A book admirably adapted for the use preachers and teachers of Bible classes is Prof. A. T. Robertson's "Studies in Mark's Gospel." It is not commentary, but a condensed record of what is known of the writer, his relations to Peter and the place his gospel holds among the first three, together with descriptions of the miracles, parables and teaching of Jesus. Of especial interest and value is the chapter on "Jesus, the exemplar for preachers." While strongly holding the conviction that it is the earliest of the gospels, he states clearly the different beliefs of the leading biblical scholars of all times. Twice Sheila Travers grasped at Happiness and it cluded her. The man to whom she gave the love of her early youth was hot-blooded, selfish, sensual, and by a scene of unbridled passion during their stay at the house of a mutual friend, disgusted the girl with the idea of marriage. The man with whom she entered into a legalized "co-partnership" union some years later was cold, ambitious, selfabsorbed, and the girl suffered from soul-starvation. A picture which she cherished seemed to symbolize her life—an empty road. with a suggestion of something mystical, restful, satisfying, at the end. Later, Sheila met the painter of this picture, and with his help she found the Hidden Valley below the brow of the hill—the glorious fulfillment of all her dreams.
