Congressman Moore's majority over Judge Patterson in Tuesday's Republican mayoralty primaries, according to final police figures announced today, is

Police officials, in making this announcement, said all their work of tabulation had been completed and that the official count by the election court was the next move.

The police said they were able to complete their tabulations when a report from one of the city's 1356 divisions, which had been missing, was turned in this morning. This was a

division in the Forty-second ward. The final police record marks the end of a long series of police reports which began in the early hours of yes-terday morning and tasted throughout the day. Each of these reports differed and during the day Moore and Patter

sen alternated as leaders.

The final police return makes Congressman Moore the Republican nominee for Mayor.

Congressman Moore carried twenty: three of the city's forty-eight wards. Judge Patterson carried twenty-five. The final police figures made no changes in the wards which continuous reports had credited to one candidate or the

The official count will be started to-morrow under the supervision of Judges Audenried and Ferguson. It is likely to be long drawn out because of plans of the Moore committee to have ballotboxes opened in the hunt for fraud.

According to the latest corrected po lice returns, the Independent forces, in smashing the Vare machine, nominated Congressman Moore for Mayor by a plurality of 1409.

Council Independent

The latest returns show that the Independent prizes of victory in the Republican primaries were: Mayoralty nomination for Congress

Vare to Back Winner Senator Vare announced he and his

friends would abide by the result of the official count. "If Moore is shown to be the Re-

publican nominee," said Senator Vare, "he will be supported by the entire Republican organization. But we will have to wait for the official count." Thomas Robins, a chairman of the Patterson committee of one thousand, subscribed to the Vare statement.

David H. Lane, leader of the Twen-tieth ward for the Vare combination and political sage of the organization, sent word to Congressman Moore's secretary that his ward, which turned in a majority of 3935 for Judge Pat-terson, would give Moore the biggest majority in November that has ever been given by the ward to a mayoralty candidate.

Moore in Washington

Congressman Moore went to Washington yesterday and is expected back in the city tomorrow. Upon his return plans will be discussed for the campaign leading up to the November election.

Moore supporters were happy to find

former Democrat, who was on the Vare ticket, had won over Lamberton, the Moore candidate, by eighteen votes. The new figures place Lamberton safely in the lead, pending the official count.

It was estimated, on the baxis of the police returns that Lamberton had to report of the police returns that Lamberton had to report of the police returns that Lamberton had the streets waiting for the returns minister; Frank L. It was a gambler's trick. It was turned to give some one who had lost heavily on Patterson a chance to recoup by hedging bets.

It was an annoying and conscienceless fake from beginning to end.

When the tabulated returns in the morning newspaper offices closed at 1:30 yesterday morning Moore had, with all the wards heard from, an unofficial ma-jority of more than 1700.

Early in the day—that is to say, about 8 o'clock—a story was circulated that Patterson had been nominated by a majority of 548; that the Moore majority of 1700 was a miscount. Figures purporting to represent the latest returns from Independent wards

were quoted by the police which on their face gave the nomination to Patterson It startled the street and threw the Moore board of strategy into consternation. It was unbelievable that mis-takes in half a dozen wards to the extent of 2000 votes could have been

Simultaneously with the publication of the revised figures and the alleged nomination of Patterson in the evening papers, came offers of money for bets on Moore. So far as known only one bet of \$5000 was placed. The Patter-

son gamblers were hedging. As soon as the purpose of the scheme had been accomplished and the fraud was no longer tenable, the pendulum swung back, the false gains credited to Patterson were wiped out and the Moore

figures were restored. But who engineered the fake? The figures always come through the police department.

The trolley barn and car line terminals in various sections of the city and bridges over which trolley traffic is conducted are under heavy guard. A patrolman stationed at the bridge near the New York shipyard said this morning that orders have been issued to "shoot to kill" should any person try to destroy property.

Each of the cars that left the barn was provided with two motormen and two conductors.
