WOMEN'S WORKING **BILL IS REDRAWN**

Application of the Eight-Hour Principle to Employment Is Made More Specific

The Women's Trade Union League ters for Mrs. D. C. G. will be for has modified the provisions of the eight-warded. hour bill for women, on the suggestion of the legislative committee of the Philadelphia Chamber of Commerce. The eight-hour bill, introduced the Pennsylvania State Legislature by State Senator H. W. Schautz, of Lehigh county, has not yet been reported

out of committee. At a recent meeting of the legislative committee of the Chamber of Commerce of this city the spirit of the eight-hour principle for women workers was approved, but the bill was criticized as drawn as not being sufficiently explicit

was made applicable. drawn after careful consideration. The cream. Don't wash your face just before bill in its new draft excludes from its going out, but at least an hour before. provisions various types of occupation. Summarized, the bill as it now stands

First. Eight hours a day and fortywomen and girls in manufacturing, there are "no small children." mercantile and mechanical establishments and restaurants. These daily hours may be extended to eight and three-quarter hours, but only for the purpose of granting a weekly half holi-

and stenographers in private offices, the hours of work will remain as they are under the present law (ten hours a day and fifty-four a week).

Third. Nurses in hospitals and your kitty through it. Let women holding managerial positions are U. R. will be forwarded. excluded from these provisions. Farm and domestic labor also continue to be excluded, as they are under the exist-

And So They Were Married

By HAZEL DEYO BATCHELOR

START THIS STORY TODAY

CCOTT wondered why he felt as he SCOTT wondered why he felt as he of his regular regime, he felt doubtful did. He had always approved of as to the outcome. A man gets used from France with a different idea of women; an idea that women were big. tates about trying anything new. had seen women work side by side with full of faults, and he realized, too, that she was a typical average woman. He could hold her in his arms and thrill with the intimpte nearness of her, even while he remembered a certain bit of unfairness on her part. He loved her in spite of her faults, but he know those same faults, and because he did ic had no faith in her ability to hold

Therefore it was with a certain shock that he received Ruth's definite an-nouncement of her intentions. Until then he had thought her led away by a new fad. To do Scott credit, he cared very little for what people might say about Ruth's experiment; what he did cure about was the fact that she might have to learn a new lesson through this experiment.

Ruth had definitely taken the position. She had called Elsie Jeffries up on the telephone and had told her so, and after it was all done she lay awake nights worrying about it. She wished vaguely Thank you for your interest and will to be perfectly clean and healthy. Put that it might have been a position that come afterward.

The night before she was to put it an appearance at the office she began early in the evening to lay out her things ready for the morning.

"My idea, Scott." she explained carethem off in planting. The best size of seed to plant is about 1½ ounces of seed to plant is about 1½ ounces cither for whole small potatoes or for get up an hour earlier in the morning of the pieces. Cut the larger potatoes so that I'll have time to get breakfast and make up the beds, and I'll get our dinner things on the way home. Of course if it doesn't work out, we'll have the servements. to make other arrangements. Scott looked at her as she sat in the

big chair. She were a white flannel sailor suit, and her hair was rumpled Plant as soon as cut.

The People Who Work With

Swift & Company Big Business is usually pictured in the public mind as a huge, soulless machine. As a matter of fact, it is

just a collection of human beings like you. Without boasting and simply to give the public an idea of the human side of Swift & Company, we publish the following facts:

The lowest rate of wages paid to men has been increased voluntarily and by arbitration 167 per cent in the past three years; the wages of all packing house labor have been increased an average of 125 per cent.

There is an Employes' Benefit Association (voluntary) providing disability and death benefits for a small weekly payment. Sick allowances are granted in times of illness, and pensions for disability and old age are provided without expense to the employe.

Under a two year time payment plan 4,000 employes have become shareholders in Swift & Company.

Company physicians attend employes needing their help at the plant and at home, without charge. More than 1,500 of the 7,500 men who left to join

the army and navy have returned to their jobs, and jobs

are waiting for the others as soon as they return. At the general office in Chicago, every boy is given an hour's schooling daily on company time, such work being accredited by the high school authorities in

securing a two year commercial course diploma. A summer home is maintained at Fish Lake, Indiana, near Chicago, where women plant employes may spend their vacations, without cost.

Swift & Company is co-operating with other employers to improve living conditions around the stock yards.

More and more thought and attention are being given to the opportunity and responsibilities presented in a big industry to improve working conditions and to raise living standards.

These are beginnings of a broad, constructive program, details of which are now being worked out by the Employes' Relations Committee of Swift & Company.

Swift & Company, U.S.A.
