

REINSCH RESIGNS HIS POST AT PEKIN

American Minister to China Asks Wilson to Relieve Him of Duties

REASONS NOT ANNOUNCED

By the Associated Press. Washington, Aug. 27.—Dr. Paul S. Reinsch, American minister to China, has resigned. His resignation is now in the hands of President Wilson, but it was denied that he had presented it "suddenly," as reported in Japanese dispatches to Honolulu.

DR. PAUL S. REINSCH United States Minister to China, who has resigned his office.

Honolulu, Aug. 27.—(By A. P.)—Dr. Paul Reinsch, American minister to China, has resigned that post, according to a Tokyo telegram received by the Nippon Jiji, a Japanese newspaper here. The telegram said Doctor Reinsch presented his resignation "suddenly."

Called from the chair of political economy in the University of Wisconsin a few months after President Wilson's first inauguration in 1913, to represent the United States at Peking, Doctor Reinsch's appointment as minister was hailed as appropriate, alike for his wide knowledge of Oriental affairs and for his familiarity with diplomatic usage he had obtained as delegate to several international conventions. These included the third Pan-American conference at Rio de Janeiro in 1906, and the fourth conference at Buenos Aires in 1910. In 1911-1912 he was Roosevelt exchange professor at the university of Berlin and Leipzig.

His selection for the last-named post was said at the time to be particularly agreeable to Kaiser William. As a member of the committee on the codification of international law of the American Association of International Law, Doctor Reinsch won wide reputation as a lecturer and writer on international politics. His books, which have been translated into both Japanese and Chinese, include volumes on "The Common Law in the Early American Colonies," "World Politics at the End of the Nineteenth Century as Influenced by the Oriental Situation," "Colonial Government," "Colonial Administration," and "American Legislatures and Legislative Methods."

At the time of his appointment to the Chinese mission Doctor Reinsch was regarded by the President as a man who was fully capable of handling the delicate diplomatic situation in the Far East. Mr. Wilson and Doctor Reinsch had known each other intimately for many years.

In July of the present year Doctor Reinsch was summoned to Washington from Peking. It is understood he is to report personally on the Shantung and Siberian questions. Doctor Reinsch is a native of Milwaukee, Wis., born July 16, 1869. Graduated at the University of Wisconsin, he studied later at Berlin, Rome and Paris.

CUTS WIRES OF FIREHOUSE

Electric Company May Lose Brielle Contract as a Result

Brielle, N. J., Aug. 27.—Because they disconnected the light wires supplying the Brielle fire house for non-payment of a bill by the borough, the Lakewood and Coast Electric Company has been required to re-establish the service and stands in a fair way to lose the municipal street lighting contract. Since Brielle became a borough there has not yet been effected a settlement of assets and liabilities between the new municipality and Wall township, of which it formerly was a part. Consequently the new borough has not had funds with which to meet its current bills. A settlement between the two municipalities is expected within a few weeks, but the light company superintendent refused to await this settlement and cut off the current.

PRIEST AIDED QUIEN; JAILED BY GERMANS

Friends of Allies Put Faith in Man Now on Trial for Betraying Cavell

MANY WERE CONDEMNED

By the Associated Press. Paris, Aug. 27.—Almost every aid sympathizer in Brussels who came in contact with Georges Gaston Quien, alleged traitor of Edith Cavell, was soon arrested and condemned by the Germans, according to the president of the court which is trying him. Among those mentioned by the president was Father Bonsteels, who, believing Quien was honestly aiding allied soldiers to escape, gave him a railroad pass which showed the latest German modifications. Father Bonsteels was soon sentenced to twelve years' imprisonment.

It was declared that Quien had asked persons to escape and that she directed them to the frontier and sent another lady with them as a guide. The four were jailed and condemned by the Germans.

Quien admitted having seen Miss Cavell on July 26, after he had visited the home of Madame Bolard, and that John Maes assisted him in the street. There was read into the record a statement that Maes was in the pay of the Germans.

Madame Bolard gave Quien a package to be left at the home of Madame Maehel. He admitted he knew it contained maps for the use of persons being sent to escape from the country. It was pointed out by the prosecution that one of these maps had caused Madame Bolard to be condemned by a German court-martial.

FRENCH RESENTED WARNING TO TURKEY

U. S. Admiral's Protest Against Massacres Stirred Adverse Comment

MOLLIFIED BY EXPLANATION

By the Associated Press. Paris, Aug. 27.—An informal warning to Turkey that massacres of Armenians must cease, given recently by Rear Admiral Mark L. Bristol, commander of the United States naval forces in Turkey, caused something of a flurry in French official quarters, and in the Supreme Council of the Peace Conference, it developed today. In the council there was reported to have occurred sharp criticism of American interference in Turkey through missions and otherwise, despite the fact that the United States had shown no disposition to accept the mandate for the administration of any Turkish territory. The impression prevailed that in this case the United States had acted alone in a formal communication to the Turkish Government.

It was explained by the American delegation, however, that the warning was delivered informally by Admiral Bristol several days ago; that no formal note was sent but merely an informal statement, the United States alone not attempting to speak for the peace conference. On receiving the warning, Turkey, it appears immediately complained to Great Britain and France, saying she was threatened. The expansion of the American delegation to the peace conference, however, apparently removed the objections to the American action based upon the idea that the United States was speaking for the conference.

Ye Miser Buries His Gold. Many early Philadelphians hid their money in "safe places," only to find it gone when they went to recover it.
