

ALLIES' ACTIVITY HALTS FINN RISING

Announcement of Coming Re-enforcements Has Sobering Effect on Leaders

WILL OBEY COMMANDER

First British Relief Force Leaves Murmansk Wednesday for Archangel

London, April 7.—There has been an improvement in conditions at Kandalaksha, at the base of the Kola peninsula on the White Sea side, an official dispatch from Murmansk, dated April 5, says. A rising of Finns, Karelians and Bolsheviks had been planned on a large scale, but announcements that re-enforcements for the Allies were coming and other military preparations had been taken away the leaders for the time being.

The leaders of the Finnish legion (among which, according to recent London reports, a defection had been threatened) have signed an agreement to the effect that they will in the future comply with the wishes of the commanding officer. This, says the dispatch, does not imply that the danger has completely passed, but it is a step in the right direction.

The British Government hopes to be able to dispatch the first part of the relief force for northern Russia on Wednesday, says the Mail, which adds that the appeal for volunteers is meeting with a gratifying response. There is already a large waiting list of officers and men who are anxious to serve in northern Russia, many Canadians being included in the number.

Arrangements for the dispatch of the relief force are being rushed as rapidly as possible. The first advance guard will go to Murmansk. From Murmansk it will be in a favorable position to proceed at the first opportunity toward Archangel.

The main force will leave in two sections, the first at the beginning of May and the second a fortnight later. It is the intention that the main force shall consist mostly of volunteers for whom the War Office will probably make an immediate appeal.

Paris, April 7.—Bolshevik pressure against Odessa at the great Russian port on the Black Sea, is increasing, and the evacuation of the city by the Allied forces is imminent, the Matin says. The Allied forces, it adds, probably will be withdrawn ultimately to the Danister in order to protect Bessarabia and Rumania.

The isthmus of Perekop, which connects European Russia with the Crimea, has been fortified by the Allies to protect the Russian naval base of Sebastopol.

Boris Savinkoff, former Russian minister of war in the Kerensky cabinet, in a statement to the Echo de Paris today expressed the hope that the plan General Hoeser, of the Rumanian army, for the creation of a Rumanian-Polish front under command of a French general to suppress the Bolsheviks would be realized promptly. He said that the Slavs alone can and must accomplish the task of putting

down the Bolsheviks. He estimated that 200,000 joined with the armies of Admiral Kolchack and General Denikin would suffice, as the Bolsheviks are not redoubtable military adversaries.

Stockholm, April 7.—(By A. P.)—Bolshevik forces are withdrawing from all of northern Lithuania after severe fighting in which they have lost severely. Bolshevik soldiers have mutinied at several places, according to an official statement issued by the Lithuanian Press Bureau at Kovno. The statement reads:

"The Bolsheviks are evacuating the whole of northern Lithuania after a series of fights in which they have suffered severe casualties. At several places Bolshevik soldiers have mutinied. The Lithuanians have captured the towns of Poneviej and Kupiskis after violent fighting, the Bolsheviks retiring in disorder toward Bivinsk."

CAMPS IMITATING RECRUITERS OF DIX

Regulars Will Send Out Parties. Sister Swoons as "Dead Soldier" Arrives

By the Associated Press. Camp Dix, N. J., April 7.—The success of the recruiting system used at Dix is awakening other camps to the fact that it is productive of results, and now the War Department has issued an order that the commanding officer of each camp, post or station at which an organization of the regular army is stationed shall send out in the immediate vicinity of the camp recruiting parties for the purpose of obtaining recruits for assignment to regular organizations.

These recruiting parties are to cooperate with local recruiting officers of the general recruiting service and the men accepted are to be sent to the camp for enlistment. The recruiting teams used here to interest men about to be discharged are available. Since these teams have been working more than 500 men have decided to remain in the army.

Reported killed in action but not knowing anything about the report until he walked in upon his sister, who swooned, was the lot of Private James Maloney, who has been in the regular army for six years and is recuperating from wounds and gassing "over there." Maloney served with the Fourth Division and last August was wounded and taken to a hospital. A message, reporting his death, also was sent to his mother in Ireland.

Would Recall Tacoma Mayor

Tacoma, Wash., April 7.—(By A. P.)—Decision to attempt to remove the entire city administration, from the mayor down, by means of recall, was reached yesterday by the Central Labor Council, as a result of the refusal of city officials to sanction a "Tag Day" sale conducted Saturday by members of the Soldiers and Sailors' Mutual Aid societies.

For proceeding with the sale of tags in defiance of contrary orders, sixty-six persons, including several women, were arrested and charged variously with inciting a riot, disorderly conduct and peddling without a license.

By the Associated Press. Treves, April 7.—Determined attempts by the Germans to re-establish commercial relations with the Allied countries as soon as possible are revealed through an examination of correspondence which under an authorization issued recently is now passing from the American area of occupation through the censors to France, England and the United States.

A large percentage of the correspondence during the last few days, it is said, has contained offers or requests for business relations and even advertisements for insertion in British and American newspapers. The letters for the United States generally contained offers to establish branches for American automobiles, clothing and various other lines.

DEPARTMENT HEEDS PERSHING'S PROTEST

Commanding General's Authority in Court-Martial Proceedings Restored

NO REVIEW IN PARIS

By the Associated Press. Washington, April 7.—Regulations limiting General Pershing's authority over court-martial proceedings abroad, to which the general objected, have been removed. An amendment to general order 84, of 1917, published today by the War Department, shows that the language making mandatory on the commander's recommendations of the acting judge advocate general in France that sentences be set aside, disapproved or modified has been stricken out.

The order amended has played a part in the military justice controversy. After providing for the establishment of a branch office in Paris of the judge advocate general's office, where all court-martial cases arising abroad should be reviewed, it contained this provision, drawn up during the incumbency of Lieutenant Colonel Samuel T. Ansell as acting judge advocate general:

"Any sentence, or any part thereof, so found to be illegal, defective or void, in whole or in part, shall be disapproved, ratified or set aside in accordance with the recommendations of the acting judge advocate general (in Paris)."

General Pershing protested to the War Department that this language took out of his hands control of the disciplinary system of the army abroad and lodged final authority in the hands of the acting judge advocate general. It was pointed out also that the restriction applied only to the American expeditionary forces and not to department or division commanders in the United States.
