

WEIMAR TO RATIFY TREATY SATURDAY

Majority in National Assembly Pledged to Approve Pact, Dispatch Says

DULLES TO REPRESENT U. S.

By the Associated Press Paris, July 3.—The German National Assembly will deal with the treaty of peace between the Allies and Germany on Saturday and a majority for the ratification of the instrument has been secured, according to a Weimar dispatch to the Politikon, relayed to Paris. The Council of Five appointed three commissions yesterday for the purpose of continuing the work of the Peace Conference. The commission for the execution of the German treaty consists of John Foster Dulles, United States; Sir Eyre Crowe, England; Captain Andre Tardieu, France, and Vittorio Scialoja, Italy. The commission for the organization of permanent reparations consists of Louis Loucheur, France; Sydney Peel, England; Dr. Silvio Crespi, Italy, and M. Moni, Japan. The commission for the coordination of Bulgarian frontiers will be Mr. Dulles, M. Tardieu and Mr. Peel.

Troops May Enter Hungary A report from the interallied council on the tactics of Bela Kun, foreign minister of the Hungarian Soviet government, in obstructing relief work in Hungary, will be submitted to the Council of Five this afternoon. It is understood that the representative will be made to Bela Kun that if he persists in his tactics a small force of allied troops probably will be thrown into Hungary to assist in relief work. The Council also was to consider the general question of Armenian relief.

[Paris advices received Wednesday night stated that food supplies destined for Czechoslovakia, had been held up by the refusal of Bela Kun to permit steamers carrying the supplies to pass the Danube.]

Urge Bessarabian Plebiscite The council heard M. Bratiano Rumanian prime minister and Basile Maklakoff, Russian ambassador to France, speaking for Rumania and Russia respectively, concerning the Bessarabian frontier. M. Maklakoff stoutly opposed the annexation of Bessarabia to Rumania without a plebiscite, asserting that the majority of the population was Russian. M. Bratiano claimed that the Moldavian sections of Bessarabia, which are essentially Rumanian, should be given to Rumania. M. Bratiano, prime minister to Rumania, left last night for Bucharest to submit to his government the text of the treaty regarding that country.

Bratiano Declines to Act Public opinion in Rumania and Transylvania is such that M. Bratiano considers it impossible to take upon himself the responsibility for signing, without first referring the matter to the government, and gauging popular sentiment toward the convention. It is even possible he may resign, thus causing a ministerial crisis at Bucharest.

Chinese To Sign Other Pacts The Chinese delegation to the Peace Conference expect to sign the treaty with Austria, C. T. Wang, a member of the delegation, told the Associated Press correspondent. He said the Austrian treaty contains nothing objectionable to his government. As it includes the league of nations covenant the Chinese would gain membership in the league in that manner.

Decision on Economic Council The following decision of the council of the principal allied and associated powers respecting the continuation of the Supreme Economic Council was announced at the twenty-fifth meeting of the Economic Council held on Monday:

That in some form international consultation in economic matters should be continued until the council of the league of nations has had an opportunity of considering the present acute position of the economic situation, and that the Supreme Economic Council should be requested to suggest for the consideration of the several governments the methods of consultation which would be most serviceable for this purpose.

Would Lift Cable Ban The council approved and forwarded to the Council of Ten a resolution to the effect that it was the principal view of the majority of its members that the postal and telegraphic censorship should be removed coincidentally with the lifting of the blockade. Instructions on the subject were requested.

Mission on Polish Issues A special mission appointed by President Wilson to proceed to Poland for the purpose of investigating the relations between the Jewish and non-Jewish populations comprises Henry

BARON RAYLEIGH The late Baron Rayleigh, once chancellor of Cambridge, was one of England's greatest physicists, famous throughout Europe for his mathematical and physical papers written under the name of 'John William Strutt.' He was known, too, as 'Peter Shopkeeper,' having established a chain of milk shops in London, which were supplied by his own farm

lassador at Constantinople; Brigadier General Edgar Jadwin, West Point, 90, who brought to France the Fifteenth Railway Engineers, the first engineer regiment to arrive in France, and Homer H. Johnson, of Cleveland, professor of constitutional law in Western Reserve University and a member of the legislative commission. The disavowal of the mission is due to the request of the Polish government. Premier Paderewski asked that a mission be sent to establish the truth of the various reports concerning Poland. Hugh S. Gibson, the American minister at Warsaw, suggested such a mission some time ago.

