Entering the Last Week of the June China Sale

For all practical requirements this is as good a sale today as it was on the day

Of the two classes of goods which are the mainstay of a china sale-the dinner sets and cut glass-the varieties are unstinted. Anybody needing a dinner set can choose now with the double advantage of

real price reductions and a practically unlimited field to select from. French sets are getting dearer. The Limoges potteries are unequal to the

demands that are coming to them. Manufacturers have orders booked a year or more in advance. This exceptional demand is due to the fact that normal European requirements neglected dur-

ing the war have now to be satisfied. French china dinner sets in this sale are \$32.50 to \$175. Every set in this

group will be at least 25 per cent higher next week. English, American and Japanese sets will also go to higher prices once this

The wisdom of buying now is very plain.

The English sets are in a host of captivating patterns and colors, including many charmingly vivid effects. They are priced at \$25 to \$100. The showing of American sets is naturally very large and the wares are the pick and choice of the potteries. The prices are \$13.50 to \$40.

Japanese sets are \$40 to \$75. Cut glass in brilliant assortment at savings of 25 to 50 per cent. Prices from \$1 to \$400 a piece.
