

HOFFMAN REGIME CONTROLS BAVARIA

Proclamation Issued by Government Declares Munich Soviet Was Vanquished

FIGHTING STILL OCCURS

Red Guard and Troops Battle in Streets, Say Berlin Reports

By the Associated Press. Paris, April 15.—A proclamation issued by the Bavarian government announces that the garrison at Munich has swept away the Soviet forces, that the regime of Herr Hoffman has been re-established and the transportation of the Polish General Haller's army across Germany for Poland will start today.

Berlin, April 14 (delayed).—(By A. P.)—The latest news received here is to the effect that the communists in Munich have not yet been mastered, and that heavy fighting is raging in the streets of Munich between the Red Guards and troops loyal to the government.

The central railway station, the postoffice, the telegraph office and several other buildings again are in the hands of the communists, who used heavy machine guns in their recapture.

A number of persons have been killed or wounded.

Earlier advices reported that the whole of Bavaria, with the exception of Hof, had been regained by the Hoffman Government, which provisionally remains at Bamberg.

On Sunday, according to dispatches to the Lokal Anzeiger, armed soldiers drove through the streets of Munich cheering for the Soviet. They were dragged out of their cars and roughly handled.

Railway stations and postal, telegraph and other government buildings fell into the hands of the government without resistance. Doctor Lentin is said to have fled to Switzerland with 2,000,000 marks of state money.

VENDORS SHOT DOWN BY BERLIN TROOPS

Many Persons Killed During Fusillade on Street

Berlin, April 14 (delayed).—(By A. P.)—Many persons were killed or wounded in the center of Berlin at noon today during a collision between troops and street vendors. The troops fired a fusillade against the vendors.

This district was strongly cordoned by the Alexander Regiment, with a view to suppressing traffic in stolen goods, and the vendors forcibly opposed their removal. The district is still strictly cordoned and trams are deflected.

RAIN SPOILS FISHING

Few Trout Streams in Central Pennsylvania in Fair Condition

Harrisburg, Pa., April 15.—Rain and high water caused disappointment among the trout fishermen of central Pennsylvania on the first day of the season. Many contemplated trips were postponed.

The largest delegation from Harrisburg went to Boiling Springs, near Carlisle, where the water is not disturbed easily by rains, and streams in the Newville and Pine Grove furnace region are said to be in fair condition. To the north, however, the creeks are bank-full as the result of last week's rains and few are being fished.

PEACE QUESTIONS ARE NEARLY SETTLED, PRESIDENT DECLARES

Paris, April 15.—The text of President Wilson's statement on the progress of the Peace Conference follows:

"In view of the fact that the questions which must be settled in the peace with Germany have been brought so near a complete solution that they can now quickly be put through the final process of drafting, those who have been most constantly in conference about them have decided to advise that the German plenipotentiaries be invited to meet the representatives of the associated belligerent nations at Versailles on April 25.

"This does not mean that the many other questions connected with the general peace settlement will be interrupted or that their consideration, which has long been under way, will be retarded. On the contrary, it is expected that

A. F. L. WARNS STRIKERS

Heads of Railroad Division Tell Machinists Their Action Is Illegal

Scranton, Pa., April 15.—Heads of the Railway Employees' Division of the American Federation of Labor notified leaders of the strike of machinists and shop employees of the Delaware, Lackawanna and Western Railroad Company by telegraph today that the strike is illegal. The men are told to return to work or put their charter in jeopardy.

Wilson to Leave France April 28

DAMAGE QUESTION HINGES ON DIVISION

Smaller Powers to Be Heard. Portion for Russia

Paris, April 15.—(By A. P.)—The problem of reparation settlements still has troublesome times before it in connection with the question of the distribution of the indemnity to be paid by Germany.

FOE MAY DEMAND SAAR

Will Refuse to Consider Plebiscite, Is Report From Berlin

Berlin, April 15.—The German Government is firmly resolved to refuse to discuss at the Peace Congress the future allegiance of the Saar territory, according to a Berlin news agency, on what it terms competent authority.

The government will "resolutely reject any proposal to tear the Saar territory from the empire by means of a general plebiscite."

advanced apportionments between 80 and 90 per cent, perhaps 15 per cent, to satisfy the demands of Belgium, Italy, Serbia, Rumania, Russia and others. This is a smaller proportion than the secondary powers expected and they are almost sure to be dissatisfied with it.

