

U. S. SAVED BELGIUM, DECLARES MERCIER

Cardinal, Who Will Visit America, Thankful for Hoover's Food Relief

BRAVED GERMAN THREATS

New York, June 6.—Upon his arrival in New York in September Albert Cardinal Mercier, Archbishop of Malines and Primate of Belgium, the heroic prelate who defied Germany to arrest him and saved his country much suffering through his dauntless disregard of the threats of the Prussian invader, will go to Baltimore, where he will be the guest of Cardinal Gibbons.

Upon being interviewed in Brussels concerning his proposed visit to the United States, Cardinal Mercier sent the following message to America: "This will be my first trip across the Atlantic, but to me it seems that I am going to visit old friends. From the beginning of the war I realized that Americans were friends of Belgium. American public opinion in those early days saved Belgium even greater suffering than that which she had to endure. When Mr. Hoover established the commission for relief of the people of occupied Belgium had real evidence of America's friendship."

STEP TOWARD DRY WORLD

Constitution Drawn Up for International Anti-Saloon League Washington, June 6.—(By A. P.)—The first step toward the formation of an international anti-saloon league was taken today by the national convention of the Anti-Saloon League of America when a tentative constitution for the international organization was submitted to the convention by a special committee composed of representatives of the American league and foreign prohibition organizations.

The proposed constitution provides for effective co-operation in the movement for world-wide prohibition and it is believed will be ratified by the convention after brief consideration.

Austria Files Mourning Flag Copenhagen, June 6.—Austria will mourn today. Black flags will be flown throughout the country, according to dispatches reaching here, as an expression of the feeling of the population over the peace terms handed to Austria.
