

FINANCIAL NEWS—CLOSING NEW YORK AND PHILADELPHIA STOCK QUOTATIONS

GOOD ADVANCES RECORDED IN NEW YORK STOCK MARKET

Outside Buyers Expect Bulge When Germans Sign Treaty, but Speculators Look for Drop Later

High Points in Today's Financial News
Stocks advanced in New York on belief that Germans would soon sign peace treaty. Curb business was fairly large. Corn moved upward. Cotton was higher. Strength of frames was feature of foreign exchange market.

New York, June 21.—There was a joining of issues in the stock market trading today between the mass of outside buyers, which looked on the prospective signing of the peace treaty as an incentive for a general advance, and the speculative element in the Street which had assumed that with the signing of the treaty the market, even if it did advance, would later have a continued decline.

STEEL GROUP LEADS CURB TRADE LARGE; ADVANCING MARKET NEW GOLD STOCK UP

News from Germany is Bullish Allied Packing Starts Strong. Incentive in Wall Street. but Reacts Slightly After Making Record

Stock sales today on the New York Exchange totaled 435,100 shares.

New York, June 21.—The New York Exchange's financial review, this afternoon is as follows: Under the leadership of the steel group, today's stock market advanced substantially on the trend of peace news.

United States Steel moved up 10 1/2 to 108 1/2. Baldwin Locomotive rose 3 points to 115 on consolidation talk.

The bond market showed a broadening tendency, with an increased demand for many of the railroad issues at fractional advances.

There were heavy dealings again in the Liberty issue and in the Victory notes without material change in prices.

Wall Street was not disappointed in the behavior of the market and most buyers who made it a point to be out of town from Friday night to Monday morning felt it incumbent upon them to take their positions in view of the highly bullish sentiment which prevailed at the close yesterday.

Foreign exchange had little feature to offer save for an 8 point advance in francs to 42.37 francs to the dollar.

The monetary community paid no attention whatever to developments other than those having a bearing on the peace settlement and this was not less true of the exchanges which, perhaps, are more directly influenced by them.

The second hour saw some slipping in prices from the top levels, but the undertone continued one of strength.

The more distinctive speculative issues displayed less resistance to whatever pressure the home sought to exert from time to time than did the standard list.

Maxwell's at the closing were somewhat mixed. Liberty bonds were steady to firm.

Officially as the trade journals have been all along they were if more so with the respect to conditions in the working world.

"Economic" advices are such, writes Dow, "as to leave no doubt as to the steady advance and improvement of the conditions of the business and the steadily increasing confidence of the public."

Best prospects "specify in demand, strength of prices and optimism as to the outlook stand out more clearly than at any previous date since the armistice."

While articles of luxury and working apparel seem to be leading, the situation is remarkable for the wide scope and comprehensiveness of the demand and the great variety of commodities and fabricated materials the industry covers.

Bank clearings this week totaled \$8,725,704,000, which is a new high record for all time, exceeding the previous one established two weeks ago by some \$400,000,000.

Extra by Dodge Manufacturing
New York, June 21.—The Dodge Manufacturing Company declared the regular quarterly dividend of 1 1/2 per cent on the preferred and 1 1/2 per cent on the common and an extra of 1 per cent on the common stock. Common dividends are payable July 1 to stock of record June 28, and preferred payable July 1 to stock of record June 21.

Local Federal Institution's Statement Shows Larger Reserve
The Philadelphia Federal Reserve Bank in its statement as of June 20 shows a reduction in total bills on hand, that item being \$195,706,350 as compared with \$206,635,080 the week before. This reduction of \$10,928,730 in total bills is more than offset, however, by an increase of \$200,000 in contingent liability as indorsor on bills redemitted with other Federal Reserve banks, so that the decrease in bills does not indicate any liquidation by the banks of their obligations at the Federal Reserve bank but merely a distribution of those obligations by the Reserve bank here to other Reserve banks, so that taking the system as a whole the liability is still outstanding.

Contingent liability is \$20,000,000. The ratio of total reserves to net deposits and reserve note liabilities on June 20 was 41.4 per cent as compared with 40.7 per cent on June 13, the improvement being due to the rediscounting process by the Reserve bank.