It has been suggested among the experts on the reparations commission that Rumania, Serbia and other nations have received reparations through the acquisition of territory, but this reasoning will scarcely appeal to Belgium.

Russia to Get Share

A share of the reparations fund will, according to the present understanding, be assigned to Russia for damage to invaded Russian territories, but probably will be turned over to Great Britain and France to apply on advances made to the old Russian government during the war, although the contributions payable by Germany are characterized as reparations.

A very considerable part of the first \$5,000,000,000 will not be available for reparation purposes, since it has been assigned to the payment of the expenses of the armies of occupation and such food supplies as must be furnished Germany. Since the occupation of the left bank of the Rhine will continue during the entire two years covered by this first payment, the expenses, particularly of the French occupational army, will eat deeply into the \$5,000,000,000.

No announcement has as yet been made regarding the precise definition of the various "categories" of reparations. In other words, there is no definition of the classes of damages for which Germany is required to pay. It can be stated, however, that the five categories adopted comprise reparation for actual damage to life and property; pensions for cripples and the families of slain soldiers; compensation for enforced labor exacted of inhabitants of occupied regions, including work done by deported Belgians, pay for illegal exacted labor by prisoners of war and payments for German requisitions in occupied territories.

It is understood that no offset has been allowed Germany for the maintenance of prisoners of war in Germany during the war, the associated governments holding that the prisoners were chiefly supported at their own expense through food parcels which alone the prisoners were able to maintain existence during captivity and that the surplus has been covered by work the prisoners performed for Germany.

Many Details Remain

Although members of the commission regard the reparations question as settled in the main, there are various details to be worked out, including a scheme for German contributions of labor, raw materials and manufactured articles for the restoration of devastated districts.

Another financial question requiring settlement between the Allies is that of repayment of advances made by Great Britain and America to the associated powers. A subcommission was appointed to consider this question, but the British and American representatives have thus far not participated in its deliberations.

Indemnity Is Fixed

One hundred billion gold marks (\$25,000,000,000) is the amount Germany must pay the Allied and associated governments for losses and damage caused in the war, plus other billions to be determined by a special commission on which Germany is to be represented.

This is the final and definite conclusion which has been reached to writing after weeks of negotiation which took a wide range and involved frequent changes and modifications. The payment of the one hundred billion gold marks is to be divided into three distinct amounts as follows:

First, Twenty billions (\$5,000,000,000) within two years.

Second, Forty billions (\$10,000,000,000) during thirty years beginning in 1921.

Third, Forty billion when a commission shall determine how it shall be done.

Terms of Payment

While the commission will administer the details of the payments, sufficient is known to permit the determination that an initial payment will be required of 20,000,000,000 gold marks, payable in two years without interest. It has also been determined that 40,000,000,000 gold marks shall be payable in bonds extending over a period of thirty years, beginning in 1921, with a sinking fund beginning in 1926.

These 40,000,000,000 marks draw 2 1/2 per cent interest from 1921 to 1926, and 5 per cent interest after 1926.

In addition to the foregoing payments, Germany will also be required to deliver additional bonds for 40,000,000,000 marks, when the commission determines that this shall be done. These three payments of 20,000,000,000, 40,000,000,000 and 40,000,000,000 bring the total to 100,000,000,000 gold marks.

It is in the gold mark that all payments are expressed in the final terms. This excludes depreciated paper marks

European News Told in Brief

Continued from Page One

In Hungary, where a soviet republic has been in power for several weeks, having been established virtually without bloodshed, the execution of Archduke Joseph of Austria; Dr. Alexander Wekerle, former premier, and Baron Joseph Stepanyi, minister of commerce, is reported. Confirmation is as yet lacking.

Riotous disorders continue in Germany. In Bavaria there are indications that the government led by Prince Hoffman, successor to Kurt Eisner, is gaining ground and that the soviet regime, which threatened to take over complete control, may be ousted.

In Berlin there have been riots, and troops have fired on street vendors who are alleged to have been dealing in stolen goods. In the industrial region of Westphalia the strike continues, but no further fighting has been reported.

