A REUNION PARTY FOR EX-SERVICE MEN; MENU AND RECIPES BY MRS. WILSON

These Plans Provide for Forty and Can Be Applied to Any Sort of Entertainment Where It Is Necessary to Cook in Large Quantities

By MRS. M. A. WILSON Copyright, 1919, by Mrs. M. A. Wilson. All Rights Reserved.

My dear Mrs. Wilson—I am a teacher of a class of young men. Thirteen of those men were in the service of Uncle Sam, and have all returned except one, and he will not be home for some time, and we wish to give our returned heroes a little supper and a good evening. I would like to have your advice as to the decorations. We have a hallway and two rooms to decorate, and if it is not asking too much will you send me a menu for about forty men? Thanking you in advance, I am J. O. R.

A Supper for Forty Service Men Decorate the hallway and two rooms with pictures of pretty girls cut from magazines, pictures of camping and fishing trips and pictures of small mischievous boys.

Thirty pounds of chicken will give each of the boys two large pieces of chicken. Select large stewing chickens and then cut as for stewing and place the wings, thighs, legs and breasts in a large boiler and cook until tender.

Now place the backs of the carcasses and giblets and feet that have been previously scalded to remove the skin, in a small boiler and add sufficient water to barely cover. Add one dozen onions to both boilers and a large bunch of potatoes. Cook slowly until tender and then pick the meat from the carcass and put with the giblets, minced very fine, by putting through a food chopper. Roll the legs, wings and thighs and make two filets from the breast, dip in flour and then fry until golden brown in hot fat. Brown the flour in the pan in which the chickens were cooked and add the liquid in the boiler in which they were cooked to make the gravy.

Waffles Strain the liquid from the carcass and giblets and measure. Now place in a large bowl

Four quarts of this stock. The finely chopped meat (giblets, neck, etc.). Three-quarters cup of shortening. Four and one-half quarts of sifted flour. Three-quarters cup of baking powder. Yolks of ten eggs.

Beat hard to mix and then fold in the stiffly beaten whites of eggs. Use two waffle irons and start baking about one-half hour before the meal. Place the waffles in a hot

Where You Can See The Cooking Movies

oven, with the door ajar, to let the moisture escape.

Potato Salad Cleanse well three large stalks of celery and then put it, with the green leaves, through the food chopper. Add

Two cans of pimientos. Two and one-half pints of onions.

Wash and then place three-quarters of a basket, or twenty-three pounds, of white potatoes in a large kettle. Cook until tender, taking care that they do not break. Cool, peel and then slice and add the prepared celery, onions and pimientos, and three quarts of salad dressing, prepared as follows: Place in a saucepan

Three pints of water. Two pints of vinegar. Two and one-half cups of cornstarch or flour.

Stir to thoroughly dissolve and then bring to a boil and cook slowly for five minutes. Now add

One-half cup of sugar. Three-quarters cup of salt. One ounce of paprika. Two ounces of mustard. Four well-beaten eggs. One pint of salad oil.

Beat hard to thoroughly mix and then cook for two minutes. Then pour hot over the potato salad. Toss gently to thoroughly mix and then it is ready to serve.

Apple or Peach Shortcake Apple shortcake: Place in a large mixing bowl

Five pounds of flour. Two tablespoons of salt.

together with marshmallow whip. Ice with the following icing:

Two cups of XXXX sugar. One-half cup of cocoa. Three tablespoons of cornstarch. One teaspoon of lemon juice.

and sufficient boiling water to make the mixture spread. Beat hard and spread on the cake.

No. 1174 My dear Mrs. Wilson—Will you kindly tell me what to put into cream candy made with whites of eggs and confectioners' sugar to keep it from getting hard, and the proportions to use? Thanking you very much for your help.

Mrs. L. L. S.

Cream Coconut Candy

White of one egg.

Three-quarter cup of coconut milk.

Three-quarters cup of coconut. One teaspoon of glycerine.

and sufficient sugar to make the mixture stiff. Work to a smooth mixture, and then line a pan with waxpaper and pack in the mixture. Press firmly and let stand for twenty-four

hours, and then cut into bars and wrap in waxpaper.

