Insidious Efforts Made to Push Propaganda Among American Soldiers on Rhine

Treves, April 28.—(By A. P.)—Indications that an organized German propaganda is being carried on in the American zone of occupation continue to reach advanced general headquarters in Treves. According to officers whose duty it is to watch for violations of the regulations of the zone of occupation, every few days reports that the chiefs of the German propaganda department in Berlin continue to receive some new scheme for influencing the minds of the Allied forces in the occupied zones.

All these schemes, it is said, are inspired for the purpose of creating an unfavorable opinion among the Allied troops. When the Germans departed from the territory west of the Rhine they left behind them written and verbal instructions to the local authorities as to the manner in which the incoming troops should be treated.

## ATLANTIC POLARINE

ONE thousand—fifteen hundred—two thousand—times a minute the piston is driven up and down in the cylinders. There are 2000 chances per minute for a poor oil to break down—to cause power loss—to let the cylinder walls get cut or scored.

You don't take a chance with Atlantic Motor Oils. Under every condition of speed they cushion every moving part. The big users have proved this. Experts specify Atlantic. For your motor's sake—ask for Atlantic Polarine or Atlantic Light, Medium or Heavy.
