal "At the time of making said agreement I was not aware that it was unlawful and I would have faithfully performed all the covenants contained therein had their mother in good faith kept her part of the agreement; but her subsequent breaches thereof in seeking to interfere with my custody of my son and otherwise compelled me to consult other counsel relative to said written agreement, by whom I was advised that it was illegal and could not be enforced against me, as will be seen by the written opinion of Messrs. Rufus E. Shapley and George Tucker Shepley of March 3, 1911.

Advances Repulsed, He Says "I advanced for many years to be a good father to my daughters, but my efforts were continually repulsed; they abandoned me without expressed reason or opportunity of persuasion or explanation; they refused all my requests for intercourse; they informed me (as they will remember) that they owed me nothing for the past and that I owed them for the future, so that to make them my beneficiaries would be in their view only a compliance with the dictates of the law; and as I believe for the above stated reasons that I am under no legal nor moral obligation to them, I have made no provisions for them other than that made in my will covering my French estate.

"All the rest, residue and remainder of my estate, except such as is situated in France, I give, devise and bequeath to the Franklin Institute of the State of Pennsylvania, to be applied to the establishment and maintenance of a department of practical electrical engineering, to be known as the Bartol School of Applied Electricity, wherein full tuition shall be given to white male minors born in the United States, who have preference, and if the endowment permits, to other males, either minors or adults, without regard to nationality.

"My purpose is that the instruction given in this school shall be not only in the theory of electrical engineering, but in its actual application to apparatus, which so far as may be, I wish constructed by the pupils in a workshop appurtenant to the school, and I desire that the school and its appliances shall be available, under proper restrictions, to all persons interested in the subject, for the purposes of investigation."

The executor is empowered to purchase for the widow one-third interest in the Chateau de Sainte Helene, situated in Nice, for the sum of \$50,000, which sum is to be invested and held as a trust for her benefit during her life.

Since making my will electrical science has progressed so that I fear that there is not the same field for research as I thought, I therefore desire to modify my will in this respect, namely, the money coming into the hands of the Franklin Institute or the University of Pennsylvania shall be applied to the sale on the lines of the Mellon Institute of Pittsburgh, the preference, however, being given to workers or those making researches in electrical science."

Wilson to Visit Capitol to Aid Bills

Continued from Page One

The announced program for discussing the league of nations at length in the Senate will be carried out. That with delay action on the pending legislation for several hours each day.

The Republicans have put up such a strong fight against several of the most important measures that are still pending that the passage of three of the most important and most urgent bills now before Congress, and three of the most important supply bills, is endangered.

Money Bills Endangered The Republicans have put up such a strong fight against several of the most important measures that are still pending that the passage of three of the most important and most urgent bills now before Congress, and three of the most important supply bills, is endangered.

Penion to Mrs. Roosevelt A message from President Wilson announcing his approval of twenty-eight bills and joint resolutions passed by Congress and accumulated during his absence overseas was the signal for a demonstration late yesterday in the House.

One of the bills approved by the President is a pension of \$5000 to the widow of Colonel Theodore Roosevelt. Another appropriates \$100,000,000 for food relief in Europe.

During the debate in the German National Assembly at Weimar of the bill creating a "Reichswehr" national defense force, late last night, and started to take the form of a Berlin dispatch received here.

They would be criminal carelessness," he said, "not to protect our eastern frontier, which is menaced by the Bolsheviks. The strength of the Reichswehr would not, under the bill, be one-third that of the empire. Foreign countries, therefore, have no occasion to mistrust the bill, which is intended merely to meet the most urgent needs of the empire. It would be a lively imagination that could see in the specter of militarism."

After the defense bill passed second reading, it will come up for third reading Thursday.

added, guarantee that the boundaries of nations as they now exist, or when the Peace Conference has re-drawn the map of Europe, Asia, Africa and Oceania, shall remain without change forever.

The league's provision for mandatoriness was attacked by Mr. Cummins as "the grossest violation of our powers under the constitution."

"It is all too absurd to contemplate," he said, "when the American people reflect on such a proposal, they will reject it with all the emphasis of unanimity."

Article XV of the charter, said Senator Cummins, would require submission of domestic questions to the league, which, he added, is "incredible." He cited, as an example, the American

\$1395 F. O. B. Detroit The Essex Speaks for Itself New in Name and Type—Proved in Popularity Its Position is Assured Marks Progressive Step in Construction and Engineering Development

The Essex was introduced without an elaborate advertising campaign. Its makers were confident it would win popularity by its performance and appearance. They wanted the car to speak for itself. They wanted the public to be its advertisers.

So eloquently has the car spoken that the number of Essex owners promises to be limited only by the production capacity of the factory. The year's only new car has won such enthusiastic admirers that we resist the temptation to describe or make claims for it.
