U. S. 'COLD STEEL'**

**Alfred W. Lord, Jr., Says Boche
Avoided Fight at Close
Quarters**

"Sherman certainly knew what he was talking about when he described the war in those famous three words so often quoted," declared Alfred W. Lord, Jr., of 1814 Moore street, just discharged from Camp Dix after more than eight months of service with the American expeditionary forces, "and you can bet your last dollar that the 'amered' Huns realize it better than any others.

"They also realize that the 'Yanks' in a fight as well as describe it, judging from the way they ran when we came in light with our bayonets. If there was one thing in this war that the Germans were afraid of more than any other it was cold steel, and our boys certainly gave them plenty of reason to fear it. The doughboys sought every opportunity to fight at close quarters, while the Huns avoided it, and if they were caught in close quarters their first word was 'amerad,' in the hope of saving their lives after committing some of the meanest tricks possible when they were out of reach of the Yank's bayonet."

**THINK A

WHAT is your doctor's first question? Why does he suspect constipation? Because 90% of his patients are suffering from ailments caused directly or indirectly by the action of poisons formed in a sluggish intestinal tract.

These body poisons are absorbed by the blood and carried all over the body until the weakest organ, unable to withstand the poisonous contact, becomes infected and refuses to act properly. Unfortunately it is usually not until then that the doctor is consulted and asked to treat the diseased organ.

The surest way of purifying the blood and preventing the formation of these destructive body poisons is to prevent stagnation of food waste in the intestinal tract—to prevent constipation.

Constipation is not a matter to be taken lightly or neglected. Nor is it either sufficient on safe to take castor oil, pills, salts, mineral waters, etc., in order to "force" bowel action. Such action does not cure constipation, it makes constipation habit.

Nujol is entirely different from drugs, as it does not force or irritate the bowels.

Nujol prevents stagnation by softening the food waste and encouraging the intestinal muscles to act naturally, thus removing the cause of constipation and self-poisoning. It is absolutely harmless and pleasant to take.

Nujol helps Nature establish easy, thorough bowel evacuation at regular intervals—the healthiest habit in the world. Get a bottle from your druggist today.

Warning: Nujol is sold in sealed bottles bearing the Nujol Trade Mark. All suggestions insist on Nujol. You may suffer from substitutes.

"Regular as
Clockwork"

M. 315th Infantry, Seventy-ninth Division, was one of the selective service men to leave Philadelphia from Draft Board No. 51, on September 22, 1917, for Camp Meade. After ten months' training in America he left Camp Meade for Hohen, where he sailed on the steamer America. On the fourth day out they collided in a fog with a British tramp steamer carrying a crew of forty men, of which only fourteen were saved. The transport was only slightly damaged and proceeded on its way to Brest, arriving on July 18.

Went Over the Top
From Brest he was sent to the interior of France for eight weeks of intensive training, after which he was sent to the Verdun sector.

On September 26 he went "over the top" with Company M and received his baptism of fire in the Argonne Forest. On September 28, at about 3 o'clock in the morning, while crossing No Man's

Land to deliver a message to the commander of another regiment, he was hit by a shrapnel shell and wounded in fourteen different places. He lay unconscious where he had fallen for eighteen hours, being found at 9 o'clock at night by a stretcher bearer and carried on his back to the American lines, where he received first aid and was sent to base Hospital No. 14, where he remained for two months.

He was then sent to Paris to a convalescent hospital, and later removed to Brest, where he sailed for home February 26, arriving in Hoboken March 6, and being sent to the hospital at Camp Merritt.

Private Lord has now fully recovered from his wounds and has just been discharged from service. He is well known in South Philadelphia as an amateur minstrel, and is now engaged in reorganizing his troupe, as all the members have been in France with the Seventy-ninth Division.

ENVELOPES PART OF WILL

Physician and Clergyman Given Checks by Court in Odd Bequest

Two envelopes containing checks for \$500 each payable to a well-known physician and a clergyman have been declared part of the will of the late Mary A. Ashwood. The beneficiaries are Dr. James M. Anders and the Rev. Dr. Norman V. Lewis, rector of the Church of the Incarnation.

