Rumor Deal With Cards Will Be Closed Within

ROGERS HORNSBY

Few Days

SECOND BASE FOR ZIM

New York, March 16.-Rumor is strong in baseball circles here today to the effect that John J. McGraw will get Rogers Hornsby from the St. Louis Cardinals within the next few days. It is stated that Larry Doyle, Dave Rob-ertson and a lot of cash will be given to Branch Rickey if Hornsby comes to this city.

to Branch Rickey if Hornsby comes to this city. According to the dope, the Giants' infield this summer will be composed of Hal Chase, first base; Heine Zimmer-man, second base; Art Fletcher, short-stop, and Rogers Hornsby, third base. Charles Stoneham, who now is in the far West on business, stopped off in St. Louis en routs and virtually settled the deal whereby Hornsby will report here. The actual signing of papers, however, is to be done some time this week, when Rickey will arrive here. The shifting of Zimmerman to second will surely suit the Bronx fence-buster.

will surely suit the Bronx fence-buster Heinle has been clamoring to get away from third base for some time, and probably feels that the shift to the keystone sack will do him a lot of good.

stone sack will do him a lot of good. Hornsby does not play a ball any too cleanly. He has a bad habit of fumbling momentarily, but is exceed-ingly fast in recovering. He has a great arm and his ability to whip the ball across to first with lightning speed offsets this one fault. With the shorter throw from third he naturally would have more opportunity to retire the batter. batter.

batter. An infield of Chase, Zimmerman, Fietcher and Hornsby undoubtedly would be the greatest defensive quartet since the days of Tenney, Lowe, Long and Collins, And what a swatting bunch it would be, too, Just take what these lads swatted last year—Chase, 201; Zimmerman, 272; Fletcher, 263; Hornsby, 281.

Scraps About Scrappers

FRANK O'BRIEN made a big hit at the National Saturday night when he stopped three bouts to prevent knock-outs. Ordinarily, the fans would object strenuously to such procedure, but the bouts were so one-sided and the losers in such bad shape that "Pop" was ap-plauded instead of jeered. Incidentally the veteran referee established a record. The first bout was one of these tong.

STANDARD SPORT MODEL A Powerful Car

"HEN you see the new Standard "8" Sport Model with its long, narrow body, its low center of gravity, its long, straight hood which conceals its eight-cylinder, 83 horse-power motor, you get an advance impression of the thrill that awaits you when you let in the clutch for the first time.

83 horse-power with 8-cylinder flexibility, 127-inch wheel base and light weight give to the motorist an idea of the possibilities of this car.

A demonstration will show even greater performance than your expectations.

When you drive in traffic, never shifting a gear or never slipping the clutch, you will realize its unusual flexibility.

It is only when you try the hardest hills on high without straining the motor in the slightest degree that you can believe its wonderful hill-climbing ability.

The name "Sport Car" describes this new Standard "8". It is a sport car from its trim, supple lines to its snappy, eager performance.

The Standard "8" is built by the sixth largest industrial institution in the world-The Stan lard Steel Car Company of Pittsburg-makers of world famous railroad rolling stock.

See this new model and arrange for a demonstration at the
