

TO WINNIPEG STRIKE LEADERS ARRESTED

Radical Papers Seized in Raid on Labor Temple—Prisoners Whisked Away to Country

SAY "BIG UNION" IS I. W. W.

By the Associated Press
 Winnipeg, June 17.—Ten strike leaders were arrested in their homes here between 3 and 4 o'clock this morning and transported in automobiles to some place in the country, presumably Stormy Mountain, by government police officials. Other arrests are reported to have been made in Calgary and other western points at the same time.
 Simultaneously with the arrests of the strike leaders, the Royal Northwest Mounted police raided the Labor Temple, from which the strike has been conducted. Much literature, said to be of a Bolshevik nature, was seized. The police broke down doors and windows during the raid.
 The official list of those arrested includes R. B. Russell, the Rev. William Ivens, R. E. Bray, George W. Armstrong, Aldermen John Quinn and A. A. Heaps, and four Russian agitators.
 Freight yards here were badly crippled when a large number of firemen, switchmen and engineers joined the general strike yesterday. Brotherhood and railroad officials said their places were rapidly being filled. Strike leaders threaten the extension of the railway walkout to western points.
 No response was made last night by strikers to the engineering and electrical trades employers offering a collective bargaining plan for settling the disputes leading to the strike.

Toronto, June 17.—(By A. P.)—Documents which are said to prove that the Industrial Workers of the World and the "One Big Union," which has caused much labor unrest in Canada, are the same organization, have been seized in a raid conducted by the Ontario provincial police, it was learned here last night. The city in which the raid was made has not been announced.
 A document, which, more than any of the others, is regarded as showing connection between the two organizations is a chart on the back of a manifesto issued by an I. W. W. official. This chart takes the form of a large circle, above which appear the names of the two organizations.

Montreal, June 17.—(By A. P.)—There are at present more than 11,500 workers on strike in this city and those labor men who predicted there would be more than 20,000 on strike tomorrow night now claim that more than 30,000 will be involved by the end of the week.

A Ready Made Coffee Pure and Delicious

This is the story of a coffee that does not have to be made! And the way of it is this:
 It was necessary for our boys in the trenches to have real coffee, and yet they did not have the means to make it. So Hires Instant Soluble Coffee was made.
 And an proof that Hires Instant Soluble Coffee is every requirement, 56 2-3 per cent of all the trench coffee contracted for by the American Army was the same Hires Instant Soluble Coffee. We couldn't agree to supply more than this because our facilities would not permit.
 Carefully chosen Coffee beans from a choice selection of Java and Mocha coffee are used in making Hires Instant Soluble Coffee. And the delicious juice of these beans is dried and converted into a powdered, soluble form. You simply add water to it and the coffee powder dissolves and becomes as originally made.
 Having Hires Instant Soluble Coffee, means no trouble over the coffee pot, and no more emptying coffee grounds. It means that elimination of waste. You simply add coffee just as you want it—when ever you want it, and you don't have to use two or three cups left over in the pot.
 And Hires Instant Soluble Coffee can be used in small or large quantities for use right in your home. A small can of Hires Instant Soluble Coffee is equivalent to a pound of the best Mocha and Java coffee. The low price is due to the fact that within our exclusive process we extract 100 per cent more juice from the bean than you can in making coffee in the old way. Get it in all stores.

Stopped by Patrolman
 On May 31 Fields was stopped on the street by Patrolman Landy of the Fifteenth and Locust streets station, who was in plain clothes. Landy asked Fields what he had in a bundle he was carrying under his arm. Fields said it

Don't Limp—Are Not Corns NECESSARY

Go to your druggist. Tell him you want A. F. Pierce's Corn Plasters. He will tell you they have been sold for 16 years, under a positive money-back guarantee. For 25c he will give you a green box containing enough plasters to treat and remove 8 corns. For 10c you can buy a vest-pocket package (green box) containing three treatments.
 Use them as per directions, and you can see more walk, run or dance with comfort. They are small, clear-cutting, and non-irritating, and they can easily be put on your thumb. By mail, if you prefer, 7c.

