First Fifty Stewarts Are Still Serving Well

Stewarts Cost \$200 to \$300 Less

IN five years no Stewart has worn out. The first fifty built still give economical, uninterrupted service. We do not yet know the limit of Stewart endurance.

Stewart design eliminated 600 to 700 parts. The saving thus made is passed on to the buyer in the \$200 or \$300 lower purchase cost. Fewer parts mean longer continuous service and a minimum of repair costs.

Special design also takes the road shocks off the tires and vital parts and lengthens life of both truck and tire. Stewarts deliver 92% of the power to the rear tires and give maximum efficiency from fuel.

In 27 countries and 200 lines of business the Stewart has proved its mastery of transportation. Whatever your transportation problems, there are Stewarts to satisfy every requirement.
