New Vessel Quickly Started After "Christening" at Harriman

"Christening" at Harriman

Within three minutes after the
steamship Wauconda, the sixth ship
to be built by the Merchant Shipbuilding Company at Harriman, Pa., had slid
into the water this morning, workmen
were busy on the ways, laying the
foundations for another vesses.

Nearly 10,000 people, many of them
workmen, attended the launching of the
Wauconda, Mrs. J. K. Nichols, of Trenton, the wife of the personal representative of the Emergency Fleet Corporative of the Emergency Fleet Corporative of the shipyards, was the sponsor,
and the vessel left the ways at 7.58.

The Wauconda is an \$800-ton freighter, and 417 feet overall. Officials at
the shipyard say the vessel will be completely fitted out within a month and
ready to be turned over to the United
States shipping board.

BISHOP TALBOT CALLS THESE GOLDEN DAYS

Lenten Speaker Says, America's Ideals Compel Sacrifices for Humanity

"The church must make the same appeal to men as was made to this country to enter the war, the same appeal that Christ made to the apostles who wished to follow him into Jerusalem. We must not say that a man may enter the church and be harry, but he must enter the church and be harry but he must enter the church and be harry but he must enter the church and be harry but he must enter the church and be harry but he must enter the church and be harry but he must enter the church and be harry but he must enter the church and be harry but he must enter the church and be harry but he must enter the church and be harry but he must enter the church and be harry but he must enter the place of the Macey wage board, to which they give much credit for maintaining good working conditions in the place of the Macey wage board, to which they give much credit for maintaining good working conditions in the place of the Macey wage board, to which they give much credit for maintaining good working conditions in the place of the Macey wage board, to which they give much credit for maintaining good working conditions in the shipbuilding plants. LAUNCH SHIP; BEGIN ANOTHER SHIPYARDS BACK TO OLD CONTROL

Government Relinquishes Direct Supervision on April 1

NO WAGE CHANGE SEEN

The shippards of the United States will be returned to private control on April 1, according to Charles Piez, di-rector general of the Emergency Fleet Correction

Corporation.

The Macey wage board, which has supervision over wages paid in all shipyards will cease to function on March 31. After that time the only measure of government supervision over the yards will be supplied by the district manners who will miniain a gentrict managers who will maintain a general oversight.

But the shippards must run them-selves after March 31, Mr. Plez de-clares, and if there are to be any in-creases in wages, the shipbuilding comprofes themselves must pay them

"The nobility and ideals of this country are so high that America cannot refuse any demands which will lead to the betterment of humanity," said Bishop Ethelbert Taibot at the noon Lenten service at the Garrick Theatre today.

"One instance of this self-denial for the sake of humanity was our protection of Cuba, with our lives and our weath. A greater instance is the present war from which we are just emerging. If it took our last dollar and our last life we would have fought against the forces of evil which sought to overrun the world. "We need not speak of the days gone by as the golden days, for the times in which we are living are the best the world has ever known. Healtan is hans."

The shipbuilding compenness themselves must pay them.

"From April 1 the yards will run their own affairs." said Mr. Plez. "We are not soing to adjudicate anything from then on. We will pay no wage increases on allow for any reductions. The question of fusges will become entirely a matter for settlement between the yarus and the men."

Mr. Plez saw no reason for, any change, however, in the wage scale might be down daylasable by October, but decisted he saw no justification for a reduction as yet, since the cost of living has not shown any tendency to decisive.