him to go.
 Later Landy learned that the home of Mrs. John L. Wentz, at 118 South Twenty-first street, had been robbed just before he saw the colored boy on the street. The patrolman conducted a search for Fields and arrested him. The boy was then accused of eighteen robberies, and at his first hearing was held in \$1000 bail on each charge.
 Landy, assisted by Patrolman Magee, also from the Fifteenth and Locust streets station, and Patrolman Toland and McCaughan, of the Twelfth and Pine streets station, then started a search to recover the loot. The arrest of the woman and the two old-gold-dealers followed.
 Much of the loot has been recovered. Some articles had been pawned, and a truck and a suitcase full of stolen clothing was recovered in Atlantic City. The great majority of the stolen articles have been identified and returned to the owners.
 In his session Fields told the police he visited the second-hand store of Mrs. Bockford on a number of occasions. When he first went there he said he offered a spangled dress for \$200. The boy said Mr. Bockford gave him \$4 for it.
 On his first visit Fields said he "did business" with Mrs. Bockford in her store. When he was back he said he sold stolen articles to her in the kitchen in back of the store. When questioned he described details of the kitchen, telling her articles of furniture were found and the color of the wallpaper.

STRIKE THREATENS CALIFORNIA PHONES

Walkouts of Operators in Cities Tend to Paralyze Industry in State

TELEGRAPHERS AWAIT CALL

By the Associated Press
 San Francisco, June 17.—Telephone operators were on strike today in many cities of southern California, and, with additions to their ranks of others in central and northern California, together with electrical workers, the industry promises soon to become paralyzed throughout the state.
 Telephone girls struck yesterday in Los Angeles, San Bernardino, Long Beach and other places.
 Last night 2700 operators in San Francisco, Alameda and Contra Costa counties voted to walk out. With this announcement made by the women and girls, another soon followed from the male electrical workers of a larger district that they, too, would strike.
 San Diego telephone workers were the latest to announce a strike vote, and all were to quit their posts this morning.
 Issues involved in the strike include, it was said, better housing conditions, wage increases for certain classes of workers and discontinuance of alleged discrimination on the part of telephone officials.

Chicago, June 17.—(By A. P.)—The strike of commercial telegraphers, which has been in effect a week today, may be settled tomorrow, according to S. J. Konekamp, International president of the Commercial Telegraphers' Union of America.
 He said he believed Postmaster General Burleson's order of Saturday granting right of collective bargaining to electrical and telephone workers, which prevented a strike except on the Pacific coast, would apply to telegraph operators and would tend to simplify the situation.
 "The speed with which the strike is ended depends mostly on the time it takes the postmaster general to organize his machinery for bringing the officials of the telegraph companies and those of the union together," Mr. Konekamp said.
 Officials at the Chicago office of the Western Union and Postal Companies reported the situation as unchanged.

THREE-DAY REIGN OF TERROR

State Police Seek Bandits on Roads Leading to Reading
 Reading, Pa., June 17.—Mounted state police, heavily armed, are patrolling all roads leading into Reading from the south, in an effort to halt the reign of terror created by a band of masked highwaymen for three successive days. The bandits last night staged their third hold-up when they attempted to rob Leroy Levi, a Reading business man, at the same spot in which John Good, a Cedar Top farmer, was robbed at midnight Saturday.
 Levi escaped from an ambush when he lashed his horse into a gallop and drove at top speed past the bandits. Unlike the attempted hold-up of Isaac Kohl, a Cumru farmer, who was freed upon when he sped his auto out of the trap at midnight Sunday, Levi was not shot at by the highwaymen.

"Create a Demand"

If avocados were suddenly grown in enormous quantities, the growers would have to "create a demand" or their fruit would rot on the ground.
 Ukuleles would have been a drug on the market before the discovery of the beach at Waikiki.
 Usually, however, creating a demand means concentrating an already existing demand on some one brand or trade-mark in that field.
 Morris does not need to create a demand for ham—but his advertising may concentrate the ham lover's appetite on the Morris brand.
 Advertising will induce people to eat alligator pears or ripe olives, and it will also sell Goodyear's to a man wanting tires.
 Could not advertising create or concentrate public patronage for you in your business?
