SUBWAY STRIKE BIG FACTOR IN NEW YORK STOCK TRADING

Scant Attendance on the Exchange—Little Opposition to Drives Against All the Active Issues

High Points in Today's Financial News Trading on the New York exchange was largely interfered with by reason of the subway strike in that city.

New York, Aug. 18.—The labor situation which was brought into prominence by the closing up of the Interborough subway causing an almost total interruption to passenger traffic in this city was the chief factor in determining the course of the market today.

United States Steel was bought on a large scale, one house taking 25,000 shares, but while this buying was in progress the stock declined over 3 points to 10 1/2.

The extreme decline of the day was in American Tobacco, which dropped over 12 points.

The petroleum stocks were also in demand at frequent intervals with the selling of these stocks on a large scale, Mexican Petroleum dropping 7 1/2 points to 10 1/2.

The bond market was a narrow one, most of the trading being in the government issues.

Absence of Buying Power Emboldens Bears to More Positive Efforts

Stock sales today on the New York exchange, as compiled by the Evening Sun, totaled 1,191,000 shares.

New York, Aug. 18.—The New York Evening Sun's biweekly review this afternoon is as follows:

It was a blue Monday in Wall street today. There was so much nervousness in the atmosphere, figuratively and actually, that everything which might be regarded as constructive was quite lost sight of.

There was softness at the opening and trading was light in the first hour. Absence of buying power tended to embolden the bears to more positive efforts.

The market was almost wholly a professional one, and to a man, bearish. The local traction strike brought the labor situation pretty close to home.

The decline was stayed to some extent in the last hour although relief came to but in buying orders was still in evidence.

There was also a disposition to wait and see what would be accomplished at the hearing which Public Service Commissioner Nixon had arranged for with the striking interborough employees this afternoon.

The decline was stayed to some extent in the last hour although relief came to but in buying orders was still in evidence.

There was also a disposition to wait and see what would be accomplished at the hearing which Public Service Commissioner Nixon had arranged for with the striking interborough employees this afternoon.

HEAVY SELLING ORDERS BRING DECLINES ON LOCAL 'CHANGE

General Asphalt Off 6 Points on Limited Sales—Electric Storage a Weak Spot—Rails Are Lower

After a dull opening on the floor of the Philadelphia Stock Exchange this morning, selling orders appeared in considerable volume and prices reacted in sympathy with the weakness displayed on the New York exchange.

General Asphalt was the principal loser and on a turnover of but a hundred shares dropped 6 1/2 points, at 75.

Electric Storage Battery was another weak spot selling down in the first hour to 3 1/2, a loss of 5 points.

Heavyness in the general list was reflected in the railroad group, Lehigh Valley and Pennsylvania were fractionally lower and Reading declined more than 2 1/2 points on a sale of 40 shares.
