in an article entitled

Mending Your Business

in the October number of The Red Cross Magazine, looks as if it might go a long way toward solving our labor problems.

Plan Prevent

Strikes.

AS this man with the phys-

John Leitch doesn't look like

a business man, but his plan of

industrial democracy, ably pre-

sented by William Almon Wolff,

Leitch has spent many years developing his industrial democracy idea. His plan is not Bolshevism, nor does it take control from the owners of a business.

Contrast Leitch's Plan with the Plumb Plan

The much discussed Plumb plan for running the railroads is new and untried. John Leitch's plan has been tried, and where it has been wholeheartedly adopted it works. It has succeeded because it offers a concrete plan, based on justice and cooperation.

There are basic differences between Leitch'splan and the Plumb plan that are absolutely irreconcilable. But in practice there are enough points in common to make an understanding of Leitch's plan an interesting and valuable basis for calculations regarding the Plumb plan.

Whether you are the humblest kind of a worker, or a great captain of industry, this remarkable article in the October issue of The Red Cross Magarine is vitally important to you. Be sure to read it.

Let's Get Acquainted THE three articles from the October issue described in this advertisement illustrate the new gettogether-and-talk-it-over

spirit of the reborn Red Cross Magazine. Look it up and get acquainted with your new magazine! October Issue On the News stands 20c

CWIFT runs the tide of events. New needs, new problems arise over night. All our problems, present and future, must be met squarely-must be discussed frankly.

Through the pages of the reborn Red Cross Magazine the American people tell of their struggles, their aspirations, their achievements.

It is your magazine; my magazine; OUR magazine -"the heart of America in print."

Name..... Street and No..... City or Town

THE RED CROSS MAGAZINE, 124 East 28th St., New York

B E SURE to read this delightfully intimate and wonderfully inspiring story by Hermann Hagedorn, author of "A Boy's Life of Roosevelt," in The Red Cross Magazine for October.

He tells just the things you want to know about Roosevelt as a father, and in five short paragraphs gives the simple philosophy of life that this great American taught his boya-a philosophy that will fit every boy -yes, and girl, too-in America.

It's a story that will prove tremendously interesting to every American, and one that no father or mother can possibly afford to miss.

Mothers: Fathers

ARE you satisfied with the school your children attend? Yes? No? Then by all means read the remarkable article-

"The School That Everybody Wants

in The Red Cross Magazine for October.

It is written by ANGELO PATRI, New York's most famous schoolmaster. His father, a common laborer, but with a poet's soul, brought him here from Italy, a child. He was sent to school, then to college-on wages of \$2.00 a day. Now at 43, he is principal of one of New York's biggest public schools, and is working every day to achieve the school he pictures in his wonderful article.

Whether you live in the country, in a small town, or in a great city, Mr. Patri has a message for you. He will tell you things about your children and their education that you probably have never realized before.

And on page 71, in the middle of the leit-hand column, you will learn a secret from this great schoolmaster that is so simple that you will wonder that people haven't always known it! That secret is the foundation for the new kind of school we all want.

Mothern and fathers, get the October Red Tross Magazine; read this article; then find out what you and your neighbors can do to help the good falks on your local board of education to give you that kind of school for your children.
