AUSTRIAN EMPIRE IS DISMEMBERED

Signing of Treaty Marks Break-Up of Powerful Dual Monarchy

NEW STATES ARE FORMED

By the Associated Press Paris, Sept. 10 .- Today's ceremonies at St. Germain, when the Austrian peace treaty was signed, brought to a months of negotiation between the Austrian republic and the allied and associated powers.

An incomplete draft of the conditions of peace was handed the Austrian delegates at St. Germain on June 2, the reserved sections, relating to the military, financial, reparation and some boundary features of the treaty, being presented on June 20.

The Austrian Government laid its counter-proposals before the Peace Con-ference last month and the answer to the Austrian delegation was made on September 2.

The Austrian republic is very different from the proud Austro-Hun-garian empire of 1914. The former provinces of Bohemia and Moravia and a part of the Duchy of Teschen now form the republic of Czecho-Slovakia. The remainder of Teschen and most of Galicia have been incorporated into

Monarchy Broken Up

The new Ukrainian republic takes. certain sections in eastern Galigla and the former Austrian crownland of Bukowina. Hungary has separated from Austria along the historic boundary between those portions of the former empire. But has herself lost parts of the province of Transylvania which have been awarded to Rumania.

On the south the provinces of Carinthia, Dalmatia, Carbiola, Croatia and Slovania. Bosnia and Herzegovina as well as parts of Styria are formed in conjunction with Serbia into the new Jugo-Slovak kingdom.

Parts of Tyrol are taken over by Italy, the boundaries of which are also extended so as to include most of the Isthrian penipsula and a strip along the western frontier of the province of

All therefore that remains of the for-mer empire is what is known as German Austria, including Upper and Lower Austria and parts of Styria and

Since the close of hostilities there has been a movement afoot by which Austria would be annexed by Germany. By one of the most important clauses of the treaty signed today this is for-

The treaty does not stipulate an exact sum to be paid in indemnities, but this amount will be fixed by the indemnity commission on May 1, 1921, the commission also being empowered to determine the details of the pay-ments, which will extend over a period of thirty years. This sum must be paid by the Austrian republic, and is not to be apportioned among the component parts of the country which bave been declared independent.

Army Cut to 30,000

In addition to paying indemnities, Austria must also replace, ton for ton. all ships lost by the Allies through the activities of the Austrian navy during the war and physically restore invaded areas. She is also to deliver up to allled countries works of art and objects of historic value which were carried away by the Austrians during the con-

Austria's army is reduced to 30,000 men on a purely voluntary basis, and all her military establishments are cut down in a proportionate manner. The entire Austrian naval fleet is to be handed over to the Allies, all ships under construction being broken up and the salvage is not to be used except for

industrial purposes.

The economic clauses and those relative to freedom of transit are similar to those of the German pact.