Careful inquiry will be made into all matters affecting the relations between the Jewish and non-Jewish elements in Poland. This will involve an investigation of the anti-Jewish excesses, which are alleged to have occurred, as well as the economic boycott and other discriminations which are reported to have been employed against the Jews in Poland.

P. S. DU PONT GIVES BIG SUM TO SCHOOLS

Trust Fund for Delaware Will Net \$2,000,000 in Four Years

Wilmington, Del., July 3.—Pierre S. du Pont, who piloted the du Pont Powder Company through the war period, as its president, and who is now chairman of its board of directors, today set aside a trust fund for the benefit of the public school system of Delaware, which will net \$2,000,000 in the next four years.

The purpose of the fund, he explained in a letter to the State Board of Education, is to provide for modern reconstruction of school buildings all over the state, outside of Wilmington, each district to bear at least half the expense.

Mr. du Pont is known as Delaware's best educational benefactor, having already given \$1,500,000 for the enlargement of Delaware College and having helped in other ways. The last Legislature enacted a new school code for this state to follow which buildings must be modernized.

Governor Townsend recently appointed Mr. du Pont to the State Board of Education under the code. Having made a survey of educational facilities, Mr. du Pont has learned the needs; hence his munificent gift.

14-K Solid \$ Gold 12

Ladies' or Men's Watches THIS WILL INTEREST YOU! An accurate, 14-K Solid GOLD dependable time keeper at a price that will convince the most skeptical that our offers are unapproachable. The above watch, selling for \$12 will cost you more than that amount if bought of the average retailer. We buy by the hundreds where some dealers order them by the dozen, and we are enabled to make the same profit on a hundred that some make on a dozen. Look in our windows for other remarkable values. DENIKINE OCCUPIES CITY OF TZARITZIN

Bolshevik Papers Demand That Petrograd Be Held Until Last Moment

CAPITAL NEARLY ISOLATED

By the Associated Press London, July 3.—The forces of General Denikine, the anti-Bolshevik leader in southern Russia, have occupied the city of Tzaritzin, on the Volga river, south of Saratov, according to a Russian wireless report today. The city previously had been abandoned by the Bolsheviks.

Occupation of Tzaritzin by the Denikine forces is a blow to the Bolshevik position on the lower Volga. Tzaritzin is in a bend of the river 300 miles northwest of its mouth at Astrakhan and if there are any Bolshevik forces in that region their communication with central Russia probably has been severed. In reaching the Volga General Denikine is the first of the anti-Bolshevik leaders to bring his forces to the great river which has been called the "mother of Russia." North of Tzaritzin the Kolchak forces early this year were striking for the Volga, but recently have been driven back 200 miles from the stream.

Since June 14 this year, when General Denikine defeated the Bolsheviks on the river Kuma in the northern Caucasus, his forces had advanced about 500 miles to the Volga by way of the River Don.

The recent defeat of the Kolchak forces at Vfa and the reported capture of Perm by the Bolsheviks widens the distance between the fronts on which Denikine and Kolchak are operating.

Washington, July 3.—(By A. P.)—Swedish press reports received today by the State Department said the Bolsheviks were mobilizing more energetically than ever and that all able to bear arms were being called out.

Mr. du Pont is known as Delaware's best educational benefactor, having already given \$1,500,000 for the enlargement of Delaware College and having helped in other ways. The last Legislature enacted a new school code for this state to follow which buildings must be modernized.

This Scientific Boiler Was Built to Cut Fuel Costs

The painstaking labor of scientists and skilled mechanics evolved finally the best boiler for steam or hot-water heating. The careful co-ordination of perfected parts produces the aim of heating excellence—scientific combustion.

Weil-McLain SCIENTIFIC COMBUSTION BOILERS Scientific tests prove that this boiler renders real heating service—because such features as would increase costs without rendering a real service have been eliminated. Heat your home scientifically and save that extra load of coal.

LUNDGREN CASE AWAITS TRIAL JURY

Prosecuting Attorney Says Accused Woman Had Both Drugs That Caused Deaths

Lawrence, Mass., July 3.—(By A. P.)—Court set well into the evening to allow Attorney General H. C. Attwill to complete his closing argument yesterday in the trial of Mrs. Bessie N. (Skeels) Lundgren for the murder of Miss Florence W. Gay. Mrs. Skeels will be given an opportunity to address the court this afternoon, after which the charge will be given to the jury early in the afternoon.

