

**BULGARIA TO GET TREATY TUESDAY**

Allies Demand Germany Write Pledge to Bar Union With Austria

**COUNCIL SENDS NOTE**

By the Associated Press  
Paris, Sept. 12.—It is probable the treaty with Bulgaria will be handed to the nation's representatives Tuesday. The Greek and Rumanian delegations have filed additional protests against the territorial and economic sections of the treaty which may result in changes being made in the text.

No meeting of the Supreme Council was held today, the departure of A. J. Balfour, British secretary of state for foreign affairs, being apparently responsible, neither Viscount Milner nor Andrew Bonar Law having accepted the responsibility of heading the British delegation.

The supreme council, having virtually completed work on the Bulgarian treaty, will take up the drafting of peace terms with Turkey today. Premier Lloyd George will arrive here today for this purpose. He will be assisted in the conferees by Field Marshal E. H. Allenby, commander of the Allied forces in Asia Minor, who has just arrived in France.

Major General James G. Harbord with the American mission which accompanied him to the Near East for the purpose of investigating conditions in Armenia and the Caucasus region, left Constantinople for the interior on Sunday, according to advices received here.

Geneva, Switzerland, Sept. 1.—(Correspondence of the Associated Press)—Bulgaria is willing to subscribe to any settlement of the Bulgarian questions based on the principle of self-determination of nationalities, said Ivan S. Guichov, formerly Bulgarian minister of foreign affairs and now minister in Switzerland, in a recent statement. If the settlement were made on this basis, peace in the Balkans would of necessity follow, the minister continued. He said Bulgaria would agree to an international commission to settle disputes.

**UKRAINE WHEAT NORMAL**

Reports of Enormous Crop Groundless—None Will Come to U. S.  
Paris, Sept. 12.—(By A. P.)—Advisers from American Red Cross investigators at Poltava, Southern Russia, received today, say that reports of an enormous grain surplus in Ukraine and Southern Russia, which have disturbed American wheat growers with visions of a tumbling market, may be dismissed as groundless.

Investigators, who have just arrived at Poltava, after a tour of the country recently liberated by General Denikin from the Bolsheviks, state that early threshing promise a crop from 10 to 25 per cent above the normal, this being due to the spurring influence of the Germans, who directed their energies last fall to having every available foot in Ukraine put into wheat. Even this bumper crop, however, will fall short of the domestic demand, and it is declared that not a bushel of it will ever enter into competition with wheat from the United States. Russia and the countries bordering on the Black sea will need the entire 1919 crop.

The food situation is generally good.

**NOSKE WARMS GAMBLERS**

Aims to Exterminate "Resorts" in Berlin by Sunday  
Berlin, Sept. 12.—(By A. P.)—Greater Berlin's war of gambling will terminate on Sunday, if an order issued by Gustav Noske, minister of defense, suppressing public and private clubs is strictly enforced.

The provisions of this long-expected order are sweeping, violations of it being punishable by fine or imprisonment, and no loopholes are left for pseudo clubs under camouflaged titles.

The city is now honeycombed by such public and private resorts, fully 300 fashionable apartments being occupied by such establishments.

In an effort to stop the widespread prevalence of gambling, Prussian authorities raided North sea and Baltic watering places a week ago.

**BELGIANS WANT U. S. LOAN**

Consul General at Brussels Consults With Manufacturers  
Brussels, Sept. 12.—(By A. P.)—Henry H. Morgan, United States high trade commissioner in Belgium and consul general, has had a meeting with the leaders of eighteen of the biggest industrial groups for the purpose of discussing the needs of Belgium.

Mr. Morgan suggested five-year industrial bank loans, but the industrial representatives decided that they could not speculate on individual loans. They held out for a loan from government to government.

**LEAGUE DRIVE TO START**

Lloyd George to Inaugurate Campaign in England  
London, Sept. 12.—(By A. P.)—David Lloyd George, the British prime minister, in a speech to be delivered in the Guildhall, October 1, on behalf of the league of nations union, will inaugurate a campaign which is to be carried on throughout the country during the autumn, ending November 11, with demonstrations in every town and city in the United Kingdom.

It is expected by the promoters that the movement will extend to other countries and that November 11 will be made "League of Nations Day," which also is "Armistice Day."

**NEW FILIPINO MISSION**

Will Ask United States Parties to Adopt Independence Planks  
Manila, Sept. 12.—Renewed efforts to obtain independence of the Philippine Islands will be made next year by a Filipino mission which will visit the United States and lay before the national conventions of the Republican and Democratic parties the matter of inserting independence planks in the party platform.

A Filipino mission recently returned home after unsuccessful efforts to have Congress declare the independence of the islands.
