**These June Days Are Teaching Us Good Lessons**

of how things grow. The flowering plants and little berry bushes all have three periods of growth.

The first and slowest, all invisible at the root.

The second, and much quicker, the visible growth of the stem.

The third period, when root and stem have combined their forces and the plant quickly unfolds its blossom and rushes into fruit.

The beginnings of enterprises educational, reforms political and engineering extraordinary, like our vast city underground roadway, or the Delaware River tunnel, or a commercial project like this Store with its outreach and intakes, are not possible to be in view except as they grow for weeks and months into visualization. But those on the inside know of the growth always going on.

**This Is the Time for Women Who Need Sports Hats—**

because we've reduced quite a number and many kinds, so that there's excellent choosing for little money.

There are hats of black, of white and the fashionable colors, there are smooth, novelty and rough straws, and there are hats in large, small and medium sizes.

Usually they are simply trimmed, as sports hats should be, and they are in good condition, every one.

Prices are very much less than originally.

**Coolness for a Man**

Throwing off the smothering kind of clothes is natural, but it is in choosing the lighter things that a man shows his sense or lack of it.

It took the men of these parts some time to appreciate the value of a tropical suit, but now they understand all about the cool advantage of it or, at least, most of them do.

What we want them particularly to understand is that all tropical suits should be well tailored on account of the lightness of the fabrics used in them, but that some are better tailored than others and ours are of the better-tailored kind—we have none of the other kind—absolutely none.

For the man who has yet to buy his tropical suit there is a real advantage in choosing from a collection that includes only the best-tailored kind to be found anywhere for the prices—\$18 to \$35—in "Palm Beach," breeze-weave and mo-hair materials.

Flannel trousers also at \$9 to \$12.50.  
(Third Floor, Market)

**Men's Thoroughly Good Summer Shirts for \$2.65**

Please note that these shirts are of an excellent grade of woven madras and chevot. They are soft-cuff, negligee style. Choose from practically any kind of striped design you like, including the popular seersucker stripes. Unusual shirts for \$2.65.

**A Group of Italian Furniture**

just now to be seen in The Little House would be precisely right at the end of some long hall or between the windows of a spacious living room.

It consists of a walnut cabinet, a faithful copy of an antique, and toned to give with peculiar success the effect of age. On it are two carved and gilded Italian candlesticks, and above it hangs a mirror with a carved and gilded frame, mirror glass showing in the interstices of the design. Two chairs, covered with red velvet and enriched with antique gold embroidery, complete the group. The cabinet is \$335, the mirror \$130, the chairs \$145 apiece and the candlesticks \$35 each.

It is one of the best collections of cut glass we have had in years, a fact which buyers of wedding gifts seem to recognize.

Dinner sets, too—are a favorite gift—at least we have never sold so many for gift-giving.

The selection in this June Sale is splendid and prices very low, especially in view of conditions at the potteries.

**June Is Still More Lovely With Music**

"What so rare as a day in June?" the poet sang. And the answer might be a soft, warm June evening, when the roses and honeysuckle are in bloom and a fine old melody stealing out from the house to some of us on the porch.

**With a player-piano anyone can have music in June**

In Lowell's day only a fortunate few could play the piano and there were not many pianos to play. Today anyone who cares for music can make it with a player-piano and can have the finest music in the world at his command.

In the Wanamaker Store are player-pianos and reproducing pianos that represent the highest development of these instruments. They are associated with pianos whose names are famous the country over—

- Chickering
- Schomaker
- Emerson
- Lindeman
- Knabe
- Haines Bros.
- Marshall and Wendell
- J. C. Campbell

These instruments are to be found at Wanamaker's only in Philadelphia, and prices range from \$550 to \$3350.

Any instrument may be bought on convenient terms.
