

TROOPS CONTROL KNOXVILLE RIOTS

City Quiets Down After Machine Guns Are Planted in Streets

TWO KILLED, MANY HURT

By the Associated Press
Knoxville, Tenn., Sept. 1.—Quiet prevailed throughout the city and suburbs this morning, after the rioting of Saturday night and Sunday. The city was tentatively under martial law last night, with military patrols in all the business sections, and in the territory where negro population is greatest. Four machine guns have been planted in streets where disorder was feared.

Pedestrians and automobiles were ordered off the streets everywhere in the city at 10 o'clock last night. Every pedestrian or automobile seen was held up by a soldier or policeman and was made to give an accounting before being permitted to proceed. No disorder was reported last night.

"Move On" Edict Enforced

Although today is a holiday, expected crowds did not appear on the streets this morning. Here and there groups of men appeared, but they were not permitted to gather in great numbers, the "move on" order being enforced by police and militia patrols. Negroes were searched for firearms and other weapons. Those who were out for any purpose were held up, questioned and examined for arms, unless they had permits certifying to their errands or personalities.

Bishop S. J. Hargrave, a leading ministerial worker among negroes of the city, appealed to the men and women of his race, urging them to refrain from violence. He assured them that the white people are their friends. He asserted that the trouble of Saturday night and Sunday was due to the "lowest types of blacks and whites, and not to the better element of either race who have to suffer the consequences."

At least two men were killed and many were wounded during the last two days.

Political meetings scheduled for the week, preliminary to the municipal primaries to be held next Saturday, have been abandoned. The opinion was expressed today that the result of the election might show the influence of the disturbances in a reduction of the negro vote.

Jail Damage Is \$5000

Damage done to the county jail buildings Saturday night, when a mob stormed it in fruitless search for Maurice Mayes, the negro charged with assault and murder of a white woman, leading to the outbreak, was estimated today at \$5000.

It is estimated that at least one of the strongest jails in the state, and when the mob failed to batter in the doors dynamite was used.

Judge Nelson, of the Criminal Court, ordered an increase today in the number of deputy sheriffs on duty, and Colonel James A. Gleason, who saw active service in France, was placed in charge of this special force.

Colonel Gleason told his deputies to shoot to kill, if necessary, as shooting in the air would merely incite further trouble. The Criminal Court Grand Jury will convene Wednesday to consider the case against Mayes.

A Singular Fact About the Mob Was That No Effort Whatever Was Made to Conceal Identity. No Masks Were Worn and Street Lights in Front of the Jail Were Not Disturbed. A Portion of the Jail Was Light While the Men Were Searching It.

An exodus of negroes from the city, which began Sunday afternoon, continued today. Many of them carried their worldly possessions in suitcases, trunks or other containers.

Constantinople, Sept. 1.—(By A. P.)—Ahmed Mirza, the shah of Persia, is on his way to Italy aboard a British vessel. From Italy he will proceed to Switzerland.

It is considered unlikely that he will visit the United States during his tour. During his stay in Turkey the shah visited his father, the former shah, who abdicated in 1909, at the latter's mansion on the island of Prinkipo. While there he received Gabriel B. Raynal, the American commissioner, to whom the shah expressed his appreciation of American relief work in Persia.

Von Sanders commanded a Turkish force which fought against the Russians and likewise was in command in Palestine during the final campaign there, narrowly escaping capture.

Published and Distributed Under PERMIT No. 243, October 6, 1917, on file at the Postoffice of Philadelphia, Pa.
By order of the Postmaster:
A. S. HURLESON,
Postmaster General.

Parigi, 31 agosto.—Il Trattato di pace con l'Austria, che probabilmente verrà consegnato alla delegazione austriaca per martedì, non contiene alcuna disposizione che miri alla sistemazione della questione di Fiume. Secondo quanto è stato possibile apprendere fino a questo momento.

L'On. Tittoni, ministro d'Italia per gli Affari Esteri e capo della Delegazione alla Conferenza, ha conferito con Lloyd George, primo ministro d'Inghilterra, in una delle piccole città della Francia oggi. Per parecchie settimane l'on. Tittoni ha discusso individualmente il problema di Fiume con i membri del Consiglio Supremo, ma nessun positivo accordo è stato raggiunto dal Consiglio stesso.

La Delegazione Americana non ha approvato alcuna proposta di sistemazione, e generalmente si crede che il Consiglio di pace, senza alcuna divisione d'opinione riguardo la questione di Fiume e l'unica cosa che potrebbe probabilmente essere da tutti accettata sarebbe la internazionalizzazione della città.

New York, 1 settembre.—Più di 60,000 quartani di latte condensato sono stati spediti mensilmente da questo porto per essere distribuiti gratuitamente in Italia, e prime di Natale si spera che il spedizione possa raggiungere i 180,000 quartani al mese.

FRIEDRICH ACCEDES TO ALLIED DEMAND

Resignation of Hungarian Cabinet Offered—Heinrich May Head Government

FIUME NOT SETTLED YET

By the Associated Press
Budapest, Sept. 1.—The government of Premier Friedrich has offered to resign. It is reported that the premier has offered the Entente the resignation of the entire cabinet, his ministry to be succeeded by one under Franz Heinrich, the present minister of commerce.

This new cabinet, it is reported, would include Jules Feidl, the former premier; Paul Garami, minister of justice in the Peidl cabinet; and Karl Payer, minister of home affairs in the same cabinet; Martin Lovassy, foreign minister in the first Friedrich cabinet, and Stephen Szabo, minister of small farmers in the present ministry.

Certain conditions are attached to the offer, according to authoritative sources. The Entente, it is declared, must recognize and negotiate with the new government as representing the constituted authority of Hungary and permit it to organize a new army and police force.

