Labor Question Dominating, for the Time, Everything in the Financial District—Gossip of the Street

THE attitude of the railroad shopmen to President Wilson's appeal was said by some to be accountable for the softness of the stock market at the opening yesterday morning. The labor question seems to dominate for the time everything in the financial district, and as one broker put it "there can be no stability till we see which way the cut will jump."

This sentiment was expressed by a banker who had made some personal inquiries with the result that he was forced to conclude that the labor leaders alone are responsible for the present unrest symptoms among the men. He claimed that workmen are not inclined to keep up the payments of their dues when there is abundant work and good pay as at present, and the leaders, who would otherwise be unknown to the runk and file, must always find one means of keeping up an agitation so as to keep the coffers of the unions

tilled and hold on to their jobs.

There is almost universal satisfaction over the manner in which Presi-

referred to President Wilson's mind as a one-track mind, and there is some justice in the remark. "He is on the one right track now," he said, "not only in reference to the railednd shopmen but to all forms of labor, and it will shortly be seen if there will be a collision or a reversing of the power to Personally, he said he believed the labor lenders would see the danger signals ahead and reverse." They will surely see, he added, that a strike at the present time would paralyze business of every kind and entail untold suffering through the impossibility of delivering food.

Such action would in all probability burt the men and their families more than any other numbers of the community, and they certainly are not

Wilson's stand on the wage question for labor, as it was feared in s acceded to, cut into income in such a way as to jeopardize fixed charges.

issues at once. The market has been practically bare of new municipal issues for a long time, they say, but inquiries they are receiving from many municipalities that refrained from issuing bands for much-needed improve-

This was the smallest of any current month during the present year. At

history. At present there are no figures available to show what extent the shipping strikes were responsible for the decrease in exports.

SOFTNESS OF STOCK MARKET BLAMED ON RAILROAD MEN

There seems to be a feeling in financial circles that laboring men in all the industries do not want a strike at the present time, and if questioned individually would say they are satisfied with both wages and hours of work.

dent Wilson took hold of the situation, and among many the belief is held that when he has made up his mind that he is right, he will be hard to move in any other direction. These who hold this opinion are certain he bus made up his mind he is on the right truck.

A well-known broker who holds this opinion said that some one had once

Plumb's Figures Are Misleading

During the recent controversy over the wholesale charges of fraudulent capitalization of railroads by Gleng E. Phonb, counsel for the railroad brotherhoods, there were a good many opinions expressed both pro and con-Perhaps one of the best replies to Mr. Piumb's charges on this particular point is the valuation allowed by the division of valuation of the Interstate ommerce Commission to the Chicago and Rock Island system of \$410,000, 000, which is 804,000,000 in excess of its total capitalization, including its eapital stock. In addition there is an amount of \$105,000,000 in disputwhich the management thinks at least a part should be allowed by the

If the other systems mentioned by Mr. Plumb as being overcapitalized, show up as well, and according to some investment houses they should make a better showing than the Chicago and Rock Island, Mr. Plumb will have to

Marked Improvement in Bond Sales Expected

Bond houses say that there is a slight improvement in business during the last few days. This is especially the case with houses whose specialty is There is a good dead of satisfaction in bond circles over President places that the continued inroads of the wage demands would eventually, if

Firms who deal largely in municipal issues say they expect a flood of such nents during the war show they can wait no longer.

Decreased Exports Result of Shipping Conditions

There is a difference of opinion in the financial district as to whether the much-talked of decrease in exports for July resulting in a serious decline in foreign exchange, was a natural result or due in a large measure to the shipping strikes here and abroad during that mouth.

The actual figures of the United States exports decreased from \$918,212,-000 in June to \$570,000,000 in July a falling off of over \$348,000,000 or

same time the imports were the largest for any month in the country's
