

# PADEREWSKI SEES BIG GERMAN PLOT

Declares Teutons Seek to Conquer Russia and Crush Poland

## WAGE BATTLE IN THE EAST

By the Associated Press  
Paris, Sept. 5.—"Germany, defeated on the west, has turned to the east, where she is waging a battle with hope of achieving the victory she could not win on the other fronts." Ignace Paderewski, Polish premier, declared to the Associated Press. M. Paderewski will appear before the supreme council of the Peace Conference today to discuss the critical situation in Teschen and Silesia.

"In upper Silesia, east Prussia, Lithuania, along the front in the vicinity of Minsk and along the Ukrainian front Polish armies are forced to face armed enemies," he continued. "Where these enemies are not Germans they are aided by Germans, who are urging the Bolsheviks forward in every way to embarrass Poland."

**Polish Situation Desperate**  
"Our new government, with limited supplies and little clothing for its army, finds the situation desperate. Such leaders as General von Lutwitz, military governor of Brussels under German occupation, and other widely known generals have been entrusted with the task of crushing Poland, but that will not be possible if Poland can get speedy relief."

"Until the German treaty is ratified we cannot get the foreign troops necessary to stabilize the situation and hold the plebiscites in sections of ceded territory. In the meantime Polish workmen are being beaten, abused and killed by German troops in Silesia."

**Germans Commit Atrocities**  
"The Poles are eager to rush into Silesia to avenge the wrongs inflicted on our countrymen, and it is difficult to restrain our people, who are stirred daily by blood-curdling stories of German atrocities told by refugees."

"In the Baltic states of Russia the Germans are fomenting disorder and lending assistance to the Bolsheviks. On all sides we are forced to face this new war that Germany is waging against the allied cause. She is determined to conquer Russia at any cost and is making every effort to hamper us in our battle against disorder."

"German propagandists are twisting every clash between our troops and the Bolsheviks into Jewish pogroms. The battle against us is being carried on by indirection as well as by arms. There is a studied effort to ruin our reputation throughout the world and prevent us from acquiring the international standing we merit. Enemies are shooting at us from every angle."

**Fighting Civilization's Battle**  
"We are unable to defend ourselves against all these calamities. We are too busy shooting at our enemies with rifles to fight the underground campaign which is being conducted in America and throughout the civilized world. We must rely on our friends to refute slanders and keep faith in us."

"We are fighting the battle of civilization against barbarism and against Prussianism and must meet the miserable weapons used by Germany in the hope of robbing the Allies of victory."

"Our people have resisted the blandishments of bolshevism so far, but there is a limit to human endurance. We hope for a speedy ratification of the treaty and pray for the speedy influence of allied troops in harassed districts where plebiscites are to determine the future status of those regions."

"The Poles are being driven from these sections to give ascendancy to the Germans. Our people cannot stand the strain much longer and must have an opportunity to work out their governmental problems in peace."
