FOLWELL ONLY COACH ACCEPTABLE TO PENN

Student Demands Must Be Met by Committee to Prevent Repetition of 1917 Football Scandal—Quakers Owe Much to Farmer Bob

BY EDWIN J. POLLOCK

THE Folwell case is up again and many of the wounds of January, 1917, have been reopened.

The undergraduates are in arms, arrayed against a group of alumni who are attempting once more to dictate the athletic policy of the University...

The undergraduates are on their toes right now. They were caught flat-footed two years ago when Folwell came near being dropped from the coaching staff without a hearing...

A few weeks ago the student body was warned through these columns that men other than Folwell were being considered for the position as head coach of the 1919 football eleven...

Editorial Fearless. Ted Freedland, a medical student who always has his fingers on the pulse of undergraduate life...

Arthur McCarthy, the editor-in-chief of the publication, who wrote the editorial, was fearless in his expressions. He stated facts unalloyed and free from a literary camouflage.

Ask for Resignation. It has been said that Mr. Frazier has been too busy to attend to his duties as chairman of the football committee.

A recent ruling of the trustees has made membership in the Athletic Association compulsory, a splendid move for the benefit of athletics.

Pennsylvania owes much to Folwell and it is a shameful fact that every year his supporters have to fight

PHILLIES AND MACKS OPEN SERIES TODAY

Perry to Pitch in First Game for City Title at Shibe Park

ELMER JACOBS TO HURL

The first game of the delayed series between the Phils and the A's will be staged at Shibe Park this afternoon.

The rain of yesterday interfered with the schedule opening at the Phil's Park and C. Mack won the right to hold the inaugural contest of the spring set at the Shibe home.

Scott Perry will get his first chance of the season to try out his variety against big league hitters, and Connie is anxious to see what sort of shape his big hurler is in after practice in the North.

Elmer Jacobs is slated to get the assignment from Jack Coombs for the twirling job. He will pitch a few innings, and then either Gene Packard or Joe Oeschger will be substituted.

Relay Try-Outs Today. The Penn relay try-outs, which were scheduled to be held yesterday, were called off on account of the inclement weather.

Yale Club Defeats Princeton. New York, April 17.—Yale Club's squash team yesterday defeated the Princeton club in a team match on the 20th court by 7 matches to 1.

It is but rarely that we have to resort to technicalities in closing a sale. Almost everybody seems to take National engineering for granted.

PACKARD TRUCKS AS GOOD-WILL BUILDERS

Establish Confidence in Delivery Safeguard Hauling Contracts Lower Transportation Costs

ONE of our most successful merchants says that before buying new fixtures or equipment he asks himself: "What will our customers think about it?"

It cannot be done. Nobody has a patent on the plan, but trying to carry it out with the ordinary motor truck, only serves to show up the truck.

Nothing earns money on the customers' good opinion quicker than delivery equipment. This is just as true of a coal yard as it is of a department store.

To make it work—to make your truck transportation costs a definite, predeterminate figure, low enough to meet all competition—you must take equally good engineering design, equal stamina, equal long life with the Packard Truck.

What people think of the Packard Truck is based upon how they have been served by it. Packard Trucks have served better because they were sold to serve.

Everybody knows the Packard reputation. You've heard about the many Packard Trucks now running that have travelled more than one hundred thousand miles.

If a merchant wanted just a truck he rarely got a Packard. If he wanted a truck transportation job done right, permanently and at the lowest cost—you were practically certain to see some Packards running around with his sign on them.

Which will a business man do? Pay \$3,000 for 50,000 miles—or pay \$4,000 for 100,000?

And so the public have come to believe that Packard and good service go together.

Invest an extra thousand dollars to insure minimum transportation cost—or pay out that thousand in repair bills that were not in his original estimate?

Naturally, some business men will praise the idea of buying trucks on a transportation basis but will try to beat the Packard method.

Anybody can recite the theory of cutting down transportation costs. The Packard Freight Transportation Department can give actual facts and figures.