No. 1168 My dear Mrs. Wilson—During the war when the price of butter was so high, I purchased one of those butter churns, where, by using one pound of butter and one pint of milk, two pounds of butter were obtained. For the longest time it has been standing on the top shelf of my closet, and I have been wondering if it can be used for any other purpose.

Would it do for mixing sponge-cake, for must this be done with a spoon? The churn is too large to use for whipping cream. Thanking you, I am B. B.

I am very sorry, but the best that I can tell you is to set your churn away, or make use of the jar for storing foods.

Seven-eighths cup of baking powder. Two cups of sugar.

Rub well between the hands to thoroughly mix and then rub one and one-half cups of shortening.

Mix to a soft dough with two and one-half quarts of water. Mix well, then spread in ten well-greased and floured cheesecake pans. Cover the tops with thinly sliced apples or peaches and dust well with cinnamon. Sprinkle one-half cup of brown sugar over each apple or peach cake and bake in a moderate oven for twenty-five minutes. Cool and then cut each cake in six pieces.

How to Make Coffee Place five gallons of water in a large boiler and then place two pounds of finely ground coffee in a cheesecloth bag, and place in the water and bring to a boil. Simmer slowly. This will give ninety cups of good coffee.

The materials required are: Thirty pounds of chicken. One-quarter peck of onions. Three stalks of celery. Six heads of lettuce. Two cans of pimientos. Three-quarters basket of potatoes. One quart of vinegar.

One package of cornstarch. One quart of salad oil. One package of salt. One box of paprika. One box of pepper. Two ounces of mustard. Four eggs. Fifteen pounds of flour. One-half pound of baking powder. Five pounds of granulated sugar. Four pounds of brown sugar. Three cans of milk for coffee. One basket of apples or peaches. Two pounds of butter. Seven loaves of bread. One gallon of pickle. One dozen bunches of radishes. Forty rolls.

Planning a menu for the boys who are returning should mean that these boys should be served with a liberal helping of food. The usual portion that would be fully adequate for the evening refreshment will hardly fill their hollow teeth, so give them plenty of plain, substantial food. This menu will cost about \$22, and will satisfy the hungriest of them, if all portions are liberal. If you desire, you may serve each chap with a nice bunch of Concord grapes in place of the cocktail, or it may even be omitted from the menu entirely.

One package of cornstarch. One quart of salad oil. One package of salt. One box of paprika. One box of pepper. Two ounces of mustard. Four eggs. Fifteen pounds of flour. WHAT ARE THE PROOFS OF LOVE?

TIME and time again this question has come to the woman's page. It is not an idle question—all of a woman's life is bound up in it. Julia Grant thought she knew. Yet exactly three weeks before the day on which she was to be married Dan Carson covered before her and finally admitted there was some one else. What followed and how fate took an amazing hand in the lives of these two young persons is the basis of an unusual serial.

"THE TESTING OF JULIA GRANT"

To begin on the woman's page next Monday. The story is by Hazel Deyo Batchelor. But it is more than a story. It is a vivid dramatic cross-section of life that strips bare the lives of real men and women. Remember

Please Tell Me What to Do

By CYNTHIA

To "Heart-Broken Eighteen"

The young man owes you an explanation, dear: there is no getting away from that fact and you would only be belittling yourself to write any sort of a note to him. The boy probably intended to spend his time with you, but probably the weak type that always follows the crowd. You must be strong-minded and make up your mind not to bother your head about him until he makes an explanation. This, by the way, will make him respect you far more than if you sought him out.

Lines From "A Doll"

Dear Cynthia—I am a New York girl but have come to Philadelphia to live. I am coming to you because I saw something in the EVENING PUBLIC LEDGER about "Dolls."

I am what you would call a "doll," but please don't think all dolls are as bad as they look. If some of these girls who have been writing about "Dolls" had a chance to be them, I believe they would be right there. When we doll up we're not hurting any one, so why should you worry your head over us?

I know for a fact that the fellows would not think of marrying a "doll" because I pity them if they do. I know what kind of girls they are (being
