

AUSTRIANS DELIVER PEACE PROPOSALS

Bismarck's Germany Should Be Broken Up, French Deputies Are Told

BARTHOU PRAISES WILSON

By the Associated Press
Paris, Aug. 6.—The Austrian counter proposals to the peace terms were handed to the allied mission at St. Germain-en-Lays at 12:15 o'clock today. The counter proposals were brought at once to Paris and delivered to the Supreme Council.

Louis Barthou, former premier and foreign minister, read his report on the peace treaty to the treaty commission of the Chamber of Deputies yesterday. The report was laid on the table of the House before he rose, so that the printing of it could begin at once.

Paris, Aug. 6.—Louis Barthou, former premier and foreign minister, read his report on the peace treaty to the treaty commission of the Chamber of Deputies yesterday. The report was laid on the table of the House before he rose, so that the printing of it could begin at once.

The chamber will decide on Thursday whether the debates on the treaty will open August 25, as proposed, which would insure its ratification about September 3. However, according to latest news, the committee of presidents of groups and committees of the chamber are understood to have decided to postpone the debates until September 2.

Would Break Up Germany
The report of M. Barthou, of fifty pages, concludes in favor of ratification. At the same time it formulates certain reserves. M. Barthou commends the action of the negotiators in departing from oldtime methods of procedure, but regrets that they did not from the outset decide upon complete destruction of Bismarck's work by breaking up political Germany into component parts.

On the question of responsibilities and punishments the former premier grouped in striking fashion quantities of documents hitherto scattered, from which he develops new considerations establishing the crushing responsibility of the former kaiser and Germany, and declares that international morality will not be satisfied unless the chief guilty persons are punished.

Eulogizes President Wilson
After studying the economic repatriation from military clauses, M. Barthou concludes by recalling the sacrifices of France, "which has not been killed by war and cannot be ruined by peace," and proclaims that united France will face the problems of the future with the four great peoples who united all their efforts to defend justice.

He declares it impossible that France, glorious but impoverished, will not obtain from all the allied and associated peoples the support which she herself so vigorously gave on the day the destinies of the world were at stake. In discussing the league of nations M. Barthou eulogized President Wilson as the "indomitable defender of noble principles throughout the war."

While not condemning the entry of Germany into the league, he declares it impossible that a "country which violated all treaties can be admitted until she has fulfilled all obligations."

TRIEST CRUSHES RED RIOT; 700 ARRESTED

Populace Help Police to Rout Bolsheviks, Who Cut Off Electric Power

Triest, Aug. 6.—(By A. P.)—A group of Bolsheviks appeared here today on the streets and attempted to start rioting. The disturbers, however, were dispersed by the police, with the assistance of the population.

As a result of the demonstration 700 arrests were made. The Bolshevik movement is declared to have been directed by a Slavonian Spartacist, Doctor Levy, who is credited also with having intended to incite riots in Venice and Milan. He was arrested while attempting to enter Italy across the Sissia frontier.

The Bolshevik demonstrators during the disorders succeeded in cutting off the electric power, and as a result the tramcars are not running. There were several hundred demonstrators, but they were attacked by thousands of citizens carrying national flags and crying, "Down with the enemies of the mother country."

"Down with those who sold out to Austria and the Croats." In all Italian quarters confidence is felt that the energetic efforts of the new governor of Triest, August Cuffelli (who was a member of the Italian mission to the United States in 1917), will rid the city of the disorderly elements.

HUNGARY MUST HEED ULTIMATUM TONIGHT

Rumanians Present Stricter Demands Than Those in Armistice Terms

SEIZE ALL BUDAPEST AUTOS

By the Associated Press
Paris, Aug. 6.—The Rumanians have served an ultimatum on the Hungarian government, according to messages reaching the Peace Conference. The ultimatum, it is stated, makes demands far in excess of the armistice terms and gives the Hungarians until 8 p. m. today to comply with them.

A copy of the ultimatum was forwarded to Paris by Lieutenant Colonel Romanelli, of the Allied military mission, and Colonel W. B. Causey, U. S. A., of the relief administration now in Budapest.

