Strike Clouds Shadow Nation as Opposition to Premier's Compromise Policy Gains

By the Associated Press
London, Aug. 1.—The tide of industrial unrest seems to threaten temporary disaster to the commerce of the country and may mean the downfall of the Lloyd George government.
The police strike to prevent legislation forbidding the union to affiliate with other labor unions or the police to strike was declared a failure today by Home Secretary Shortt, but union officials contended that 65,000 policemen or prison officials have quit work.
Minister of Pensions Hodges said in Parliament last night: "It looks as if we are approaching a general election."

Carranza Says Aid Will Be Given Immigrants From War-Torn Countries
DISCUSSES OIL SITUATION

Mexico, City, Aug. 1.—Mexico will hold open the door to nationals of all countries, who can show that they possess wholesome ideas of citizenship and will not prove a disturbing element in the nation, President Venustiano Carranza told the correspondent of the Associated Press today in an interview.
The president's statement of the government's attitude toward immigration was in response to an inquiry concerning declarations in the press of Mexico City that large numbers of colonists were leaving their European or Asiatic homes because of disrupted conditions due to the world war.

was less than 5 per cent of absentees from the morning roll call and that conditions were normal throughout London.
At a meeting of the striking policemen this morning Chairman Marston read the following telegram from the Liverpool branch:
"Liverpool out solid; stripped docks at midnight, fire brigade as well."
The announcement was received with cheers.
General Secretary Hayes, of the policemen's union, in a statement issued this morning said:
"The situation generally is highly satisfactory, seeing that the decision of the executive committee came as a bombshell to the mass meeting and that the news has not yet reached the whole of the metropolis."

May Cut Off London's Light
Union officials claim the undivided support of organized labor. The Star says it is reported that the electrical workers have threatened, in certain contingencies, to cut off London's lighting in support of the police, and extreme action is also threatened by the officials of the locomotive engineers' union.
Secretary Hayes, addressing a meeting of the strikers, said that the authorities had sent a telegram to every police station, intimating that, if the strikers would return by noon today, they would be reinstated. Ironical laughter greeted the announcement. Hayes made a strong appeal to the men to remain firm, asserting that their number would be increased tenfold by tomorrow. He said arrangements would be made this afternoon for picketing the police station.

Thraces Question Up Again
By the Associated Press
Paris, Aug. 1.—There is uneasiness in Peace Conference circles over the situation in Asiatic Turkey, where six divisions of troops, under Kemat Pasha, who calls himself dictator of national defense, are threatening an attack upon the allied forces.
The warlike Turkish forces are concentrated chiefly about Erzeroum and in the neighborhood of Trebizond. A sort of Turkish political assembly, representing various districts, is gathered at Erzeroum.

U. S. and Armenia
Expressions by conferees have made it apparent that desire for acceptance by the United States of the mandate over Armenia is becoming keener every day among the delegates of the principal powers, but the American delegation is making no promises whatever, as President Wilson made it clear before leaving Paris that the action of the United States would depend upon the Senate, whose action might be taken as reflecting public opinion.
It is known that the British and French delegates feel that America's decision to undertake a mandate in Asia Minor would immediately quiet the Turks, who are bitterly opposing the European powers. In some circles it has been rumored that the Persians were assisting the Turks in stirring up disorders in Asia Minor, but there is no proof of this in Paris, and many of the conference members feel that the Persians are having sufficient troubles of their own.

General Sir Nevil Macready, chief commissioner of police, is quoted as saying that less than 250 men had struck last night.
The Scotland Yard authorities informed the Associated Press that, up to 8 o'clock this morning only 536 of the entire metropolitan force had failed to report for duty and only one member of the city police.
An official at one of the principal West End police stations said there

Thraces Causes Problems
Although the question of Thrace was again before the supreme council today there appeared little prospect of an immediate settlement regarding the boundaries of Bulgaria in this region, because of the uncertainty that exists as to the disposition of the mandates for the government of territories in the Near East. The reports of the commission entrusted with the delineation of the Bulgarian boundaries are conditioned upon what disposition is to be made of Turkey, and consequently the general disposition is to await decisions on this point, which are regarded by observers of the attitude of the American public toward the acceptance by the United States of a mandate in Asia Minor.

