Failure of Trees to Thrive Leads to Appointment of Experts to Study Ground

CITY SEIZURE INDICATED

The failure of trees planted in League Island Park to thrive properly has led to the appointment of a committee of engineers to study soil and other ground conditions on the land improved by Senator Vare under city contracts.

Director Vatesman, of the Department of Public Works, is evidently not satisfied with the contractor's efforts as a landscape gardener, as he has asked Chief Albright, of Surveys Chief Dunlap, of Highways, and Charles F. Puff, Jr., a city engineer, to make personal inspections and report on the soil making up the Vate fills.

The National Equipment Corporation, with a capital stock of \$148,000,000, which is all to be subscribed for by the United States railroad administration if all plans carry through as expected, came into existence on Tuesday.
