Woods on Archangel Front

Archangel, March 31 (delayed).—(By A. P.)—Bolshevik artillery subjected the Allied railway front and positions south of Odozerskala to the heaviest bombardment in many weeks yesterday. Meantime the enemy was moving considerable forces through the woods, indicating an attack mas follow soon.

A little garrison of four French soldiers in an outlying blockhouse, guarding one of the Allied flanks near the front line, yesterday repeatedly repulsed attacks by eighty Bolshevik infantrymen who had slipped through the woods and attempted a surprise.

The Allied positions along this front are strong, with blockhouses guarding the flanks and snow trenches built up with log barricades, and there are ample dugouts to shelter all the Allied forces. The troops holding this front include American. French, British and new Russian troops, The Allied artificity here probably is equal to that of the enemy.