BRITAIN AWARDS 2 BATONS
Generals Allenby and Plumer Are Made Field Marshals

London, Aug. 1.—(By A. P.)—General E. H. H. Allenby, formerly commander of the British forces in Palestine and at present special high commissioner for Egypt and Sudan, and Lieutenant General Sir Herbert Plumer, commander of the Second British army, have been raised to the rank of field marshal.
Both Field Marshal Allenby and Field Marshal Sir Herbert Plumer won distinction in military service before the great war, in which they gained great fame.
Field Marshal Allenby's most recent achievement was the restoration of order in Palestine during the Arab and Jewish revolts in 1917 and 1918, during his successful campaign in Palestine. He is fifty-eight years old.
Field Marshal Plumer was successively commander of the Third British Army Corps in France, the Second British Army in the South Ypres offensive in 1917, which carried out the Messines attack, and commander of the British forces in Italy. Later he returned to the British front in France.

SOVIET HEAD KEEPS REINS

By the Associated Press
Vienna, Aug. 1.—Unless the Allies assume a definite policy for forcibly expelling Bela Kun, the leader, it is believed by Americans here, who are informed as to the situation, that he will continue as dictator indefinitely.
The allied representatives here have done all in their power in an attempt to reason with Bela Kun and to move the government into the hands of the Socialists rather than those of a few minority Communists. There have also been various conferences between General Boehm, the Hungarian minister, M. Agoston, the Hungarian people's commissary, and other reliable Socialists in an attempt to evolve a reasonable plan, but so far Bela Kun continues to parley without accepting.

DENIKINE CAPTURES POLTAVA FROM REDS
Bolsheviki Advance 14 Miles on Archangel Front, Aided by Allied Mutiny

By the Associated Press
London, Aug. 1.—News was received here today that the anti-Bolshevik army of General Denikine had scored another important success, capturing the city of Poltava. With the city, large quantities of supplies and war materials were taken.
[A London dispatch Thursday night announced an important victory for Denikine in the capture of the town of Kanishin, on the Volga, with 5000 prisoners, nine guns and great quantities of material. The Poltava news reported captured probably is the one in the province of that name about eighty miles southwest of Karkov, indicating a notable northward sweep of Denikine's forces.]
Meanwhile the Bolsheviki have advanced fourteen miles in the Onega sector of the Archangel front, according to an official soviet statement received here today by wireless from Moscow. The statement declares the Bolsheviki have been aided in their advance by the mutiny among the allied troops.

of policy and then retire. One condition of his retirement will be that Leon Trotsky, the Bolsheviki war minister, be left in command of the Red army.
At recent meetings of the soviet commissaries, the newspaper's informants say, the question of giving power into the hands of other socialist parties was earnestly discussed. Lenin declared the best way to check reaction as represented by Admiral Kolehak, head of the all-Russian government at Omsk, would be to drop power for a time in order to prove that no other party was able to reorganize Russia.
Paris, Aug. 1.—(By A. P.)—Efforts have been made to get supplies for the Russian Bolsheviki into Bolsheviki territory through Poland, according to a dispatch from Stockholm to the Echo de Paris. Polish extremists are assisting in this effort, it is declared.

Kicking Over Tradition
Beginning Sunday next, August 3rd, the traditional opening of cigar stores on Sunday will cease in all UNITED CIGAR STORES throughout the United States.
Sunday should be a day of rest.
Tradition has compelled cigar stores to remain open seven days a week.
Tradition has been responsible for a big majority of the world's evils.
We are firmly convinced that the world has outgrown any tradition that compels a week of seven days labor.
We ask your Saturday patronage to take care of your Sunday needs.
N.B.—An exception to the above rule is made in a limited number of exclusive summer resort stores.
