ROTH MAY BE ADDED TO HOME-RUN TWINS

A's Likely to Produce Circuit-Clouting Triplets in Captain Bob, Burns and Walker-Tilly Finds Bleacher Range for First Time

By EDWIN J. POLLOCK

GEORGE BURNS is laboring for C. Mack under a large and grave handicap, and that probably explains why the Tiogan has gone through seven games without computing the home-run

range correctly. All last season Burns batted due south of Tilly Walker and profited by his examples. When Tilly lined the sphere into the left-field blenchers it was almost an even-money bet that George would repeat. It happened so often that they were nicknamed the home-run

This year, with the insertion of Captain Bobby Roth, Mack has switched his batting order. He hasn't split the home-run twins, but he has Walker slugging at No. 5 with Roth at No. 3 and Burns sandwiched between them. George has lost the benefit of Walker's

Up to Roth

It's now up to Bobby Roth to get the young Mack first baseman into the home-run mood, and Captain Robert is very likely to turn the trick. He is not reputed as a great home-run slug- Avoy's slam reached the stands on a ger, having hit only fourteen circuit clouts in his three and a half years of big league ball, but seven of these drives Dugan Goes Wild

WILL START THIS YEAR

By PETER PUTTER THE Torresdale Golf Club is the latest of the nine-hole courses to increase the links to eighteen holes, and, following the action of Gulph Mills, Whitemarsh, Riverton and other clubs, Donald Ross will come here not only to plan the new nine, but to make changes in the present course.

Three of the new holes will be built this fall and the rest probably will be constructed next year, although the lub may decide to build the entire nine before next spring. This was decided on at the annual meeting of the club held a few days ago.

The reports of the treasurer and other officials showed that the club is in splendid financial condition and, with the addition of the new nine holes, the club will have one of the most interesting golf courses in the Philadelphia

To Advertising Agency Men

Largely increased capitalization by progressive Chicago in-tensive agency will be followed by the establishing of branches in six industrial centers in the United States and Canada. Also proper foreign connections.

Solicitors who have clean accounts—copy and layout men who have written national business—service men who know how to serve—merchandisers who can plan and maintain real merchandising campaigns, are offered one of the best opportunities in the agency business, if they can qualify with brains and some money to become a stockholder and fill positions as officers, department heads, branch managers.

Money is not needed, but it is exacted as a barometer of the successful man, who has the courage of his convictions to the extent of backing his belief in himself with his own cash. This requirement may be waived, however, where all other conditions check.

Blue sky artists-"has-beens"-"hope-to-be's"-need not apply, as we are only interested in sure-fire operators who are doing things now. Reply should reflect your idea of a complete prospectus to sell yourself to us, and it will be treated strictly confidential pending further negotiations.

An executive will be in New York next Monday and Tuesday to interview those interested.
