Offering the Hospitalities of the Store to Visiting Knights Templars

The Time-Honored Heroic Knights Templar

are making their pilgrimage from every part of the United States to

> The City of the Declaration of Independence of the American Colonies

to hold their Thirty-fourth Triennial Conclave on the same ground that "the first General Conclave of Knight Templary in the United States" is said to have met in 1797.

In this Jubilee year of the World Peace it seems fitting that the two hundred and sixty thousand knights, with their noble wives and sisters, should visit the old Hall where the signing was done and the home of the Liberty Bell, and in this serious time in the history of America renew their vows of patriotism and kindle afresh the fires of friendship, philanthropy and upbuilding of manhood, for which the fraternity is noted wherever known.

All of this great building, from foundation to roof, with whatever hospitalities it can command. may be freely used from 9 A. M. to 5 P. M., and its picture galleries, the great St. Louis Exhibition Organ and public service comforts may be of interest.

The University Hall, on the Eighth floor, has been wholly set apart for the entire week for the use of Knight Templar parties, with writing and reading tables. This will be a convenient place for friends to meet each other.

Please consider the welcome is writ large.

The Very Handsomest Suits That Have Come This Fall

They are so beautiful that we wish every woma pleasure of seeing them with her own eyes.

She will want to feel the exquisite softness and fineness of the cloths-Bolivias, evoras, silvertone, broadcloth, tricotine, even glorified tricotines and mixtures.

She will enjoy studying the wonderful lines of these suits, the straight, long coats, the slim skirts, the loose, rounded jackets. Fur trimming has gone so far that one model has, a jacket with the entire front of moleskin and fur pockets; deep collars and cuffs are frequently seen.

There is marvelous embroidery too, almost covering the skirt part of the coat in some cases or elaborate designs in soutache braiding, and where there is no fur there are other features to take its

The Magnificent Metal Laces Paris Is Using So Lavishly

Everything must be of the gayest, evening gowns especially, and hence the most beautiful laces that Paris could devise have been made for this coming season.

So far as we know, these new metal laces are nowhere else in this city. They are here in great profusion.

Will There Be Enough of the Finer Wilton Rugs?

That is the question in the domestic rug market today. Factories that make these best

rugs are giving dealers only a part of what the latter ask for, and already are telling them just how much (or how little) they can have in the Spring.

At present, however, we are exceptionally well supplied with

Applauding the White Player-Piano at \$565

The White player-piano'is made in the same factory that makes the Angelus. Its player-mechanism is not quite the equal of the Angelus, but then you cannot get an Angelus player-piano for as little as \$565.

At its price the White player-piano has no equal. In fact, it is superior to a great many higher-priced player-pianos.

We endorse it heartily as an instrument that will give complete satisfaction. Indeed, we think so highly of it that we control its distribution in Philadelphia. Sold on convenient terms to those who prefer buying that way,
