Shipping Board Declares It Won't Pay on Gloucester Plant

Decision Eagerly Awaited

The United States shipping board has served notice on the New York Shipbuilding Corporation that it will not pay any taxes on the new shipyard in the upper end of Gloucester City.

The appeal will be heard by the Camden county board of taxation, and the decision will have an effect on the tax assessment on the shipyards in Camden and Gloucester.

The new shipyard when finished will cost about \$10,000,000. It is located along the Delaware river in the upper end of Gloucester.

The maintenance of the territorial status quo in articles ten of the covenant of the league of nations provides the definite security which some European skeptics do not expect from the workings of the league.

Representatives of interested states, however, were prepared when the Austrian treaty came before the plenary session and objected strenuously to corresponding clauses being included in that convention.

Financial Amendments

The treaty may make some slight changes regarding the demarcation of certain of the contested districts on the Belgo-German frontier.

The financial clauses will be amended to give the reparations commission discretion to authorize Germany to raise working capital for carrying her reparations.

YEOMANETTES SEE VISIONS OF HIGH SALARIES IN FLIGHT

Brass Buttons and Natty Uniforms Will Go, Too—Government Will Be Sorry, Lament Pretty Navy "Stenogs"

Dainty yeomanettes at the Philadelphia Navy Yard see before them long, dreary days in tall office buildings, where they pound the keys of stubborn typewriters for hours at a time.

The salaries paid the yeomanettes range from \$98.60 a month to \$134. And the naval officers say they are worth every cent of it.

They are figuring on how to exist on salaries ranging from eight to twenty dollars.

They are wondering how they will be able to hold their prestige among the "stenogs" and clerks after they are forced to lay aside their natty uniforms—white at this season of the year and made especially attractive by the shiny, gold yard buttons.

They are going to be sorry, anyway, they say. The recruiting officials should appreciate that there will be absolutely no attraction for enlistments at the navy yard after the yeomenettes of various sizes, ranks and degrees of beauty are mustered out.
