"Since the strength of a nation depends upon the health of that nation. isn't it remarkable that so little attention has been paid to the nursing pro-fession?" asked Miss Noyes.

She then went on to say that training schools are an absoute necessity and urged the enrollment of student nurses

by all Red Cross chapters.
Following the same general subject,
Miss Elizabeth Fox spoke on public
health service. This, she explained, is a plan whereby the poor and the public at large can have treatment and examin-ation. The movement is being carried on under the auspices of the Red Cross. The tack of nurses will not be a serious problem, according to the speaker, after the return of the 12,000 who are serving abroad. It is planned to give all such who wish to engage in this public health service work a scholar-ship in nursing schools to fit them for

the work.

One of the most enthusiastically received speeches was that of Miss Ina