A decision to this effect was given yesterday by Judges Gest, Lamorelle, Gummey and Anderson of the Orphans' Court. Their decision reverses that of the register of wills, who declared that the envelopes and checks were not of testamentary character. It was decided that the envelopes which bore a request of the testator and her signature were in reality a codicil. The envelopes bore the following:

"To be opened after my death by my

executor two envelopes each containing a check, the envelope to be delivered as early as possible."

The judges decided that the form of the will was immaterial if the testator's purpose appeared, and in this case it was very plain.

Two More Days for Holiday Shopping in Wanamaker's Down Stairs Store

Frocks in Joyous Flocks!

That the Down Stairs Store is the chosen flocking-place of the greatest number and the greatest variety of new, airy, charming Summer frocks to be found in any store will be admitted by any one who takes the trouble to make comparisons. Everybody interested in dress knows that there are frocks and frocks. Above all, there are Summer frocks and Summer frocks.

Some are merely things to put on. But those assembled in the Down Stairs Store represent the sort of frocks that women of taste and refinement order from their fashionable dressmakers.

Summery Cotton Frocks
are made in scores and scores of ways. They're of flowery voiles, clean-striped tissues and sturdy gingham for the most part. Light grounds printed in blues, pink, light green, lavender and rose abound, and there are also dark blues and black voiles with small white dots or figures.

Gingham dresses start as low as \$4 and go to \$10. The dress that is sketched is trimmed with white pique and is \$7.50. Voiles begin at \$5.75, and there are literally hundreds of dresses between that price and \$15. The voile dress that is sketched is to be had in white, orchid or navy blue and is \$8.50.

White Nets For Graduation
are among the most youthful dresses in this Summer gathering. They show wee frills or lace edging and soft sashes of satin ribbon. \$15, \$23.50 and \$25.

Charming Organdie Frocks
are delicately fresh and cool looking. They are in plain pastel colorings or in checks and dots. Close kin to them are the white and black dotted Swiss dresses, \$9, \$10 to \$18. Other delightful Summer dresses of Georgette crepes, crepes de chine and various silks are priced from \$16.50 up to \$50. (Market)

Dainty Dresses That Young Girls Will Like

Two of these delightful dresses are sketched. The one on the right is of chambray, of a fine, soft quality. It is in tan, blue or light green with white ricrac braid finishing all the edges—the bodice, the sash, the hem and the folds on the skirt. It is in 14 and 16 year sizes at \$10.

The other is a ruffy, frilly affair of rose or blue organdie for girls of 10 to 14 years. \$10.

When a Man Buys Clothing

he wants to be sure that he is getting the best that his money will buy. If he buys part-wool clothing he is not getting that, so the safest plan is to come where the clothing is 100 per cent pure wool and where there is a generous stock to choose from.

From \$20 to \$35
there are suits for young men and older men. Styles are the season's best and their materials are blue serges, and mixed cassimeres and chevots.

Khaki Trousers for the Holiday Outing
Sturdy trousers, well made, are \$3 a pair. (Gallery, Market)

Little Folks' Nightgowns

Simple little garments of soft nainsook for 1 to 3 year olds are daintily finished at the neck, in some cases with embroidery beading run with tiny ribbon. 85c, \$1.25 and \$1.50. Knitted cotton gowns for wee babies of 6 months to 2 years are \$1. (Central)

A New Fabric Glove

with a long cuff, has elastic at the wrist, instead of a strap. It is of a smooth, evenly woven fabric in pongee and cafe au lait with spearpoint stitching on the back. Women find these most becoming with dark silk dresses. \$1.25 the pair. (Central)

Boys' Wash Suits Special at \$1.35

We gathered these together and marked them all at one price, because some are a little mussed or soiled, but not many. Every suit was marked much higher, some more than once again this price.

They are junior Norfolk styles of white, green, and blue chambray or rep and of plaid or striped gingham and percale.

Little chaps will need such suits for the holiday, and many mothers will buy, at this price, enough to last all Summer. For boys of 2½ to 7 years. (Gallery, Market)

White button shoes for children are special at \$1.90.
