## **R-34 NEAR AZORES** ON RETURN VOYAGE

St. John's Wireless Station Talks With Dirigible, More Than Half Way Across

#### REDUCES RATE OF SPEED

By the Associated Press

John's N. F., July 11 .- The naval wireless station here reported speaking to the R-34 at 5:08 a. m. today. It failed to get her exact position, but indications were that the dirigible was peny the Azores.

New York, July 11.-The R-34 was estimated to be more than half way across the Atlantic at 9 a. m. today. although official advices regarding the dirigible's position were lacking.

At 4 a. m. Greenwich mean time (midnight New York), when the last message was received, the R-34 was

If this progress were maintained, it was calculated the airship at 9 a, m would be approximately 1665 miles east of New York.

Washington, July 11 .- Aided by westerly wind that sometimes reached a relocity of nearly forty miles an hour, the British dirigible R-34 is now well out over the Atlantic on the return trip to East Fortune, Scotland, after a stay of eighty-six hours in America. A message from the air-big sister shook and ship received the received from the life of the little shook and ship received the received from the little shook and ship received the received from the little shook and ship received the received from the little shook and ship received the received from the little shook and ship received the received from the little shook and ship received the received from the little shook and ship received the received from the little shook and ship received the received from the little shook and ship received the rec received late yesterday by the from the little shoe.

60 Miles an Hour Yesterday

The dirigible, according to wireless reports received by the Navy Department throughout the day, averaged more when she can play so well without them than sixty miles an hour for the first in the sand and then run into the big little girl of about eleven years, brings fifteen hours of the return flight and at the control of the contro than sixty miles an hour for the first in the sand and then run into the big fifteen hours of the return flight and at times the big airship's speed reached between seventy-five and eighty miles an hour. The dirigible thus was making better time than at any period of the flight to this side of the Atlantic and if weather conditions remain favorable, naval officers here believe Major G. H.

Scott, commander, and members of the R-34's crew will see British shores sarly Saturday.

which includes the Mineola Field, where the R-34 landed on its arrival in this country, thanked the officers and men, who assisted in mooring the big dirigible. Another was to E. H. Bowie, of the II-lated States with absolute confidence and still needing the help of big sister.
