

**RELIGIOUS CONCLAVE OPENS TOMORROW**  
Leaders of World Conference Foresee Greatest Revival of History in Near Future

**SESSIONS AT ACADEMY HERE**  
The greatest revival that has ever swept the world lies in the near future, and it will be to Christendom. This is the opinion of ministers here and other sections of the country. To prepare for this revival, leaders of the world conference on Christian fundamentals, who prophesy its coming, will open their sessions here tomorrow with meetings in various sections of the city.

Four big meetings will be held in the Academy of Music during the day and seven evangelistic gatherings have been arranged for the outlying sections.

The congress will meet daily until the following Sunday, when the final exercises will be held.

The principal purpose of the conference is to answer the host of believers who, the evangelists say, are inquiring, "What shall we believe?"

**Best Teachers Coming Here**  
"It is understood that the beliefs of the people have been seriously disturbed and confused by the doubt, denial and interrogation of modern times," said J. D. Adams, the executive secretary of the conference. "The best known Bible teachers and preachers of the English-speaking world are coming here to show the people just what God's Word says. A conservative, non-ordained program of constructive teaching on the fundamental and vital doctrines of God's great Book will be presented."

Some indication of the scope of the conference that opens tomorrow is given in the long list of speakers, which includes notable figures of wide range of vision as the Rev. Dr. C. L. Scofield and the Rev. Paul Rader, a former prize fighter.

Doctor Scofield is president of the Philadelphia School of the Bible and was recently elected an honorary member of a French society because of his Bible scholarship. Paul Rader was for years known as Fred West, and at the time when the heavyweight championship of the world was held by Jack Johnson he was looked upon as a "white hope."

The congress is the successor of the Prophecy Conference held in the Academy of Music here last year, but the range of subjects to be discussed has been greatly widened this year.

**Foresee Great Influence**  
The leaders of the movement believe that a world conference on Christian fundamentals will have a modern life-giving influence on reaching as the Great Church Councils in the time of the early church. One thing that led to the holding of this conference was the fact that four movements have sprung up within recent years for federating the Christian church.

The conference this year will take in all the fundamental doctrines of the Christian faith and will be made to include the Deity, atonement and resurrection of Jesus Christ, the personality of the Holy Spirit, the inspiration of the Bible, the personality of Satan, future punishment, God's redemptive plan and the great commission.

**To Hold Smaller Conferences**  
To this end this conference has been called. Its leaders purpose to hold seventy-five smaller conferences of similar character, all over the United States and Canada this year and another conference in London, England, next year.

Eighteen speakers have been provided for almost every denomination of the Protestant Church. Believing the Academy of Music will overflow, as it did last year, with the attendants that have engaged hotel accommodations from as far away places as Saskatchewan, California and Texas, "simultaneous meetings" with those in the Academy have been arranged, to be held in the Chambers-Wylie Presbyterian Church, Broad street below Spruce, and the Calvary Presbyterian Church, Locust and Sixteenth streets, for the afternoons and evenings of the conference week.

The meetings will be held tomorrow in the Academy at 10 a. m., 12:15 p. m., 2 p. m. and 7:30 p. m.

Evangelistic mass meetings will be held tomorrow at 4 p. m. as follows:  
Rev. Paul Rader, Allegheny Theater, Kensington; Doctor W. H. Griffith Thomas, Arch Street Presbyterian Church, Eighteenth and Arch streets; Doctor William B. Riley, Third Baptist Church, Broad and Ritter streets; Doctor J. C. Massey, Baptist Temple, Broad and Becks streets; Doctor G. E. Guille, P. R. H. Y. M. C. A., Forty-first and Westminister avenue; Doctor W. Leon Tucker, West branch Y. M. C. A., Fifty-second and Sansom streets, and Doctor Lewis Sperry Chafer, Reading Room, Darby, Pa.

Monday is to be devoted largely to discussions as to the best methods of "contending for the faith once for all delivered to the saints."

Dean William L. Pettingill, of the Philadelphia School of the Bible, will preside at 10 a. m. in the academy at a discussion of the "Correlation of Bible Schools." The Rev. Paul Rader, who is pastor of the Moody Church of Chicago, will give an evangelistic address at 12:15, and at 2:30 Doctor Charles A. Blanchard, president of Wheaton College, Ill., will preside at a discussion of the "Correlation of Colleges, Seminaries and Academies." The Rev. Paul Rader will also address the evening session.

**SHARES WAR GLORY OF FIGHTING ELDER**  
Private Geo. W. Wills Charged Machine Guns With Gallant Tennesseean

**LOST 7 MEN; CAPTURED 132**  
A Philadelphia soldier, Private George W. Wills, formerly a machinist at the Pennsylvania Salt Works, who lives at 2800 Stonehouse lane, was in the platoon of seventeen American doughboys, headed by Corporal Alvin C. York, of Fall Mall, Tenn., who "cleaned up" German machine-gun nests and after killing a number of Germans, brought back 132 prisoners.

Fresh from his reception yesterday in New York and escorted by Congressman Hull, of his native state, and a delegation of admiring townsmen from Fall Mall, York visited the War Department, where he met Secretary Baker, the White House, where he met Secretary Tumulty, and later the Capitol.

"America owes you a great debt of gratitude," said Secretary Tumulty to Sergeant York, who modestly declined to recount his exploits and sat off in a corner of Mr. Tumulty's office while Representative Hull did the talking.

York said on leaving the White House that he would return to Camp Merritt tomorrow to receive his discharge.

"Then I'll go home and see mother," said he.

"You are a brave man. I congratulate you," Secretary Baker told him.