A wireless dispatch from Budapest reports that the city was bombarded before the Rumanians occupied it. Twenty-one shells were fired, one house being hit.

Budapest, Aug. 6.—(By A. P.)—Rumanian military authorities have requisitioned all automobiles here, including those of the Hungarian ministers, General Holben, of the Rumanian army, general appointed commander of the city and his ordered that the Red Guard police be disbanded. Tramcars are stopped at 8 o'clock in the evening. A few workmen unable to return home at night have been shot while attempting to pass a Rumanian patrol.

In their ultimatum the Rumanians demand the reduction of the Hungarian army to 15,000 men and the surrender of 50 per cent of the harvest animals and farm machinery and 50 per cent of the railway supplies.

They demand also a large proportion of the Danube shipping, and equipment and supplies for an army of 300,000 men, together with rations for the Rumanian forces pending a peace settlement.

BRITAIN PAYS MUNITION BILL

Settles for 35 Millions in Supplies Furnished by U. S.

Washington, Aug. 6.—By the payment of \$35,176,123 Great Britain has settled her obligation to the American government for munitions negotiated for during the war, the War Department announced yesterday. Of the total sum paid, \$13,000,000 was for Liberty motors; \$13,274,000 for airplane spruce; \$2,887,000 for wood distillates; \$4,000,000 for powder and \$651,000 as the British share in the cotton linters pool.

The announcement was in the form of a letter addressed to Secretary Baker from Chester W. Cuthell, Mr. Baker's special representative in negotiations with the British ministry of munition. Mr. Cuthell said the transaction probably was without precedent in that a government has recognized obligations, based almost entirely on verbal statements, to contribute to losses sustained by an ally in the production of war materials beyond its own needs. It is likewise without precedent in our country as to the amount of money involved, and because of the fact that no resource was had to any international tribunal.

HONDURAN REBELS ROUTED

Forced to Flee Across Salvador Frontier, Government States

San Salvador, Republic of Salvador, Aug. 6.—(By A. P.)—Honduran rebels under Colonel Cardona have been defeated and forced to retreat across the frontier into Salvador, according to an official statement issued by the Honduran Government.

Rebel detachments in the state of El Paraiso have crossed into Nicaragua, after capturing considerable booty, and are awaiting re-enforcements there. The revolt in the region of Maronia is insignificant, the statement says.

General Lopez Gutierrez, rebel leader, is retreating to Macagua, about twenty-five miles north of the Salvadorean frontier, according to the announcement.

FOOD PRICES FALL AS FRENCH MARCH

Sunday's Demonstration Serves as Sufficient Hint to Dealers in Paris Suburb

Paris, Aug. 6.—(By A. P.)—The lowering of prices obtained by the Montmartre Consumers' League Sunday, when members of the league paraded through the district, and dealers voluntarily cut their prices, has been maintained and generalized, although the league has not met since the Sunday demonstration.

Little groups of the league have continued circulating through the district, and daily have secured a lessening in the quotations of dealers without being obliged to call on the police. Tomatoes yesterday sold up to fifty centimes (nearly ten cents) a pound, Sunday's prices of sixty, seventy and eighty centimes a pound having disappeared.

Yesterday's potatoes retailed at thirty centimes (about six cents) instead of forty centimes, sole brought five francs a pound and white one franc thirty centimes to one franc fifty centimes. Butter prices also declined sharply.

Other wards in the city are now following the example of Montmartre in compelling dealers to reduce prices.

"Just enough Turkish"

Hotel statistics such as these are, of course, rather conclusive, since they show the smoking preference of so many men, whether traveling or at home.

These men can afford any cigarette they like. Hence the fact that at so many of these prominent places Fatima now outsells all expensive straight Turkish cigarettes is very significant.

It proves unmistakably that these smokers find something in Fatima's famous "just-enough-Turkish" blend* that other cigarettes (even the more expensive ones) do not give them. They like Fatima; and more than that, they find that Fatima treats them right—gives them the option of smoking at will, without worry about "when" or "how many."

* Fatima contains more Turkish than any other Turkish blend.
