A Great Deal That Is of Unusual Interest for Easter Monday

The Distinctive Atmosphere of a Happy Home

is much more than a matter of pure air from outside of its massive walls, or even walls small and simple.

It is not in the fashion of its furniture or works of art.

The tone of the family life is something subtle and invisible, the product of causes combined to mold the education and spirit of all who dwell under the roof all the way down to the kitchen.

There must be no icicles at any time of the year to freeze out the Summer hours of kindness of speech and courtlinesses of manner; no tempers to inflame envy or foster suspicions. There can always be a thoughtful current affoat to quicken mind and develop powers of thought and conversation for the pleasure of all.

In this big world, in which we have a part to do, the heart must get its education and good spirit within the home. Pity and loss if not so. We shall all be happier workers if our homes are lit with faith, hope and charity.

A Plain Statement of Facts **Concerning Chinese** Shantung Silks

In the last few years these silks have become widely popular because, without exception, they are the best wearing, the best washing, and therefore the most economical silks that can be

Therefore, we decided to make the same kind of careful and painstaking investigation that we made in the case of Japanese white habutais to determine the best values of Chinese Shantungs in this city. These are the results-

The 65c Chinese Shantung here is only equaled by one other quality sold elsewhere. In every other store the same grade is sold for 85c a yard. We have an 85c Shantung that is not matched anywhere

else in Philadelphia. Furthermore, we have a \$1.50 and a \$2 Shantung. Both are beautiful high-grade silks, and the latter is the heavy tailoring kind that stands such hard wear as is required by men's riding breeches and suits, by women's suits, coats and

It is interesting to know that no other silk to equal this \$2 quality was to be found at any store in this city. One store has a small quantity of a heavy tailoring Chinese Shantung not so good at \$2.50 a yard.

We have an abundance of this Shantung at \$2 and also of all the other grades; they are not "bargain lots," but are sold se prices all the year round.

The conclusions are obvious-the best assortment of the genuine Chinese Shantung pongee silks and the most economically priced are here this moment in the Wanamaker Silk Store. (First Floor, Chestnut)

Party Frocks to Wear to the Holiday Dance

are pretty enough to insure a good time to any girls who wear them. They are of shimmering taffeta in white or turquoise or rose, or of lovely shades in pastel colors. Some have gold lace petticoats peeping out beneath, some have wee sleeves slashed at the shoulder, some are beaded, some embroidered—but all are new and fresh and

Women Are Buying Some Handsome and Unusual Tub Skirts Much New Wraps for Young Earlier This Spring

This is one reason why we have asked the manufacturers to send us so many of the newer styles as soon as possible, and they are here now!

Another thing is that every woman who sees these skirts declares that the fashions were never so pretty before. There are dozens of models in shrunken gabardine, Ottoman cloth, linen and tricotine.

The newest have buttons down the back or sides, others are buttoned down the front. These same buttons form a trimming in themselves, for they are very beautiful. Prices start at \$5.75 and go to \$15. (First Floor, Central)

Gowns with flying panels and flying sleeves, with loop fringe trimmings, with broad satin girdles, with organdie surplice folds, with startling color combinations - as in the case of a bright geranium red with navy in the shape of knots of ribbons-or with no decoration whatever; some dotted styles being exceedingly simple. Their charm is really in their color, their delicate printings and their grace. Ever so many black and white effects are among them; and prices are \$42.50 to \$140.

"One seeing is better than a hundred hearings" is a Japanese proverb which applies particularly to these gowns.

The First Buttons From Paris Since the War

came in the other day. And we certainly were glad to get them! Some are in round, some oval and some in diamond shape, and they are quite different from anything we have had before. There are some stunning black and white buttons, of galaith, with the circles of white cleverly inset, and the same idea is worked out in colors.

Two Carloads of Famous White Mountain Refrigerators—and the Reason Why Among the best refrigerators in the world-perhaps

the best of all at a moderate price-is the White Mountain. We think so well of this refrigerator that we bring it in by the car load—two carloads have just been received. The real secret of a good refrigerator is the circula-

tion-cold dry air on the move-and it takes years of experience to build a refrigerator that will shove cold air down, forcing the hot air up, having it pass over the ice and become pure and cool again. The White Mountain method of insulation is the

simplest, cleanest and purest; the exterior walls are tongued and grooved, airtightened by double dove-tailing, and then comes the divided air space, next the heavy charcoal sheeting, re-enforced by tongued and grooved heavy walls, side to side and top to bottom, and this is the secret of generating and circulating dry cold air with a minimum ice consumption. The white interior is baked and rebaked upon steel until the white finish is really fused with the metal base, closing every pore, and it grows harder and grips tighter with age. The exterior has rounded ends and corners, and the finish makes the refrigerators real fur-
