**WOUNDED SLIGHTLY**  
Private  
JOHN W. HUND, 3825 National st., Tacony.

Private Peter J. Loftus, of this city, thought by relatives here to have been killed in action, gave Mrs. Mary Longhery, 245 Rector street, his sister, a welcome surprise yesterday when he called her on the long-distance telephone from New York.

Private Loftus was reported by a comrade of his to have died in battle, and as none of his kin had received any letters from him in several months he was given up as dead. He had been reported severely wounded by the War Department.

Loftus told his sister over the wire yesterday that he was all right except for a part of his left foot, which is missing. Machine-gun bullets took that off during the fighting in the St. Mihiel sector on the last day of the war, which was also his twenty-fifth birthday, he said. He said that he would return home in a few days.

Loftus's parents are dead. Previous to entering the service he had made his home with his sister at the Rector street address. A brother, John Loftus, is on the Manayunk police force.

Private Loftus is a printer. He entered the army in April, 1918, trained at Camp Meade and sailed in July. He is rapidly recovering from his wound in the foot and expects shortly to be mustered out of the service.

It was announced by the War Department today that only a few names would appear on the casualty lists for the next week or so. It was not learned whether or not the casualties were nearly all reported. Today there are only twelve names on the honor roll for the city.

**Numerous Addresses Wrong**  
In the morning list Private Blare Larson, 2143 South Twenty-second street, is reported recently in the emergency addresses of the men on the report. Three men in today's report cannot be located at the addresses furnished by the War Department. One of these, Private Frank T. Schommer, who was said to have lived at 2524 North Twenty-fourth street, is reported to have died of an accident or similar cause.

Joseph Brzdzkiewicz, 1412 South Penn street, Camden, is reported in a telegram received today by a sister living at 2 address to have been killed by an accident three days after hostilities ceased. He was a member of the Headquarters Training Battalion and had been in the service since he was drafted last spring. He trained at Camp Jackson, and sailed in July. While in Camden he lived with his sister, Mrs. Maggie Iwanicki. Her husband and another brother have died since the soldier went away.

There are only 742 names on the honor roll for the nation, while the total for Pennsylvania in the report drops to 78. Among the Philadelphians, two have returned to duty, one is wounded severely, six are wounded with degree undetermined, and one other man is wounded slightly. Sketches of the city heroes follow:

Private Philip Curran, reported wounded, has arrived from overseas and is in his home, 1829 North Twenty-first street, on a furlough. He had his right eye put out in the Argonne Forest engagement.

On his arrival home a few days ago, Private Curran learned of the death of one of his young daughters from influenza. He is attached to the Third Division, which is made up of Illinois men. Cling up at Camp Meade, Baldwin Locomotive Works, he enlisted in the army June 15, and after three months' training sailed for overseas. He has not yet been discharged from the service.

Private John Deszkievicz, 186 Corson street, Manayunk, was so badly gassed that it was four days before he recovered his voice, he wrote to relatives. He was a member of Company C, 304th Engineers, and has been in the service since September, 1917, when he was called to the first draft. In the letter the soldier said that he ran into a gas barrage when he was recovering from a gas attack he had been out with a party building bridges. He has recovered and returned to duty. He is twenty-one years old. He trained at Camp Meade and sailed in July. His parents live in Poland.

**SNIPER-HERO A VISITOR**

German Machine Gun and Gas Barrage Put Him Out

Private Walter J. Smith, of New York, a returned hero, now playing at a theatre in this city, relates thrilling experiences as a sniper.

"On first being detailed for this duty," said Smith today, "it seemed like a lark, but when a boche located me and opened up a machine-gun and dislodged me from a tree with a bullet in my shoulder I changed my mind. I hid in the low brush and let the bullets whistle overhead until a favorable wind, for the boches sent a gas barrage over that put me out of commission."

Private Smith said he saw a French girl with her tongue cut out because she had overheard a conversation of some German officers. Later he learned they cut her tongue out.
