And So They Were Married

By HAZEL DEYO BATCHELOR

START THIS STORY TODAY THINGS went on a little better for Jane and her husband after this. To avoid unpleasantness, Jane did make a little flat tidy. But it was this fact and not because there was any love in

her heart for her husband that made her do this. Perhaps if she had married a man who had loved her, and who had been tactful, showing her diplomatically that her ways were careless even sloppy, Jane might have learned to be different.

But she had grown to almost hate her husband, his crude, almost rough, jokes, his lack of consideration from an esthetic standpoint, his scorn of all things that made life worth while to Jane, romance and things that are hoped for, but never realized. It was strange that a man of his caliber should care about how the place looked, but buried deep in the heart of every man, whether he knows it or not, there is a love of order about him, a consciousness that all is

well, a detestation of sloppy women and of delicatessen meals, Perhaps Jane was very much to blame for a great many of their quarrels, but his treatment of her deadened her reason, made

Her story lay in the drawer of the ugly little sideboard for some days while e swept, made beds and cooked. But Jane had wings and it was impossible to keep them folded forever. One mornshe awoke with a restlessness in heart, and after her husband had left she went to work again on the grim little tale that she had conceived. She finished it that afternoon and then fearful that he would come home and il treat her, as he had before many times. she flew about the house straightening tMings up, slipped into outdoor things and went out to buy something for dinner. When she returned, the precious story was mailed to one of the cheaper magazines, and her husband was sitting in the oak rocker by the front window reading the evening

He looked up as she came in with his sneering grin spread over his face. She looked at him levelly as he sat there in his shirt sleeves smoking a cigarette, and wondered how, even in her romanceloving, little girl mind, she had ever loved him, how she had ever come to marry him. At that moment she hated him as she never had before.
"Been gadding, have you?"

vouchsafed in a scoffing voice.
"Just out getting things for dinner." 'Suppose you couldn't have done that

this morning, instead of waiting till after 5 o'clock at night to do it." "You're home earlier than usual," she had returned deprecatingly, escaping to the kitchen, but he flung out to the kitchen after her and stood in the door taunting her as she set about pre paring the meal.

'Please go out and leave me alone,' she said, finally raising a trembling face to his. Its expression only infuriated him the more.

"That's right, snivel about it. I never saw such a cry baby," he sneered. "If I'd known what a dish rag you were going to turn out, believe me, I'd have picked a woman with more red blood in her than you have.'

It was because Jane would never to quarrel with him that he flung this taunt in her face, and inasmuch as he was always ready to quarrei, to pick up the slightest thing and start an argument to which she never replied, resented her attitude the more

With that remark he strode across to the stove and ran his finger across holding it up contemptuously smeared

with black grease.
"That's the kind of a kitchen you keep," he taunted, "and look at that sink. I'd be ashamed to leave it that

way. It's sickening."

Jane would have turned and walked out of the house ...

not been conscious of something to be independent and show one's spirit when one is young and strong and alone, but what could she do with a baby? Who would take care of her? She had to bear it no matter what he did or said.

brooding there came a letter one morning. And when she tore it open a check fell out on her lap. Her story, "The Crucible," had been accepted, and she had been paid forty-five dollars for it.

Forty-five dollars isn't much for a story, but it means more than

story, but it meant more than the finney to Jane. It meant a certain freedom, a lifting of her bruised wings that she had not felt for days. It meant that she could write more stories, it was the ambition of her life to write, and always had been. She cashed the check at the corner grocery and told her husband nothing about it. That

money was a fund to be used when she needed it desperately. Now as Jane thought back over those days that were buried in the past, and realized that they were past and done with, and that the future stretched gloriously ahead, she had that uncomortable feeling that perhaps she had seen more to blame then than she had thought at the time. It was true, she was careless, even sloppy. She must guard herself closely lest this untidiness creep out and disgust Bob. She doubted if even Bob could have loved her in her dirty kimono and sloppy bed-room slippers, and she shuddered that she had ever allowed herself to be seen as she had been then. What if Mrs. Raymond had ever seen her in those days? And at the thought of Ruth and Helen, their scrupulous daintiness that was almost a creed with them, Jane's cheeks burned and she resolved to keep a tight rein on herself.

(Tomorrow, Ruth goes to see Joy.)
