Heroic Records at Chateau-Thierry Set Down by Commander of the Sixth

It is generally recognized now that the gallantry and effectiveness in at-taining objectives of the United States tharines at the battle of Chatcau-Thierry and the environing Marne country saved Paris, hardly more than two score miles away, and the goal of a gigantic Hun push, and thus proved one of the turn-ing points toward Alited victory. There were less than a thousand of them, and their deed will take its place on the pages of history with the Six Hundred at Balakiava and the brave little band

His book, prepared in collaboration with Waiter A. Pyer, is one to thrill the pulses to quicker beating and to make the heart throb with jubilation at the glorious chronicle. It is written crisply and unassumingly, with sympathetic credit to the other arms of the service, but with justifiable pride in the marines.
