Heating Simplified with a

PIPELESS HEATER

For simplicity and low cost of operation, this heating system has no equal.

One large register, which delivers more heat into the building with less fuel consumption than any other known heating method.

The pipeless principle (no heat pipes through the house) has reached its highest development in the NOVELTY Pipeless Heater, scientifically built by the engineers of this old-established firm.

Heavy FLEX-O-TUF iron gives it extraordinary strength and lasting qualities.

Unusually large vaporizing pan insures a steady flow of healthful moist air over the house.

No gas or dust. The improved NOVELTY grate keeps a clean live fire, easy to operate.

NOVELTY Pipeless Heaters are sold and installed only by responsible dealers backed by our 72 years' experience in the study of heating problems.

> We make all types of Heating and Cooking apparatus, so can give you unprejudiced advice as to which method is best for your particular home or building. Consult your dealer or telephone or write us or come to our attractive factory show-room, where full line is displayed.

passey, N. F., where it joined the NC-1 and NC-3, which had reached Trepassey

The three scaplanes left Trepasses May 16 on their trip to the Azores and the NC-4 arrived at Horta, in the Azores, the next day, having been in mapor of Plymouth, on the Mayflower the air thirteen hours. The NC-1 lost pier, was set for 4 p. m. and it was her way in a fog and her crew was planned to conclude all the reception picked up by a Greek steamer and taken to the Azores, the plane being lost.

The NC-3, after losing her bearings, alighted on the sea, from which Commander Towers, in charge of the craft, was unable to rise. After being missing for fifty-two hours, the NC-3 entered the harbor of Ponta Delgada, Azores, countered, however, that she was re tired from the contest, leaving the NC-4 the sole survivor of the trio.

The naval officer in charge of the NC-4 was Lieutenant Commander Albert Cushing Read, who was accompanied by five companions.

From Ponta Delgada to Lisbon, approximately 800 miles, was the next jump of the NC-4, the flight being made on May 27.

Motor trouble which caused the NC-4 to be regarded as the "lame duck" of the American transatlantic flight squadron until she left Trepassey bay, Newfoundland, prevented the completion After resting at Plymouth. Com-mander Read and his crew will go to Plymouth. After covering 100 miles Paris by direction of President Wil-of the last leg of the history-making flight the big seaplane was forced to descend at the Mondego river, and she was held there too late to reach Eng-

partment as to parades of returning troops has been ordered that serious de-lays in the return of troop trains to the ports of debarkation may be avoided. Army units en route from the seaboard to their home camps are now permitted to stop over en route for a of the liberal policy of the War De- day in order that they may be paraded.

"Atmosphere"

When words can not be found to convey certain intangible or subtle ideas, the national advertiser turns to the artist.

The artist may be necessary for involved technical illustration, but his highest value is'in creating "the proper atmosphere."

In the absence of a Charles Dickens, words may be lacking to convey the eager relish that Cushman Parker brings to you through the faces of delighted children.

The grace and elegance of a certain silverware may not be easily expounded, but Franklin Booth creates for it an atmosphere that is compelling.

There is a world of opportunity as yet unrealized

in the art of advertising. When you start-start right. The cost of the very best artist is so infinitely small, divided among so many readers as to be wholly negligible; while

Advertising space in the Butterick publications is for sale by accredited advertising agencies.

AnHonest Dentifrice

SEVERAL years ago we had a dentifrice formula which was pretty good.

We did nothing with it because we didn't want the name "Mennen" to go on just one more unnecessary dentifrice.

You may have noticed that each Mennen product possesses essential superiority over anything of the kind that is made. Mennen Talcum took the place of harmful, starchy powders. Mennen Shaving Cream introduced a radically new type of shaving soap that has become the favorite with millions of men.

We felt that there was need for a truly scientific dentifrice. We kept informed on all dental

Four years ago we learned of a recently estab-

lished principle for the prevention of dental decay. This principle was based upon the researches of H. P. Pickerill, M. D., Ch. B., M. D. S. (Birmingham), L. D. S. (England), one of the world's lead-

ing authorities on dental science. Dr. Pickerill conclusively proved:

a. That one of the principal causes of tooth decay is acid formed by fermenting food particles which find lodgment in tooth crevices and cavities and under the gums. That a copious flow of alkaline saliva neutralizes and renders harmless these acids of food decay.

ous because it paralyses the salivary glands, checking the flow of saliva and interfering with Nature's method of preserving teeth.

For three years our chemists worked on a dentifries ormula which would conform to the scientific principles ex-ounded by Dr. Pickerill and accepted by the dental pro-

They succeeded in producing such a Dentifrice.

For over a year this Dentifrice has been withheld from the public in order that it might be tested on thousands of patients under the observation of prominent dentists who have been interested in and who have aided in the development of Mennen Cream Dentifric

It is Non-Alkaline.

It breaks down tartar formations and mucin plaques. It cleans and polishes teeth without scouring or grind-

It increases the flow of saliva by introducing into the

It has a 20% content of alcohol which serves as an antiseptic mouth wash and conditioner of the gums. Aromatic oils make Mennen Cream Dentifrice pleasant

to use, with a cool, refreshing after-taste. Try one tube, You will like it better than any dentifries you ever tried. Your teeth will be cleaner, and more free from tarter than ever before. A copious after flow of alkaline saliva will preserve your teeth in Nature's way.

Mennen Cream Dentifrice costs 35 cents and the tube is smaller than most dentifrices, but only % inch of Mennen's is required instead of the usual inch or more—hence it really