It is stipulated likewise that the Rumanians shall gradually leave the country, and that while they remain they shall discontinue acts such as the disarming of Hungarian officers and the requisitioning of supplies.

Reports reached London Sunday from Vienna and Berlin that the Allies had presented an ultimatum to Premier Friedrich, demanding his resignation.

The Hague, Sept. 1.—Reports that the Dutch Government has broken off negotiations with Belgium regarding the revision of the treaty of 1839 are denied. The Dutch delegates will return to Paris in a few days. It is asserted that they only came to The Hague to confer with the government.

Paris, Sept. 1.—(By A. P.)—The Austrian treaty as it stands at the present time and as it will probably be handed to the Austrians, in no way affects the Adriatic question, so far as it is known.

The Italian foreign minister, Signor Tittoni, is conferring with the British prime minister, Mr. Lloyd George, at one of the small towns in France today, and has for weeks been informally discussing the Fiume problem with individual members of the supreme council. But no positive agreement has been reached by the council.

The American delegation has not approved any of the proposed settlements, although it is generally conceded that the council is not hopelessly divided.

U. S. CONCERN BUYS LARGE MUNITIONS PLANT IN BUDAPEST

American Syndicate Also is Negotiating for the Famous Skoda Arms Works

Geneva, Sept. 1.—(By A. P.)—An American company has just purchased the important small arms munition factory of Manfred Weiss at Budapest, the contract being signed at Bern by Herr Kanitz, director of the factory, with an American representative, according to reliable information. The factory is the largest of its kind in Central Europe.

Negotiations for the purchase of the Skoda arms and ammunition works by an American syndicate has not as yet been completed, owing to a difference on the question of the price to be paid. Baron Skoda, director general of the works, who is at St. Mauritz, hopes to arrange the affair on his return to Bern shortly.

The Standard Oil Company of New Jersey is understood to be negotiating with Rumanian companies for the purchase of petroleum territory in the country, who is at St. Mauritz, hopes to arrange the affair on his return to Bern shortly.

An all-Russian constituent assembly to be called, it is declared, will decide upon the final form of government for the Ukraine. The message attributes the most active negotiations to "Russo-American" named Morrison, representing the Ukrainian directorate.

Another Bolshevik message says Omsk is being evacuated and Admiral Kolchak's headquarters are being transferred to Nikolayevsk.

It is stated that in the direction of Tairintin, the Bolshevik forest are advancing along the Volga and Ilavva rivers.

An official statement issued by the Soviet government at Moscow and received here by wireless declares that Khar'kov, 115 miles northeast of Yekaterinograd, is preparing to surrender to the Bolsheviks without fighting.

The statement claims that the Bolsheviks have occupied Suga, ninety miles northwest of Khar'kov, and Balykley, in the region of Orenburg. The Bolshevik captured a sharpshooter battalion of 800 men and a Cosack regiment of 500, the statement asserts.

Lettish and Lithuanian troops have driven the Bolsheviks from Novolok-ansky, fifteen miles southeast of Dvinsk.

Major General Ironside, commander-in-chief of the British forces on the Archange front, in an official report on the recent capture of Entisa, says that Russian troops, supported by two companies of the Royal Fusiliers and many Australians, gained all objectives. The Bolsheviks counter-attacked with several armored trains and regained the Archange front.

Fusiliers recaptured the village, which now is in Allied hands. Aircraft operated in the attack.

PALATINATE REBELS CRUSHED BY FRENCH

Occupation Troops Quell Fighting to Create Independent German Republic

Coblenz, Aug. 30.—(By A. P.)—French troops are in complete control of the situation at Ludwigshafen, where an attempt to establish an independent republic in the Palatinates appears to have come to a head early yesterday.

According to German newspapers, a number of adherents of Doctor Haas, of Landau, attacked the postoffice at Ludwigshafen and after a four-hour fight succeeded in overpowering the resistance of postoffice officials. Two persons are reported killed.

The movement for a Palatinates republic has been planned for some time, the scheme not being related to that of Dr. H. A. Dorn, of Bonn, who headed the agitation for the creation of the Rhenish republic last June. The followers of Doctor Haas are seeking to make the Palatinates independent from Prussia. They are also accused of desiring to sever the Palatinates entirely from Germany.

A Berlin dispatch received last night stated that Frenchmen in the garb of civilians had promoted an insurrection at Ludwigshafen, the dispatch quoting a telegram to the Lokal Anzeiger. The attack on the postoffice was said to have been made for the purpose of telegraphing about the news of the establishment of the republic.

The guard of honor carried a large service flag containing eight gold stars. Corporal Calvin F. Hartzell was killed in action and Private Earl S. Crounham was killed by a German sniper while eating with friends at a home in Belgium. These men died in camps in this country: Harold Meyer, George Gross, Horace Swink and Charles Sacks.

MEXICAN BANDITS KILL MINING MAN

El Paso, Tex., Sept. 1.—Adam Schaeffer, said to be either an American or a British subject, was killed by Mexican bandits at his mine in the state of Zacatecas, August 28, according to a telegram received by the American Smelting and Refining Company here today. Schaeffer was an independent mining operator and was fifty-five years old.

Mexico City, Sept. 1.—Manuel Aquirre Berlanga, secretary of the interior and chief of President Carranza's cabinet, declared in a statement last night that President Carranza's message, which will be read at the opening of the regular session of Congress tonight, would be "the most interesting in thirty years and would give newspapers a chance to repair the wrong they had done the country."

The secretary criticized the newspapers for demanding daily official statements from the government on "matters which sometimes take weeks to arrange," and asserted they "aided interventionists by publishing news stories containing errors in facts and editorialials based on erroneous premises."

It was intimated in the statement that the president's message would deal at length with matters affecting international relations and outline the gov-
