RETURN GERMAN CAPTIVES

Sallors Escaped From Camp Sher

man, Caught Here, Sent Back Two German sailors, captured in this city last week following their escape from Camp Sherman, Ohio, were today turned over to officers from Fort du Pont by federal authorities. They are now on their way to Camp Sherman.

The prisoners, William Link, of Bremerhaven, and Joseph Aklund, of Essen, were members of the crew of the Kronprinz Wilhelm. For several weeks the crew was interned at the Philadel phia Navy Yard. Link and Aklund. with twenty-one other German prisoners, made their escape from Camp Sherman by digging an eighty-foot tun-

Policeman Looney, of the Third and Delancey streets station, arrested Link and Aklund while they were attempt ing to board a vessel near Pier No. 16. south wharves.

Arrest Two for \$180 Theft Francis Owens, 2725 North Water oo street, and John J. Cook, 3216 Hurley street, were arrested on comof Charles Charmont, 1234 North Hancock street, who alleges they robbed him of \$180 Friday night. Charmont told the police he met the pair in a downtown saloon. They went for a walk and his new-found communious took his money after a struggle,

The HIGH COST of LIVING Lowered

(From the Bulletin of the United States Grain Corporation.)

42 Broadway, New York

For Immediate Release

August 11, 1919.

Revival of the American housewife's war-time conscience in the Administration of the family table, and the substitution of the wholesome loaf of bread for higher priced foods such as meats, eggs and butter, as a means of reducing the high cost of living were advocated today by Julius H. Barnes, United States Wheat Director, in an interview, during which he commented on the Government crop report for the month of July.****

"The American housewife can work out substantial relief in a natural way. The flour consumption of America fell from its normal of 233 pounds per capita to 171 pounds during the last year. This proves conclusively that bread, which is cheap and wholesome, was displaced in the diet by higher priced foods. 235 pounds of flour per capita would furnish from thirty to thirtyfive per cent of the necessary food values, and this return to normal flour consumption with the consequent saving of higher-priced foods would work out a national saving. for the year, of one billion dollars in the national food bill.

> "More than that, the reduction of strain on the higher priced foods such as meats, eggs and butter, would, by that very reduction of demand, probably secure a lowering of the price level in those foods. Twelve million housewives administered their tables during war-times with a war conscience. The same twelve million housewives today would greatly lighten the strain of living conditions by a similar development of social conscience."