A rather disquieting situation has arisen in India, where there have been disorders of a serious character. Lahore and Amritsar, in the northern corner of the peninsula, have been the scenes of riots, while at Ahmedabad, further south, mobs have burned government buildings. The situation in Egypt is reported to be in control of the military forces commanded by General Allenby.

FOE GETS TERMS, REPORT

Paris Report Says Scheidemann Has Signified His Acceptance

Paris, April 15.—The Midi yesterday expressed the belief that the Allies already have indicated to the Germans the final peace terms of the Entente and have received from Philip Scheidemann, the German chancellor, an assurance that the conditions will be accepted.

Insists on Leaving Hospital and Dies. Norristown, April 15.—William Rapine, of Norristown, collapsed near Charity Hospital, Norristown, and died shortly after being carried into the institution. Rapine was on the way home from the hospital where he had been for several days following an operation. He insisted on going home and only got outside the hospital grounds when his heart gave out. He was fifty-eight years old.

Music and Easter Are Inseparable

Easter without music would be like Christmas without gifts, Thanksgiving without turkey or Fourth of July without flags.

It is the season when Nature and mankind alike are joyous, and for centuries man has expressed his joy through music.

When we think of the state of the world last Eastertime, even the countless bickerings and misunderstandings of today seem the trifles they are, for all the present turmoil is but the growing pains of a new and better universe. We have much to rejoice over and no means of doing it that quite equals the piano.

Everyone Should Have a Piano for Easter

When we say piano we mean either the instrument that can be played only by hand, or the player or reproducing piano. It is no longer necessary to have a trained musician in the family to have music in the home.

Player-pianos and reproducing pianos bring to your own house the great artists of the time. People who have such instruments can have, nightly, such concerts as would have been musical events a little while ago.

Twenty years ago, for example, when the Wanamaker Piano Store started, the first practical player-piano had just about been built. Think of the strides from this to the wonderful Ampico reproducing piano!

When musicians think of pianos they think of a comparatively small group of instruments that are tried and true. Among these names are—

- Chickering
- Schomacker
- Emerson
- Lindeman
- Knabe
- Haines Bros.
- Marshall and Wendell
- J. C. Campbell

These eight pianos to be found in the Wanamaker Piano Store only in Philadelphia. There are over fifty styles of pianos, player-pianos and reproducing pianos here at prices ranging from \$325 for a J. C. Campbell upright to \$3250 for a superb Knabe Ampico grand. Any of them may be bought on convenient terms.

The Wanamaker Piano Store is this week celebrating its twentieth anniversary. Concerts by a string quartet and pianist will be held each afternoon at 2:15 and 3:30 in Egyptian Hall, and visitors are invited to take seats in the gallery.

If you have any thought of getting a piano, why not make this a memorable week in your life also, as it is in the life of this Store?

1217-1219 Chestnut St.

What Happens to the food you eat?

During digestion certain kinds of food containing proteins, such as meat, egg white, milk casein, wheat gluten, etc., are split into many different substances.

Some of these the body uses to rebuild damaged or dead tissues; some, however, are not only useless and harmful but in some cases actually poisonous. Regular, thorough bowel evacuation gets rid of the latter.

Constipation permits stagnation and absorption of these poisons into the blood, with injury to the whole body.

Taking castor oil, pills, salts, mineral waters, etc., in order to force the bowels to move does not—cannot cure constipation—but makes it worse.

On the other hand Nujol overcomes constipation and brings about the habit of easy, thorough bowel evacuation at regular intervals, because Nujol is not a drug, does not act like any drug.

Nujol brings about a return to Nature's methods of supplying necessary lubrication of the bowel contents, by facilitating intestinal muscular action, by absorbing poisonous matter, and thus securing necessary cleansing of the intestinal canal and protection of the defensive properties of the blood itself.

Nujol has no deleterious after effects, produces no bad habits, makes the bowels regular as clockwork.

Nujol is efficient at any age—under any conditions—is satisfactory and safe.

How and Why Nujol overcomes constipation is described in an interesting and authoritative booklet, "Thirty Feet of Danger" free on request. Send for it and get a bottle of Nujol from your druggist today.

Nujol Laboratories
STANDARD OIL CO. (NEW JERSEY)
50 Broadway, New York

Warning: Nujol is sold only in sealed bottles bearing the Nujol Trade Mark. All druggists in U. S. and Canada. Insist on Nujol. You may suffer from substitutes.
