## No Guarantee **Of Success**

Enormous sums in total have been expended on many patent breakfast foods in the past twenty years.

Where are they today?

Where is the music-box, the cottage organ, the----, the ----, the ---- of yesteryear?

And how much money for advertising do you suppose could be squandered trying to "put them over" today?

Advertising will introduce a commodity or an idea and it will continue to remind folks of its existence. but advertising cannot make people take what they no longer want.

Advertising may postpone the death, but it cannot prevent the funeral.

# Why the Miller North Broad Storage Standardized on Goodrich **DeLuxe Truck Tires**

As the Miller North Broad Storage Company, Philadelphia, remarks itself, before a concern of such capacity could standardize on truck tires for its great fleet, it must be so thoroughly convinced of the superiority of one make as to admit of no question.

To reach that conclusion the Miller North Broad experimented in the long, patient, but sure way. It tried tire make after tire make on truck wheels.

Goodrich De Luxe Truck Tires outmatched and outclassed them all!

Operating a large fleet in a radius of 400 miles and getting from 12,000 to 18,000 miles per tire under the severest hauling conditions, the Miller North Broad has daily become more convinced of the wisdom of its choice.

If your truck tires, for any reason, do not deliver, switch to Goodrich De Luxe. Once you use them, you'll use no other.
