PHILADELPHIA ARTIST WILL ASSIST FRENCH

W. W. Hubbard, Private in U. S. Army, Will Come to America on Foreign Commission

TAUGHT IN A. E. F. COLLEGE

Walter W. Hubbard, Jr., who went to France as a private, will return to Philadelphia as an artist-photographer with a mission which the French Labor Ministry will send to America in September. Mr. Hubbard tells this news in a letter to his father, Walter W. Hubbard, 515 North Sixty-first street.

Mr. Hubbard claims the honor of being the first enlisted man in the American expeditionary force sent to the front exclusively as an artist. He was born in Philadelphia and educated at the Central High School, Graphic Sketch Club and School of Industrial Art. He was a newspaper cartoonist in Manchester, N. H., when the call to the colors came.

He served with the Seventy-eighth Division and with the Fourth Army Corps in the Vosges sector under First Lieutenant Winfield S. Cline, of Philadelphia. He was gassed and sent to the hospital with influenza, later being assigned to the United States Signal Corps laboratory in Paris. He left this to take an appointment as commercial art instructor at the A. E. F. University in Beaune, France, where he has the privilege of "bossing around" the officers in his class, although but a private himself.

His principal kick is that during the thirteen months he has been in France he has had but two glasses of fresh milk. He wants to get home soon to see wife and son Stanley, who live at Osage, N. J.

Mr. Hubbard's services were requested by Albert M. Thomas, minister of labor, and Lucien Marsh, statistics general of France. His talent will be used in the art and photographic presentation of the commission's work, the preparation of lantern slides and motion pictures and the designing of posters. The commission will visit the larger cities of this country, including Philadelphia, to inform Americans of sociological conditions in France at the close of the war.

Mrs. Daisy M. Orleman Robinson, M.D., of the Rockefeller Institute, who was decorated by the French Government for combating contagious diseases, will be another member of the commission.

DEEDS OFFICE SWAMPED

Rush of Property Conveyances Far Exceeds Normal

Property sales caused an unprecedented rush of business at the recorder of deeds' office during the first four months of this year, it was learned today.

This department is now crowded daily with title searchers and unless the rush decreases the force of the office, it is said, will have to be increased.

During the four months ending April 30, 36,576 instruments were recorded, or an increase of 12,329 over the same period of last year. In order to accommodate those having business in this department the office will remain open until 5 p. m. daily except Saturday. There was an average of 200 mortgages daily during the last week. This figure is about three times the normal number of satisfactions recorded. Most of the properties sold during the first four months were of the dwelling house class.

The instruments recorded during the first four months of the year had a cash value of $36,185,157.

THOUGHT HIPPO 3 OF 'EM

Only Bumps Show Above Water at Zoo—Then Sambo Gasps

There's no doubt about it. Sambo didn't know how to size up a hippo.

In the first place somebody told him that he ought to go out to the Zoo to see the baby hoppopotamus.

He got there yesterday just after the mother hippo had sunk under the surface of the water, but not so far under that the bulge of her body over her hind legs and the bulge over her front legs and the upper portion of her head didn't show.

The baby hippo was standing on the bank of the pond.

"Whar's dat 'ere pickaninny hippo?" cried Sambo.

"Why, there," said the keeper, and pointed to the hippo standing on the bank.

"Quit yo' kiddin'. Dat's de ole woman."

But just then the mother hippo rose out of the water, her two bumps, head and all.

"Goo' gracious!" gasped Sambo, "ah done 'magined dat animile was three of 'em!"

PIEZ APPROVES SALE OF EMERGENCY FLEET

Former Director General of U. S. Corporation Favors Plan Suggested by Hurley

SAYS "SELL ALL OF SHIPS"

Tentative approval of the United States shipping board's recommendations to Congress for the sale of the emergency merchant fleet is given by Charles Piez, former director general of the Emergency Fleet Corporation.

Edward N. Hurley, chairman of the shipping board, last Thursday recommended the sale of every merchant ship built by the government during the war and declared for the principle of private ownership and operation.

From French Lick Springs, Ind., where he is spending a vacation, Mr. Piez replied to a request from the EVENING PUBLIC LEDGER for his opinion on the advisability of the plan as follows:

"If this refers to the ultimate aim of the shipping board, I heartily approve. But before selling any number of these ships I feel we should be reasonably sure we can dispose of substantially all the vessels in the fleet. I strongly recommend that we begin by selling the smaller vessels and those that do not fit into the ideal fleet Mr. Hurley is engaged in developing."

At least fifty ships of the emergency fleet already have been sold. The most recent sale was reported Saturday, when the shipping board disposed of twenty-two vessels, ranging from 7500 to 8900 tons each, at $210 a ton. This figure assures a small profit per ton to the government, in spite of the excessive cost at which the vessels were built under war prices.