**WILLS PROBATED TODAY**  
Estate of Raymond W. Tunnell Valued at \$944,450  
Wills probated today were those of Andrew F. Hammond, 1604 Wharton street, which, in private bequests, disposed of property valued at \$4300; Jane S. Lineawaver, Rockland road, Montgomery county, \$5000; John McFadden, 5024 Cedar avenue, \$8500; and Bernard Gray, 1329 Shunk street, \$4000.

An inventory of the estate of Raymond W. Tunnell, 251 West Walnut lane, places the valuation of the personal effects at \$94,450.93; Ellen Craig, \$37,877.18; Morris J. Bittz, \$31,437.59; Margaret Houston, \$15,007.95; and Mary J. McFarland, \$13,800.59.

**BAKER AND TUMULTY GREET "GREAT HERO"**  
Sergeant York, Acclaimed in Capital, Remains Modest

Washington, May 24.—Sergeant Alvin C. York, Tennessee's mountaineer war hero, pronounced by Marshal Foch and publicly acclaimed as "the greatest of all," had a memorable day in the national capital.

Fresh from his reception yesterday in New York and escorted by Congressman Hull, of his native state, and a delegation of admiring townsmen from Fall Mall, York visited the War Department, where he met Secretary Baker, the White House, where he met Secretary Tumulty, and later the Capitol.

"America owes you a great debt of gratitude," said Secretary Tumulty to Sergeant York, who modestly declined to recount his exploits and sat off in a corner of Mr. Tumulty's office while Representative Hull did the talking.

York said on leaving the White House that he would return to Camp Merritt tomorrow to receive his discharge.

"Then I'll go home and see mother," said he.

**UN COMUNICATO DELL'ON. ORLANDO**  
I Delegati Italiani Costantemente Inspirati Dalle Dichiarazioni Fatte Alla Camera

Published and Distributed Under PERMIT NO. 841 Authorized by the act of October 6, 1917, on file at the Postoffice of Philadelphia, Pa. A. S. HURLBORN, Postmaster General.

Roma, 23 maggio.—La Delegazione italiana alla Conferenza della Pace è stata riorganizzata con la nomina di altri tre nuovi membri, secondo quanto si è oggi appreso nei circoli autorevoli. I nuovi membri si dice siano l'On. Crosi, il Sig. Paratore ed il Comandante De Martino.

Il Presidente del Consiglio dei Ministri, On. Orlando, capo della delegazione italiana alla conferenza della Pace, ha emesso un comunicato ufficiale nel quale delinea il lavoro compiuto dal Comitato dei Quattro a Parigi ed indica le difficoltà incontrate.

I Delegati dice il Primo Ministro Orlando nel suo comunicato—stanno cercando di rimuovere detti ostacoli e nello stesso tempo hanno fiducia nella disciplina della nazione. Gli ufficiali—continua l'On. Orlando—sono costantemente ispirati dalle dichiarazioni fatte nella Camera dei Deputati.

Parigi, 22 maggio (ritardato).—L'Agencia Radio, in proposito di negoziati riguardo Fiume, raccoglie la notizia di trattative dirette fra i delegati italiani jugoslavi, frenati parte già della medesima commissione. Nistri speranza di un accordo—dice l'Agencia—ma ignora se l'accordo della opinione pubblica italiana insospita per la dilazione inflittata dal plen-

**EYE BOARD BILL PUSHED**  
Measure to Be Reported Out by State House Committee Monday

Optometrists are watching with interest a bill introduced in the Legislature by Representative Duncan Sinclair, of Fayette, which provides for the reorganization of the state board of optometrical education, examination and licensure.

Representative Sinclair announced today that the bill would be reported out by the House committee on public health and sanitation Monday night.

The law creating the present board provided that it was to consist of seven members, all of them optometrists who had been practicing at least five years prior to their appointment.

Representative Sinclair's bill legislates the present board out of office and provides for the appointment of a new board, a majority of the members of which shall be practicing physicians and the other members optometrists who have practiced at least five years prior to their appointment.

**RECENT discoveries of the world's greatest dental scientists have led them to advocate dentifrices containing mild fruit acids rather than dentifrices which are strongly alkaline.**

The alkaline theory was based on the following reasoning:

The cause of tooth decay is a continual forming of acids from fermenting food particles in tooth crevices and under the gums. An alkali neutralizes acid. Therefore, use an alkaline dentifrice.

This plausible theory overlooked one fact:—Nature has made a provision for neutralizing the acids of food decay.

Saliva is normally alkaline.

A copious and constant flow of saliva will render harmless the acids of food decay.

An alkaline dentifrice can only neutralize acids at the instant of using, but saliva is guarding your teeth from acids every minute of the 24 hours.

Now the danger of a strongly alkaline dentifrice, as proved conclusively by analytical dental science, is that it paralyzes the salivary glands, retards the flow of saliva and reduces its alkalinity, thus defeating Nature's method.

Mennen Cream Dentifrice is positively non-alkaline. It does not stop the flow of saliva, but, on the contrary, it stimulates the salivary glands by means of a mild, beneficial fruit acid which is in the Cream, thus increasing the secretion, flow and alkalinity of saliva and aiding Nature to guard your teeth from destructive acids.

Mennen Cream Dentifrice cleans and polishes the teeth without scouring or grinding the enamel, removing tobacco stains.

It breaks down tartar formations and mucin plaques.

It has a 20% content of alcohol, which serves as an antiseptic deodorant and conditioner of the gums.

Aromatic oils make Mennen's pleasant to use, with a delightfully cool and refreshing after-taste.

Try one tube. You will like it immensely. Your teeth will be cleaner than ever before. You will be guarding them from acids, naturally.

Mennen Cream Dentifrice costs 35 cents and the tube is smaller than most dentifrices, but only 1/4 inch of Mennen's is required instead of the usual inch or more—hence it really is very economical.