Attorney General Attwill said that there was a great deal of circumstantial evidence in the case, but that it all pointed to a single conclusion. The evidence showed, he said, that Miss Gay had died from arsenic poisoning and that Mrs. Skeels's brother, for whose death she is under indictment for murder in New Jersey, had died from lead poisoning and that the defendant had had in her possession both arsenic and lead.

"If the district attorney, knowing these facts," he exclaimed, "had not brought action against her, he should have been impeached."

CALLS PLUNKETT PLAN DEAD

De Valera Declares Irish Demand Cannot Be Sidetracked Dublin, July 3.—(By A. P.)—Arthur Griffith, vice president of the Sinn Fein movement, announced last night he had received the following telegram from Edward de Valera, who is in the United States:

"I am sure there is no danger that the Irish people will start into a trot after the new Plunkett carrot. The dodge is, perhaps, unknown to the American people, but will be explained to them."

Mr. Griffith said he had sent this cable to de Valera: "The latest attempt to sidetrack the Irish national demand is dead in its cradle." A number of prominent Irishmen headed by Sir Horace Plunkett issued last week in the name of the Irish Dominion League a manifesto containing proposals for a settlement of the Irish question. It was proposed that Ireland should be a dominion in the British Empire, but otherwise would have complete freedom.

ATTEMPT FAR EAST RELIEF BY BARTER

American Steamer Kickapoo Leaves France to Exchange Supplies for Russian Wheat

TO FEED THE ARMENIANS

By the Associated Press Paris, July 3.—The American steamer Kickapoo, carrying \$500,000 worth of cloth, shoes and various manufactured goods, left St. Nazaire yesterday for Novorossiysk, a non-Bolshevik port on the eastern coast of the Black Sea, where it will trade its cargo for Russian wheat, which will be shipped across the Black Sea to feed the starving Armenians.

This experiment in bartering which is being conducted by the American relief administration and financed by the American committee for relief in the Far East, is being watched with great interest by peace conference economists, who believe that a return to bartering will be necessary in many parts of the world because of the depreciation of currency and the difficulties of exchange.

Novorossiysk is the chief port for the government of General Denikine, which has its headquarters at Ekaterinodar. The Denikine government controls the Kuban wheat district, which has a large surplus of grain and no place to market it because of the lack of railway and steamship transportation. Money greatly and the merchants there are without goods for sale.

Colonel C. B. Smith, who is directing the Kickapoo experiment, purchased the goods on the steamer from the United States Army liquidation board and the American Red Cross. The cargo includes garden tools, needles, thread, nails, blankets and an assortment of clothing. An effort will be to regulate

MEXICO OPPOSES INVASION

Will Seek Agreement to Prevent U. S. Troops Crossing Border

UNITY OF SOUTHERN CHINA ENDANGERED

Clashing Ambitions of Two Leading Generals Complicate Tangled Situation

Washington, July 3.—(By A. P.)—Southern China, which heretofore has presented a united front in its resistance of the northern element now in control at Peking, is reported to be in danger of disruption as the result of the clashing ambitions of the two great southern generals, General Mo, of Kwang-Si, and General Hoo, of the adjacent province of Kwang-Tung.

Meanwhile the northern elements at Peking, though disconcerted by the failure of the Shanghai conference to compromise the factional fight which has prevailed for the last two years, is preserving an attitude of neutrality toward the two southern generals and awaiting an opportunity to renew the peace conference in Shanghai.

The financial conditions in China are reported in latest official dispatches to be very bad. Fears Child Will Be Anarchist Trenton, July 3.—Charging that her husband is an anarchist and as such has no respect for organized government, Mrs. Bernard Somer has obtained a writ of habeas corpus directing Somer to produce their partly blind daughter in the Court of Chancery in Newark next Tuesday. If the girl continues to live with her father, Mrs. Somer declares, she will be brought up in a school of anarchy.

HUNGARIAN REDS CRINGE

Soviet Marshal Informs Allies Troops Will Quit Czech Soil

Prague, July 3.—(By A. P.)—Field Marshal Eduard von Boehm-Ermolli, Hungarian commander in chief, has informed General M. C. J. Pelle, formerly Marshal Joffre's chief of staff and now in supreme command of the Czechoslovak forces, that the troops of the Hungarian Soviet Government have been ordered to evacuate Czechoslovak territory.

so much better. "I simply will not have mother cooking in this heat," declared Susan.

Finally father summed up the situation: "I'm going to become of the sweet of your life. You do no more to the family if I stop!" Mother was appearing apple pie for dinner to-night.
