

“JOIN GET MANY?” IS AUSTRIAN CRY

Deputies in Assembly Approve Impending Union With Their Neighbors

INDEMNITIES SEPARATE

Vienna Would Be Second City of New Empire, It Is Planned

By the Associated Press Vienna, via Basel, March 6.—The National Constituent Assembly opened yesterday. All the deputies expressed general approval of the projected union with Germany.

The Entente cannot limit our right of free disposition, which undoubtedly is ours.

German newspapers received here contain a semi-official communication concerning negotiations between Dr. Otto Bauer, foreign minister of German-Austria, and the German Government for a union between German-Austria and Germany.

Union Waits on Details

The union, says the communication, will be promulgated as soon as questions of detail, now being discussed by various commissions set up for that purpose, are settled and a treaty drafted which will be submitted to the two national assemblies.

After ratification by the assemblies the imperial will be arranged for the union of Austria with the empire. In the preparation of the laws, Austrian representatives will be asked to collaborate.

Special attention has been given to temporary measures for the entry of Austria into the German Zollverein, a count being taken of the different conditions of production of the two countries, and railroad questions and an eventual junction of the Danube, Austrian, as well as the introduction of the mark as the monetary unit of Austria have been subjects of exhaustive discussion.

From the financial point of view it was agreed that each country should be left to bear separately the indemnities to be paid to the Entente.

Vienna Second City

Consideration also has been given to the best method for realizing uniformity in labor and social legislation. As to Vienna's situation it has virtually been decided that it shall be the second city in the empire.

The statement says the conversations generally have resulted in an agreement on all questions of principle, and that it was decided to leave secondary points to be settled by commissions on which Austrians and Germans should be equal in numbers.

READ GERMAN CONSTITUTION

Draft Presented and Defended in Weimar Assembly

Weimar, Tuesday, March 4.—(By A. P.)—The first reading of the constitution was concluded today and the bill was referred to a committee of twenty-eight.

Dr. Eduard David, of the German cabinet, replying to criticisms of the bill, said in a spirit of moderation that the assaults of the bill forgot an important thing—that a republican form of government was existing on which which few would have thought possible a year ago, when the old regime fought tenaciously against the people's will.

He claimed that this constitution would tend toward a stronger welding of the empire.

WOMAN ‘CHISELS’ THIEF AWAY

Turnkey's Wife Brandishes It at Robber, Who Flees

Reading, Pa., March 6.—Plucky action by Mrs. James M. Morgan, wife of the night turnkey at the police station, foiled an attempt to rob her store last evening and drove the robber away.

The man walked up to the counter, pulled out a gun, pointed it at Mrs. Morgan, and said: “Give me your money.”

Mrs. Morgan, discussing the incident, said: “I once threw a tramp out the door. He came in and asked for money to get something to eat. She told him she'd give him food. He demanded money.”

“When he became insistent she stepped to the counter, grabbed the back of the neck and put him out.”

LONDON HOPEFUL U. S. BACKS PLAN

British Papers Do Not Regard Senate Action Fatal to League

ALL RESTS ON AMERICA

News Declares Wilson's Views Will Win Public to Demand Covenant.

By the Associated Press

London, March 6.—President Wilson's speech at New York occupies a prominent place in the news and editorial columns in the papers here. Some editors see in American domestic politics the key to the Senate episode. The Telegraph says:

“Mr. Wilson's opponents in the Senate have not, as a matter of fact, bound themselves to any course of action too firmly to adopt another if the President ‘makes good’ with American public opinion in the end. All depends upon the sense in which that opinion may make itself manifest when the treaty of peace and the league of nations have been given final form. Therefore, for the present, we must leave this strange and uncertain situation.”

“European democracies are watching to see whether the impulse which brought America to their side for the purpose of finishing the war will keep her at their side for the purpose of pursuing the fierce of a war-free world,” says the Chronicle (Lloyd George Liberal); “they are not watching without anxiety, for they know that American co-operation is indispensable if the fabric is to stand.”

“The news (radical and pacifist) says: ‘Mr. Wilson's appeal for America's cooperation in the salvation of the world is an irresistible as his indictment of the league is unanswerable.’”

Constitutionally, the opposition of this solid block of Republicans in the Senate looks formidable. Actually, as President Wilson confidently recognizes, the issue is with the people, for no Senate could refuse to ratify treaties establishing a league of nations that commanded the manifest and expressed approval of the people of America.

“What the Senate seems to want must appear to practical men the natural order of procedure,” says the Post (Conservative). “Peace is an urgent and immediate question; the league is a vague and still doubtful system. The world wants time to think out these things and does not like being rushed into the plan by the enthusiasm of its idealists.”

Erzberger Declares Old Regime's Attitude Toward Poles Caused Trouble

By the Associated Press

Posen, March 6.—The inter-Allied commission which was sent to arrange new armistice terms between the Germans and the Poles left today to meet the German delegation sent from Berlin to arrange conditions.

The place set for the meeting is the town of Kreutz on the Brandenburg-Posen border.

Weimar, Wednesday, March 6.—(By A. P.)—In the discussion of the Polish question in the German National Assembly today, Matthias Erzberger, chairman of the German armistice commission, criticized the old German government severely for its policy toward the Poles, which constantly alienated them, several speakers supported the views of Erzberger, but the majority argued that the Polish attitude toward Germany was one of injustice and ingratitude.
